Nevada State Public Charter School Authority Meeting

	Nevada State Public Charte	er 50	
-	49*L* Page 1		Page 3
1	NEVADA STATE PUBLIC CHARTER SCHOOL AUTHORITY	1	Friday, May 20, 2016; Las Vegas, Nevada
2		2	PROCEEDINGS
3		3	* * * * * * * * * *
4		4	CHAIRMAN JOHNSON: It's 9:02. I'm going to
5		5	go ahead and call our meeting to order. We'll go
6		6	ahead and do roll call first.
7		7	MEMBER MACKEDON. Can you go ahead and stand
8		8	up for the pledge of allegiance?
9		9	(Pledge of Allegiance)
10		10	MR. WHITNEY: Mr. Chairman, I move to allow
11	REPORTER'S TRANSCRIPT OF REGULAR MEETING	11	
12		12	CHAIRMAN JOHNSON: All in favor for
13		13	accepting the agenda?
14		14	ALL: Aye.
15		15	CHAIRMAN JOHNSON: Motion passes. We will
16		16	work with a flexible agenda.
17	Taken at Grant Sawyer Building 555 East Washington	17	The first item on the agenda today is public
18	Room 4412 Las Vegas, Nevada		comment. We have three people who would like to
19	On Friday, May 20, 2016		speak. So I will call up three at a time. First up,
20	At 9:00 a.m.		William Whitesell? I'm not sure I'm saying your last
21			name properly. (Inaudible) (inaudible), Shane
22			Shanson, Swanson?
23		23	MR. GAVIN: Mr. Chairman, would you note for
24		24	the record that we have a three-minute time limit?
25	Reported by: Jane V. Efaw, CCR #601, RPR	25	CHAIRMAN JOHNSON: Yes. Next, Joe Nestor?
L*49	49*L* Page 2		Page 4
1	Board Members Present:	1	Joe Nestor is in the crowd? Thank you, Joe. We have
2	MARC ABELMAN, Member		a three minute time limit.
3	ADAM JOHNSON, Chairman	3	WILLOUGHBY WHITESELL: Hi, guys. So I'm
4	ELISSA WAHL, Member	4	
5	KATHLEEN CONABOY, Member		Connections Academy. I love doing home schooling
6	ROBERT McCORD, Member		because I'm an actor and singer. So it goes well
7	MELISSA MACKEDON, Member (Carson City)		because I go to LA almost every week. So I use home
8			schooling to like take my laptop, and I can do
9	Others Present:		whatever state I want. I just love it. I think it's
10	ROBERT WHITNEY, Deputy Attorney General (For Board)		so much easier than doing regular school because when
11	GREGG OTT, Deputy Attorney General (For Staff)		you go to regular school, you have to take sick days
12	PATRICK GAVIN, Director		and you have to take absent days, and you have all
13	BRIAN SCROGGINS, Deputy Director		these absent days. While with home schooling, you
14			can just take your computer with you and do it there.
15	* * * * * * *	15	
16		16	CHAIRMAN JOHNSON: Thank you, Willow.
17		17	WILLOUGHBY WHITESELL: Thank you.
18		18	JENNIFER BISTLINE: Hi, my name is Jennifer
19			Bistline. I'm representing the special needs
20		20

Beacon Academy excels in not only caring about the students' academic needs, but also their social and emotional needs. Hence the extensive wraparound services that we provide for our students. It is our belief that lack of attendance and school engagement is simply a symptom of a much bigger problem with the students, which is usually the biggest non-academic issue. These struggles are often related to a lack of basic needs being met, homeless parents, lack of a support system and alcohol and substance abuse addiction, teen pregnancy, being adjudicated and many other risk factors.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	are currently in the process of being approved to operate a drop-in daycare so that students can bring their school bring their children into the school while they're being tutored. Beacon Academy also collaborates with Nevada's Partnership for Homeless Youth to ensure that the students' academics are not disrupted because of homelessness or a chaotic home life. The homeless students that attend Beacon need information on affordable housing, homelessness resources and any other teenager resources available. Many need counseling to identify how their current housing situation impacts their ability to be successful academically. We also provide students who are identified with FRL with many services throughout the school year. All of our students get information linking them to community resources that can assist financially with their basic needs. We partner with Project 150 to provide nonperishable food items, toiletries and clothing to the students. The student has access to these items through the Beacon closet which is located in our office.

