Note: Some NSPF reports were updated on December 15, 2018 to reflect updated SBAC Mathematics scores.

In order for a high school to be rated, it must meet the minimum n-size requirements and earn points in at least the following indicators and/or measures: Student Achievement, Graduation. For this school, the minimum requirement have not been met.

## What do the performance indicators mean?

## Academic Achievement-Student Proficiency

Academic Achievement is a measure of student performance based on a single administration of the State assessment. Cut scores are set to determine the achievement level needed to be proficient on the assessment.

Points are earned based on the percent of students proficient in the areas of English Language Arts (ELA), Math and Science based on assessment scores.

## English Language Proficiency

English Language Proficiency is a measure of English Learners achieving English Language proficiency on the State English Language Proficiency assessment, WIDA.

The NSPF includes Adequate Growth Percentiles (AGP) to determine if English Language Learners are meeting the goal toward English Language Proficiency.

Students meeting their growth targets should be on track to become English proficient and exit English Language Learner status in five years.

## Student Engagement

Student Engagement is a measure of 9th Grade Credit Sufficiency and Chronic Absenteeism.

Ninth-grade credit sufficiency represents the percent of students earning at least five (5) credits by the end of the first year of high school.

Research shows attendance matters and chronic absenteeism places students at risk of academic failure. Chronic absenteeism is defined as missing 10 percent, or more, of school days for any reason including excused, unexcused or disciplinary absences. Students who are absent due to school sponsored activities are not considered absent for the purposes of this calculation.

## Climate Survey Bonus

The Climate Survey is a State Survey administered to students in certain grades across the State. Schools meeting or exceeding the $75 \%$ participation threshold can receive bonus points. Two additional bonus points are reflected in the Student Engagement section.

## Graduation

The cohort graduation rate is determined through the adjusted cohort graduation rate (ACGR) process and follows federal guidelines for computing the rate. This process usually results in preliminary graduation rates in October, with disaggregated rates determined in December.

Because these dates are past the required State accountability reporting date of September 15th, the cohort rates used for this indicator lags one year behind the other accountability data in the school rating system.

## College and Career Readiness

The college and career readiness indicator is made up of three measures. These include the percent of students:

- participating in post-secondary preparation programs
- completing post-secondary preparation programs
- earning an Advanced Diploma*

Post-secondary preparation programs includes Advanced Placement (AP), International Baccalaureate, Dual Credit/Dual Enrollment and Career and Technical Education.

Dates a for Advanced Diploma are past the required State accountability reporting date of September 15th, the cohort rates used for this indicator lags one year behind the other accountability data in the school rating system.
