# INTRODUCTION AND SCHOOL BACKGROUND

## INTRODUCTION

This Site Evaluation Report offers an analysis of evidence collected during the school evaluation that took place on 9-22-20. The State Public Charter School Authority (SPCSA) conducts a comprehensive review of evidence related to all charters within the portfolio during the 1<sup>st</sup>, 3<sup>rd</sup>, and 5<sup>th</sup> year of operation. This comprehensive analysis addresses the academic success of the school and the effectiveness and viability of the school organization.

An analysis of the school's academic and operational success is undertaken by reviewing the most current versions of the Nevada State Performance Framework (Appendix A) and the State Public Charter School Authority Academic Framework (Appendix B) as well as the Organizational Framework (Appendix C).

In addition, the Site Evaluation Team conducts classroom observations within the areas of classroom environment and instruction. The purpose of these observations is to collect evidence using a rubric which has been normed by our team. All classroom rating outcomes will be displayed within this report so that school leaders have an overall idea of what is happening in general, at any time, in any classroom. The overall numbers will provide information about the school outcomes on this one day.

SPCSA staff will track "best practices", using a checklist and a summary of best practices observed, and will be contained within the report. Using information from focus groups of students, parents, staff, school leaders and the school's board, the SPCSA team will conduct focus groups and summarize results for schools within the report. The operational portion of the evaluation will be observed and take-aways recorded using a checklist and observing all aspects of the school's operational components as outlined in the SPCSA operational framework.

This evaluation has been designed to focus on teaching and learning (e.g. curriculum, instruction, assessment, and services for at-risk students) as well as leadership, organizational capacity, and board oversight. The SPCSA uses the established criteria on a regular basis to provide schools with a consistent set of expectations leading up to renewal.

# ORGANIZATIONAL PERFORMANCE

The SPCSA uses the Organizational Performance Framework to collect evidence of performance and evaluate schools, at least annually, to monitor schools throughout their charter terms, to report to schools and the public annually, to intervene in schools that do not meet expectations and to make high-stakes decisions, including: renewal, non-renewal, possible revocation, expansion or replication. Most of this work is done through routine submissions by the school to the SPCSA.

A limited number of measures within the organizational performance framework may be at least partially evaluated during the site evaluation process. Measures are partially evaluated based upon evidence from school focus groups, school observations, documents reviewed and information from the school presentation portion of the evaluation. SPCSA staff will note the evidence provided by the school and also outline any questions or potential concerns.

Measure	Description	Evidence Collected Through	Takeaways
1a	The school implements material terms of the education program	School Presentation Classroom Observations	Since the Cadence Campus is a K-12 school, the leaders and instructional staff have the ability to set expectations at the high school level and create vertical alignment beginning in Kindergarten.
1b	The school complies with applicable education requirements	School Presentation Classroom Observations	The Cadence Campus ensures that the school handbook is updated on a yearly basis and is reviewed and adhered to by all.
1c	The school protects the rights of students with disabilities	School Presentation Classroom Observations	All IEP goals are tracked via progress monitoring and through collaboration between regular/special education teachers, students, and family members.
1d	The school protects the rights of ELL students	School Presentations Classroom Observations	Cadence Campus has adopted the Structured English Immersion program. The objective is to guide students to make meaningful academic connections and improve language skills along the way.

Measure	Description	Evidence Collected Through	Takeaways
3a	The school complies with governance requirements	School Presentation Classroom Observations	The Cadence campus handbook is updated yearly. The school conducts safety checks on a routine basis and makes improvements as the need demands. Virtual learning participation is monitored closely, and on-line aspect is maintained in a confidential manner.
3b	The school holds management accountable	School Presentation Epicenter Submission	All school leaders are evaluated on a yearly basis.
4a	The school protects the rights of all students	School Presentation	All Pinecrest campuses have developed a restorative justice plans to keep students in school as much as possible. Title II funding is being used to develop equity in education practices. All Pinecrest Campuses have social workers at school sites to assist in providing social emotional support.
5b	The school complies with health and safety requirements	School Presentation	The Cadence Campus has made a special effort to protect all students and staff at the school site. The location of the campus requires extra security and safety measures, and the leaders have an on-going working relationship with law enforcement in the area. The school is a safe place to attend school.