I'll tell a story of a gentleman named Jake. He's a friend of my wife's son. His parents were divorced two years ago. Jake is one of the most engaging fun-loving children I've ever met. In fact, I've often thought at some point I would love to hire Jake to work for our company. Although in the last two years, he has definitely become distracted and lost focus. Five weeks ago at a big public school in Summerlin, Jake was told he needed to withdraw from school because he was no longer on track to graduate. I wonder where Jake is going to go. In closing, I want to thank you for your
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	human resource and business services. This new administration under the direction of the Beacon Academy government body, began in the 2014/2015 school year with responsibility to developing and refining processes and services in all aspects of the school. An intensive audit of daily operations, curriculum procedures and staff was completed in order to implement school improvements for the 2015/2016 school years. Thank you. CHAIRMAN JOHNSON: Thank you. JOE DIRAFFAELE: Good morning, Chair Johnson and members of the board. Thank you for the opportunity to speak this morning. My name is Joe DiRaffaele. I am the vice-president of the Beacon Academy governing board. I'm a 30-year resident of Las Vegas, and I've been a business owner for the past 23 years. If there is one thing I do understand, it is the makeup of the diversity within our state. I'm a proud father of two high school students. My son, Tyler, a junior; my daughter, Emily, a freshman. Tyler and Emily's mother and I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	with creating them. There are diverse options excuse me they deserve options for their education that work to support their world, and at Beacon Academy we are committed to making this happen. We are confident that once you hear our presentation today and see the numbers that correspond, you too will be pleased and impressed with the overall direction and impact Beacon Academy has been making with the students. 	Holly Hoffbauer, Jeri Wickers, and Spencer Bassett.		Wicker. And I work at Spring Mountain Treatment
2	HOLLY HOFFBAUER: Hi, my name is Holly		Center. Spring Mountain Treatment Center is an
	Hoffbauer. I am here to speak on behalf of Nevada		inpatient behavioral health facility. And we do work
	Connections Academy.		with children from ages 6, actually up to 17 now.
5	First I would like to thank you for this	5	······································
6	opportunity to speak in front of you today. But I		several years. I think our work relationship started
	would also like to share with you what Connections		in 2011. In the time that we have worked with them,
8	Academy means to me.		I can say that they have been outstanding in making
9	Every single year of my life I have attended	9	sure that their students got all of the opportunities
10	a different school. That means as of this year, I	10	and all of the tools needed in regard to their
11	have attended more than nine schools. So from		education while hospitalized at Spring Mountain
	experience, I can honestly say out of all the schools		Treatment Center.
	I've been to, Nevada Connections Academy has been the	13	
	only school where I felt I fit in the best.	_	and people are in crisis. They have communicated
15	Academically NCA has given me opportunities		with our staff on a daily basis to make sure that
	other schools can't even come close to competing		everything is in place and going very smoothly for
	with. I can go at my own pace to complete lessons as	17	
	well as receive one-on-one attention from my	18	
	teachers. As an actress and an activist in the		of organizations. I am happy to say that Beacon is
	community, I can't even begin to describe how many		the top organization we have worked with in regards
	doors this has opened for me. I can spend a few		to education for their students. They really, really
	hours completing my lessons for the day, and then go		care about them, which works very well with us. I am
	to an audition or volunteer activity later in the		very, very happy to say that we are partnering with
24	day.	24	them and happy to be their partner.
