My daughter has been going to Spring Valley Montessori for 8 years and it is a wonderful school full of warmth, pushing her for excellence, and life skills. I am extremely excited about the possibility of this Montessori charter school. For her to transition from her private school to a Montessori charter school would be a dream come true. I appreciate how Ms. Susan the Director has a passion for the education of the kids and making a difference!

My son has attended Spring Valley Montessori from the age of 2 and 1/2 years old. My son is now in lower elementary and has thrived the entire time there. He is very bright and is always constructively challenged and the level of his education from Spring Valley Montessori has been amazing. His math skills far exceed 3rd and 4th grade. He has learns some amazing things such as human anatomy and physiology, including great understanding of circulatory and nervous systems just to name a few. Biology including in depth knowledge of animal classifications and plant biology as well. His reading progression and vocabulary is also amazing. These are just a few examples of things he learns and it is incredible and I always find myself very amazed and proud of his performance and the schools.

He loves all his teachers and administrator and has always been treated VERY well and everyone has always exceeded my expectations in level of genuine personal care and compassion. I would not want to consider my son in any other program without the staff and educators at Spring Valley Montessori.

He is well educated already and I feel he has a bright future from being there!!!!

I am writing to show our support for the Las Vegas Montessori Charter Academy as they are applying to open a public charter school to serve the Spring Valley area. We are proud parents of two little ones, Daniel who is 3.5 years old and Anthony who is 8 months old; and they've attended Spring Valley Montessori since they were 3 months old.

Through our experience with Ms. Susan (Owner/Operator) and their incredible staff, my wife and I were able to witness firsthand the level of care and attention the entire team provides to their students. They offer a very structured educational approach for every grade level which allowed us to track Daniel's progress from toddler class to pre-kindergarten, but more importantly they provide an environment designed to cultivate the love of learning, which is evident when I see Daniel and his classmates highly engaged every day at school.

As parents who were fortunate enough to receive a quality education growing up; my wife and I believe that great schools along with fantastic teachers is what creates the type of culture needed in a child's development, both academically as well as their soft skillsets (ie. self-confidence, creative/critical thinking, & interpersonal skills). Ms. Susan and her teachers has demonstrated to us along with countless other families their unwavering commitment to providing students with this type of learning and educational culture that has proven to be very successful. We fully support Las Vegas Montessori!
