

2024-25 Annual Nevada SPCSA Compliance Requirements

The SPCSA monitors compliance standards through a combination of Epicenter tasks, desktop monitoring, governing board certification, communication with other state agencies, and site visits. The SPCSA may not conduct a desktop review of every requirement in every school year. If the SPCSA, or other relevant agency/organization, does not review or report a requirement, the SPCSA may request additional assurance from the school's governing board that those requirements have been met, and ratings for those requirements will be based upon those assurances. Each standard is rated based upon the Primary Monitoring Source(s):

- Meets Standard: The school has met the threshold for success.
- Approaches Standard: The school submitted the documentation past the due date or errors were found. SPCSA has followed up with the school.
- Does Not Meet Standard: The school materially failed to meet the target during the evaluation period.

The overall rating for the 2024-25 Organizational Performance Framework will be based upon the following criteria:

- In Compliance: All requirements on the checklist are rated Meets Standard or Meets Standard by Assurances.
- Partially Compliant: One or more requirements are rated Approaches Standard but no requirements are rated Does Not Meet Standard.
- Out of Compliance: One or more requirements are rated as Does Not Meet Standard.