25	At one point, I was Miss Junior Teen	25	CHAIRMAN JOHNSON: Thank you so much, Jerry.

No matter if a student struggles	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	SPENCER BASSETT: Good morning, members of the board. My name is Spencer Bassett, and I go to Beacon Academy of Nevada. I am currently a junior, and each year of my high school career, I have gone to three different high schools. One in Texas where it was yes, sir; no, sir; sorry sir, to transferring to the highly recognized regular school here in Nevada where there was high disrespect, no order, no lodging even in the general population of the school. I didn't feel comfortable in the environment. The students were not motivated. The teachers did not care about their students. And that is when I started looking for new resources outside of what I was currently receiving. Every day my sister came home from Beacon Academy. She's an appearing actress. Hearing her praise the academics they had to offer, how much the teachers love their students, how much they care, how open they are to receiving just everyday lives of students.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Las Vegas, and NCA was more than willing to support me in my endeavors as well as make sure I stay strong academically. Speaking of activities, socially NCA has become a place where I've made lifelong friends. It's a common misconception that home schooled students don't have a social life. When in actuality, NCA offers activities and events all the time. I was just at an event last night where I got to go rock climbing with my best friend and some of my favorite teachers. Out of all the other schools I've been to, I can't seem to recall a sense of community that I have found here at Connections Academy. If I could use one word to describe NCA, it would have to be Ohana. Ohana is Hawaiian for family. And family means nobody gets left behind. And here at Connections Academy, that saying couldn't be more true. No matter if a student struggles academically, suffers an illness, is an aspiring	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	SPENCER BASSETT: Good morning, members of the board. I have had the opportunity to work with Beacon over the last couple of years developing a partnership directly with the school social worker, Jill Nester, in the capacity of tapering the prevention as well as my current position right now working with the Healthy Start program. The Beacon Academy is an excellent school. It provides the teens with an opportunity that may not have a chance to go into the school directly, but to still obtain successful outcome and realize that educational obtainment is possible. And I've had the opportunity to work with a couple of their students. Right now they're a very young couple. I case manage
	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 9 20 21	opportunity to share this with you. I'm very, very grateful for this opportunity for my children to have this kind of an education. Thank you. CHAIRMAN JOHNSON: Thank you, Ms. Bassett. TINA BLAND: Hi. My name is Tina Bland. My daughter attends Beacon Academy High School. She came to Beacon Academy in September of last year as an 11th grader. However, she was so behind in credits that she could still be an early tenth grader. Beacon Academy wasted no time with her. On her first day, she met her counselor and social worker, and they sat with us and made a plan to get her caught up and then some. In only nine months, my daughter has completed the rest of her sophomore year, all of her junior year, and most of her senior year. She's never completed so much work in a short period, and now she is set to graduate a year early, in August of 2016, when she is class of 2017. This school was willing to work with my daughter, and it shows they actually care for her.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	and I'm so thankful for that. Thank you. CHAIRMAN JOHNSON: Thank you. AMINEH HARVEY: Good morning. My name is Amineh Harvey. I am here representing the Southern Nevada Health District Healthy Start program. I have had the opportunity to work with Beacon over the last couple of years developing a partnership directly with the school social worker, Jill Nester, in the capacity of tapering the prevention as well as my current position right now working with the Healthy Start program. The Beacon Academy is an excellent school. She has a whole bunch of degenerative diseases, so she probably doesn't have long anyway. So she doesn't want virtual school, you know, taken away, and you know, come up here and see people get so emotional. And she felt passionate, I think, my mom. I'm not an educator. I'm a regular guy. 9:00 to 5:00 job, pays taxes. I don't really get too involved when it comes to the education. That's what my mom does. She's his personal mentor, which is great because he's at home. And he went from D's and C's to the A and B honor roll, and A's, B's. 	 always love to hear from you. Now, we have one final person who would like to give comment. Angelica Pallan. ANGELICA PALLAN: Hi. I'm Angelica. I'm a senior at Nevada Connections Academy. I would like to thank you for letting me speak today. During my years in middle school, I was attending public school. In the last year of school, I started to become sick. I have severe asthma and allergies. I was missing a lot of schools and started to fall behind. In my first year of private school I attended (inaudible), which is a home school program. Unfortunately, the first program wasn't the fit for me. During that summer, my mom saw a commercial about Connections Academy. The next thing I knew I was enrolled in Connections Academy my sophomore year. I felt very overwhelmed when I first started out because I was so far behind in my studies from
