

7/21/22

SPCSA Board Meeting Update

Cactus Park Elementary | pilotED Schools of Nevada

Facility

- Permit received! Current timeline puts us at a TCO on October 13.
- We are moving forward with temporary location at Nevada Prep.
- We have notified families and staff of the temporary location.

Enrollment

- Space limitations at Nevada Prep mean we are looking to enroll 200 students.
- We have about 240 active applications for 200 seats.
- As we contact families we are keeping that number true up in terms of withdrawing families who have moved or are no longer going to attend.
- We have been calling, texting, & emailing families daily as well as holding weekly office hours to support with registering,
- We have about 150 registrations that are fully complete.

Staffing

- We will be hiring a facilities manager for when we occupy our permanent building.
- We recently had a teacher who was hired in the Spring resign right before she started this week. We have reopened the position and have a long term substitute in place in the meantime.
