

Jeremiah P. Carroll II

My experience as a Certified Public Accountant with over 25 years as the County Auditor in a \$2 billion county can be used to assist you in achieving the Discovery Charter School's strategic goals. I currently have a CPA firm used primarily for consulting services.

In addition to leading a team of auditors performing financial, operational, information technology, and fraud audits; and monitoring corporate compliance and compliance with Health Insurance and Portability and Accountability laws, I often had to diplomatically interact with local politicians, law enforcement, attorneys, and the public. Due to the unique skills of the Audit Department, we were often asked to consult or audit in various troubled areas including the hospital, airport, police, courts and financial areas. My personal recommendations as well as my leadership skills resulted in collections of millions of dollars in various locations of the County.