2 3 4 5 6 7 7 8 9 10 11 12 13 14 15 16 17 18 19 20	with the school being closed. So hoping you guys do it again. I just want to say it's a great asset for him. Very amazing. He was bullied at school. He had no sleep, didn't want to go to school. He had teachers that were abusive. It was just a train wreck, and it was not good. I have my mom here with me. She has a whole bunch of degenerative diseases, so she probably doesn't have long anyway. So she doesn't want virtual school, you know, taken away, and you know, come up here and see people get so emotional. And she felt passionate, I think, my mom. I'm not an educator. I'm a regular guy. 9:00 to 5:00 job, pays taxes. I don't really get too involved when it comes to the education. That's what my mom does. She's his personal mentor, which is great because he's at home. And he went from D's and C's to the A and B honor roll, and A's, B's. And you know, I just want to say that, come up here and get the opportunity to speak with you	 always love to hear from you. Now, we have one final person who would like to give comment. Angelica Pallan. ANGELICA PALLAN: Hi. I'm Angelica. I'm a senior at Nevada Connections Academy. I would like to thank you for letting me speak today. We will close out public comment, and we will move forward to our first topic to our agenda. We're going to take number 9 out of order. The first item we'll take is the alternative framework update, discussion. Director Gavin? MR. GAVIN: Thank you, Mr. Chairman. Patrick Gavin from the state public charter school board of directors. As the board is aware, this last session, 2015, the legislation passed Senate Bill 460 sponsored by Senator Harris with significant support from other members of the legislation including Chair Woodbury of the Assembly for Unification. Senate Bill 460 creates for the first time	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	recognized that they were not included particularly interested in inclusion in the alt framework. Other kids are interested in the spirit of collaboration. We have four schools that have provided data that I wanted to share with the board today. That is in the last four pages of your packet. They are Beacon Academy. Nevada Connections, Nevada Virtual and Silver State Charter School. One thing that is really critical to note, is that every school has noted, and this is why I don't believe this is consistent with what the testimony of each of these schools have been in the past, well, each of these schools does serve students in many of these categories. None of these schools meets the 75 percent threshold set forth (inaudible) inclusion in the alternative framework. Specifically, Beacon based, again, on very
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Congratulations for your work. (Inaudible). Is there anyone else who may have submitted and I did not call? Raise your hand, everybody. All right. We will close out public comment, and we will move forward to our first topic to our agenda. We're going to take number 9 out of order. 	Nevada State Public Charter School Authority Meeting			
	Page 41		Page 43	
1	continuation.	1	actions to make the school a better place.	
2	TAMBRE TONDRYK: Okay. Great. Thank you.	2	So I think that's something that will come	
3	MR. OTT: Let me give a brief introduction		out in the presentation. But that is a distinction	
4	before you start your presentation. I think it's		that I think I wanted to highlight because that's an	
	appropriate that you do a lot of talking, but to set		area of I think tension thus far in our negotiations.	
	the table, the board will recall two meetings ago	6	CHAIRMAN JOHNSON: Thank you.	
	there was an agenda item for a possible notice of	7	MEMBER CONABOY: Mr. Chairman?	
	closure for Beacon Academy. The board did not take	8	CHAIRMAN JOHNSON: Member Conaboy?	
	any action to issue a notice of closure, directing	9	MEMBER CONABOY: Just for clarification,	
	staff to work with Beacon Academy to develop a plan	_	there are two agenda items. One is an information	
	of improvement.		item and one's an action item. So could we like sort	
12	This school I've had conversations with		of describe where the information item ends and the	
	counsel. Staff has also had conversations directly		action item starts? Okay? Thanks.	
	with the school' executive director, which I think is		CHAIRMAN JOHNSON: I'll make a note where we	
		14		
	a good thing to not always have lawyers in the room		are finished with gathering information, and then we	
	because they're not needed. Not that Patrick and I		will begin to have some action.	
	don't do a good job and get along. So there have	17	JESSICA SANCHEZ: Good morning, Chairman	
	been substantial discussions. This item has been		Johnson and members of the board. Thank you. It's	
	brought back today.		nice to see all of you again.	
