Patrick—

Perhaps as you reach out to CCSD to let them know about the closure of Roberson, you cd also inform LV Charter Authority high schools about the situation and ask for their assistance. Perhaps you cd supply the Quest receiver and/or parent liaison with the name and contact info of the registrars at our high schools to help facilitate the transitions we know are coming.

Thanks—

Kathleen

I wanted to personally thank you all for taking the time to speak with me today during the short break of the meeting. All of your thoughts and kind words were appreciated.

I think we are all sorry that the Roberson Campus of Quest Academy had to close. It is very easy to look back and to see all of the things that we wish we had done differently. The reality is there is no going back and we can only learn from our mistakes and do our best to not repeat them in the future.

I do ask that you continue to require monthly updates at meetings from not only Mr. Kern, but for any receivers that you place at your schools. I think these updates will provide any necessary information to you and to parents. It will also ensure that the board is more involved in big decisions that may come up. I prefer the board to be involved rather than one person making those decisions.

I believe that Mr. Kern has done a very good job at tackling the finances of Quest Academy. Based on his meeting with parents this week, I believe it is his intent to provide the liaison to parents that need assistance with the transition. It is also my understanding that he will be providing some tutoring if necessary for high school students that are trying to acclimate to their new schools. He has named Mrs. Ferguson as a parent liaison and I agree that she will do a wonderful job helping him to improve the communication issues of the past.

One more request that I have – I appreciate that you intend to reach out to Clarke County regarding the Quest High School students. However, my son and many of his friends that I know will be attending schools still under your

authority. If you would like to help me and to help them, reach out to your high schools. Let them know the situation. Especially the high number of Quest kids on IEP's that are going to be entering their schools. Quest was a very special home for many children. Any support that you can offer your schools that helps them to support Quest kids transition better would be so appreciated.

Lastly, as I said earlier today. It is my belief that this board did all that they could to give our school it's best shot at success. I think you did what you thought was right based on the information given to you. In the future I hope that there may be more open lines of communication between families, those in charge of your schools, your Director and the board.

There are parents in your schools that want to help. If there is some way that we can help push our government to increase funding for more programs that would help the Charter Authority, please let us know.

Thank you again for your time and concern for our families. I look forward to your continued leadership of the schools my children attend.

Patrick,

Just FYI, Tara is informing me below that most Quest students will be going to other charter schools so if we can let them know as well- not only CCSD. Thanks!

ps- what is up with the Picket Family? really an intro to music grade??? what are we supposed to do with that?

Nora
