Please provide your input for Pioneer Technology and Arts Academy below *

My family and I have lived in this area for 33 years and have watched the rural neighborhood aspect be ignored and destroyed by building projects that do not conform, regardless of Rural Neighborhood Preservation (RNP) regulations. Allowing any more schools, businesses, or even homes that do not conform to the RNP is totally against the idea of preservation and should be prevented.

It is already very difficult to ride a bicycle or take a walk for exercise, walk dogs, or just walk for any reason due to the high traffic volume, especially during the times when schools start and end. You have access to the number of children in the area schools, and it is a high number when safety is a concern—as it should be. Constructing another school totally disregards the residents of this area who purchased homes with the knowledge that the neighborhood was rural which means limited traffic. That has changed with the numerous schools, churches, businesses, and other facilities that have been allowed to build ALREADY and is totally against the master plan for RNPs.

To allow another school will not only change the character of our neighborhood even more and bring another element of city life that we did not agree to when we purchased our homes in a supposedly protected neighborhood but also will cause more safety concerns for us.

Please support us as residents who have a lot invested in this neighborhood.