20	You will notice it is not agenda-ized for	20	And I'm in agreement with everything that	
	action. So even if you are completely unhappy with		Mr. Ott stated earlier, with one important notation;	
	the plan that has been presented or the status, you		that when we were here in the March meeting, Beacon	
	cannot take action to revoke the school's charter or		was returned to (inaudible), and it was recognized	
	to issue another revocation. That was done		that a high stakes review was not was not	
25	purposefully so that the school did not feel like it	25	should not take place. And I think it's very	
	Page 42		Page 44

2 3	a position where it could be noticed.	2 3	Beacon is in good standing, and we are not Silver	
2 3 4	a position where it could be noticed. So to the school and others, there is no	2 3 4	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the	
2 3 4 5	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important	2 3 4 5	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally	
2 3 4 5 6	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing	2 3 4 5	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We	
2 3 4 5 6 7	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward	2 3 4 5 6 7	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible.	
2 3 4 5 6 7 8	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I	2 3 4 5 6 7 8	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing,	
2 3 4 5 6 7 8 9	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward with a plan to improve the school and the accountability for what to this far has been	2 3 4 5 6 7 8 9	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing, and the only issue is that section of (inaudible),	
2 3 4 5 6 7 8 9	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward with a plan to improve the school and the accountability for what to this far has been performance which landed the school in the position	2 3 4 5 6 7 8 9	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing, and the only issue is that section of (inaudible), that 50 percent graduation rate where this board has permissive authority to determine whether they would	
2 3 4 5 6 7 8 9	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward with a plan to improve the school and the accountability for what to this far has been	2 3 4 5 6 7 8 9	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing, and the only issue is that section of (inaudible), that 50 percent graduation rate where this board has	
2 3 4 5 6 7 8 9 10 11 12	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward with a plan to improve the school and the accountability for what to this far has been performance which landed the school in the position where it was eligible by statute for foreclosure. So I think that that tension is one of the	2 3 4 5 6 7 8 9 10 11 12	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing, and the only issue is that section of (inaudible), that 50 percent graduation rate where this board has permissive authority to determine whether they would like to provide a notice of closure. I don't want to belabor the point, but to	
2 3 4 5 6 7 8 9 10 11 12 13	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward with a plan to improve the school and the accountability for what to this far has been performance which landed the school in the position where it was eligible by statute for foreclosure.	2 3 4 5 6 7 8 9 10 11 12 13	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing, and the only issue is that section of (inaudible), that 50 percent graduation rate where this board has permissive authority to determine whether they would like to provide a notice of closure. I don't want to belabor the point, but to that end, you will see that they have put together a	
2 3 4 5 6 7 8 9 10 11 12 13 14	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward with a plan to improve the school and the accountability for what to this far has been performance which landed the school in the position where it was eligible by statute for foreclosure. So I think that that tension is one of the things that would be a useful discussion of this, how much the school has to be held accountable for its	2 3 4 5 6 7 8 9 10 11 12 13 14	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing, and the only issue is that section of (inaudible), that 50 percent graduation rate where this board has permissive authority to determine whether they would like to provide a notice of closure. I don't want to belabor the point, but to that end, you will see that they have put together a very good presentation, if I might add, in my own	
2 3 4 5 6 7 8 9 10 11 12 13 14 15	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward with a plan to improve the school and the accountability for what to this far has been performance which landed the school in the position where it was eligible by statute for foreclosure. So I think that that tension is one of the things that would be a useful discussion of this, how much the school has to be held accountable for its performance and at the same time, what actions can	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing, and the only issue is that section of (inaudible), that 50 percent graduation rate where this board has permissive authority to determine whether they would like to provide a notice of closure. I don't want to belabor the point, but to that end, you will see that they have put together a very good presentation, if I might add, in my own opinion. And with that, I will hand it over to	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. So discussions, I think, have been ongoing and have been somewhat productive. There is, I think, some tension between the plan to move forward with a plan to improve the school and the accountability for what to this far has been performance which landed the school in the position where it was eligible by statute for foreclosure. So I think that that tension is one of the things that would be a useful discussion of this, how much the school has to be held accountable for its	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Beacon is in good standing, and we are not Silver State, which is kind of where we feel that the Authority may be trying to compare us to that. We have been fiscally responsible and operationally responsible. We are a school that is in good standing, and the only issue is that section of (inaudible), that 50 percent graduation rate where this board has permissive authority to determine whether they would like to provide a notice of closure. I don't want to belabor the point, but to that end, you will see that they have put together a very good presentation, if I might add, in my own	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	a position where it could be noticed. So to the school and others, there is no action item for this today. I think that's important to note. 1	guide Nevada students successfully through high	1	at-risk, and what definition should we be considering
	school, help them obtain a high school diploma, and		today as we listen to this presentation?