## STRENGTHS

A Summary of strengths as observed through academic achievement indicators, classroom observations, focus group feedback and portions of the Organizational Performance Evidence are found within the body of the report and summarized here.

1. The SPCSA would like to acknowledge the laudable efforts of educators at the Pinecrest Campuses who, during a pandemic, used existing knowledge to create meaningful learning opportunities for students. Pinecrest staffs did not miss a beat, stepped up to make sure students continued to learn.
2. Several unique organizational strengths were observed at the Cadence Campus:
  - The nature of the K-12 campus allows the schoolwide team to see the vertical alignment challenges from Kindergarten through 12<sup>th</sup> grade. This perspective has allowed the team to address these challenges head-on and remove potential barriers. Examples include schoolwide mission alignment (as opposed to elementary, middle, and high school), preparing students in elementary for known upcoming curricular challenges in middle and high school classes, aligning core content with ever increasing levels of vocabulary and subject matter rigor due to previous student experience in lower grades, and staff to student lasting relationships.
  - The Cadence campus is located in an area with diverse income levels. The school has taken it upon themselves to send out a message to the close-by housing developments, apartment complexes, and surrounding community at-large that Pinecrest Academy Cadence is a public, tuition-free school.
3. Safety is a top priority at the Cadence campus and both school leaders and staff have learned to analyze a variety of safety concerns at the campus and respond in ways that make the school even safer. The Cadence team works to prevent the likelihood of unsafe conditions reoccurring.
4. During classroom observations occurring in the virtual learning format, teachers were calm and tried out new ways to engage and guide students to higher levels of achievement. This shows evidence of trust between staff and school leaders. In addition, there were two observed classrooms where Special Education or support staff consulted with the classroom teacher about the possibility of the second staff member entering a chat room with the student in need while other students were also placed in a chat room. It was encouraging to see the level of professionalism and direct support to students whether it was one-on-one or small group.
5. The Cadence campus has continued to monitor student learning using diagnostic test measures and interim assessments for learning since the Pandemic began in March of 2019. This decision is to be commended as the campus seeks to continuously improve learning outcomes for all students in alignment with the mission statement.

## CHALLENGES

A summary of challenges as observed through academic achievement indicators, classroom observations, focus group feedback and portions of the Organizational Performance Framework Evidence are described within the body of the report and summarized here.

Challenges at Cadence, as is true with many schools, relate to funding and quality of on-line, distance education. Considering the circumstances, it is our finding that the Cadence Campus has continued to uphold the mission statement all the while, seeking to make budget cuts and improve distance learning to the best of their ability.

## RECOMMENDATIONS

Recommended items are provided so charters may increase their school-wide ratings as well as their overall success. SPCSA School Support team members will follow up on each listed recommendation.

1. The SPCSA recommends taking time to build upon the variety of distance learning practices to become even more skilled, purposeful, and intentional with this platform. We suggest using what has been learned in both face-to-face and distance learning environments to leverage what works best to impact student achievement. In both settings, research has shown (*Fisher, Frey & Hattie, 2020*) that the following best practices apply to both settings:
  - Fostering student self-regulation is crucial for moving learning to deep and transfer levels.
  - Learning accelerates when the student, not the teacher, is taught to be in control of learning.
  - There needs to be a diversity of instructional approaches (not just some direct instruction and then some off-line independent work).
  - Well-designed peer learning impacts understanding.
  - Feedback in a high-trust environment must be integrated into the learning cycle. (*Fisher et al.,2020*)
2. Consider launching professional development in response to best practices and lessons learned during the distance learning time frames.
