

SITE PLAN W/ TRAFFIC CONTROL ELEMENTS

ROCHELLE AVE

1"=30' AT D SIZE

At full capacity, GALS anticipates 400 students in attendance.

GALS plans to stagger start and end times by grade:
 7:30 am - 2:30 pm - 6th grade
 7:45-am 2:45 pm -- 7th grade
 8:00 am - 3:00 pm - 8th grade

Each grade will have eventually approximately 133 students. GALS anticipates many students will carpool, walk or ride a bike to school

Cars will be assigned a 1, 2 or 3 drop off/ pickup location displayed as a sticker on the car windshield.

Priority access will be given to handicapped students, then 3+ car pools, then 2+ carpools. 1 car drop offs will be given last priority or drop off at the Esccondido drop-off point if there is any congestion.

Access and departure shall be from the north-east corner on a anti-clockwise loop that can accomodate 50 cars under the direction of traffic monitors.

Cars will organize into 3 blocks of 8 in double rows and drop offs/pick ups will occur simultaneously. It is anticipated that the actual car count will not exceed 2/3 of the maximum student count. Therefore 300 cars can be accomodated in 6 cycles of 5 minutes each.

-  DROP-OFF POINT
-  PICK-UP POINT
-  QUEUED CAR
-  EXITING CAR
-  CONCRETE PATH