	prepare them for college and career.	3	MR. GAVIN: Alternative is a subset of
4	The next part, we're going to go through and	-	at-risk. So alternative, Miss Tondryk is correct,
	we're going to share our student demographics. You		that there are many different populations of at-risk
		5	students in our state.
	met some of our lovely students this morning, and	6	
	there is a whole lot of them that are at home working	7	We are a state that is by majority a
	today, or in their homes that are working.		
9	But our population by grade level, we think	9	6 1 1
	it's very important to note that on validation day,		in poverty in the country. We have one of the
	which is October 1st, we had 6.9 percent of our		largest population of English language learners in
	population is ninth grade, and 19 percent is tenth		the country. So were we to classify schools based on
	grade. You'll notice the majority of our students		the number of students who are ELL or FRL or that
	enroll in 11th and 12th grade, and then we have a		have IEP's, virtually all of our schools have lined
	substantial amount of adult students. And it grew		up not counting under the standard NSB, the standard
16	when we moved into February 17th.		that the school performance framework developed based
17	You'll notice that the ninth grade went from		on our state-wide context, which includes the fact
	38 to 58 students. Ten of those transfer-in's were		that we have a number of significant high-need
19	credit-deficient. The 10th graders increased from	19	populations.
	the beginning of the year to the midyear. And so we	20	That is also the reason why our legislature
21	just wanted to point out, our seniors did decline a	21	has become a process of (inaudible) special ed fund
22	bit in enrollment, but 25 of those students graduated	22	per teacher, funds to a per pupil cost (inaudible)
23	early, which has been a great product of changing to	23	starting this next (inaudible) that starts out this
24	the new term system, where students are earning	24	academic year (audible) last two session, and then
25	credits each term. So we have students graduating	25	victory rolling out (inaudible) this current budget.

2 3 4	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable,	2 3 4	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the
2 3 4 5	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has	2 3 4 5	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the framework we were looking at that Patrick just
2 3 4 5 6	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has discretion to create a more inclusive definition, but	2 3 4 5 6	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the framework we were looking at that Patrick just presented that first of all, I do want to clarify.
2 3 4 5 6 7	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has discretion to create a more inclusive definition, but that very much is a slippery slope based on the	2 3 4 5 6 7	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the framework we were looking at that Patrick just presented that first of all, I do want to clarify. Beacon has known from the inception of SB 460 that we
2 3 4 5 6 7 8	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has discretion to create a more inclusive definition, but that very much is a slippery slope based on the conversation we had. Virtually every high school in	2 3 4 5 6 7 8	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the framework we were looking at that Patrick just presented that first of all, I do want to clarify. Beacon has known from the inception of SB 460 that we do not qualify for an alternative education
2 3 4 5 6 7 8 9	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has discretion to create a more inclusive definition, but that very much is a slippery slope based on the conversation we had. Virtually every high school in the state would fall into the alt framework if we	2 3 4 5 6 7 8 9	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the framework we were looking at that Patrick just presented that first of all, I do want to clarify. Beacon has known from the inception of SB 460 that we do not qualify for an alternative education framework. I think that's set up for a school
2 3 4 5 6 7 8 9	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has discretion to create a more inclusive definition, but that very much is a slippery slope based on the conversation we had. Virtually every high school in the state would fall into the alt framework if we were to start including all of these categories,	2 3 4 5 6 7 8 9	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the framework we were looking at that Patrick just presented that first of all, I do want to clarify. Beacon has known from the inception of SB 460 that we do not qualify for an alternative education framework. I think that's set up for a school district like Clark County, where they can refer
2 3 4 5 6 7 8 9 10 11	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has discretion to create a more inclusive definition, but that very much is a slippery slope based on the conversation we had. Virtually every high school in the state would fall into the alt framework if we were to start including all of these categories, whether it be demographic categories, or the number	2 3 6 7 8 9 10 11	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the framework we were looking at that Patrick just presented that first of all, I do want to clarify. Beacon has known from the inception of SB 460 that we do not qualify for an alternative education framework. I think that's set up for a school district like Clark County, where they can refer students for behavioral, adjudicated youth, you know,
2 3 4 5 7 8 9 10 11	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has discretion to create a more inclusive definition, but that very much is a slippery slope based on the conversation we had. Virtually every high school in the state would fall into the alt framework if we were to start including all of these categories, whether it be demographic categories, or the number of students who are in some way credit-deficient;	2 3 4 5 7 8 9 10 11 12	before we got on that kind of tangent. Can you help me help us all understand what you meant by that comment? TAMBRE TONDRYK: Yeah. Basically the framework we were looking at that Patrick just presented that first of all, I do want to clarify. Beacon has known from the inception of SB 460 that we do not qualify for an alternative education framework. I think that's set up for a school district like Clark County, where they can refer students for behavioral, adjudicated youth, you know, as Patrick said, a special code for special education
2 3 4 5 6 7 8 9 10 11 12 13	school defines it differently, we have to follow the state definition for what is considered at-risk; is that correct? MR. GAVIN: It would certainly be advisable, Member Mackedon. I believe this board likely has discretion to create a more inclusive definition, but that very much is a slippery slope based on the conversation we had. Virtually every high school in the state would fall into the alt framework if we were to start including all of these categories, whether it be demographic categories, or the number of students who are in some way credit-deficient; that is, they're not maximizing the number of credits	2 3 4 5 6 7 8 9 10 11 12 13	before we got on that kind of tangent. 2 3	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a	2 3	hoping to be a fully blended school in a couple of years. We have blended programming, which means
2 3 4	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that	2 3 4	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take
2 3 4 5	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so	2 3 4 5	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need
2 3 4 5 6	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind.	2 3 4 5 6	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps
2 3 4 5 6 7	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will	2 3 4 5 6 7	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are,
2 3 4 5 6 7 8	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when	2 3 4 5 6 7 8	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one
2 3 4 5 6 7 8 9	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that	2 3 4 5 6 7 8 9	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're
2 3 4 5 6 7 8 9	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students	2 3 6 7 8 9	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them.
2 3 4 5 6 7 8 9 10 11	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing.	2 3 4 5 6 7 8 9 10	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the
2 3 4 5 6 7 8 9 10 11 12	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits	2 3 6 7 8 9 10 11	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes
2 3 4 5 6 7 8 9 10 11 12 13	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we	2 3 4 5 7 8 9 10 11 12 13	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the
2 3 4 5 7 8 9 10 11 12 13 14	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about.	2 3 4 5 6 7 8 9 10 11 12 13 14	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for
2 3 4 5 6 7 8 9 10 11 12 13 14 15	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade	2 3 4 5 6 7 8 9 10 11 12 13 14 15	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can	2 3 4 5 7 8 9 10 11 12 13 14 15 16 17	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the parents, and we all work together to wrap those
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can see that their senior year they're taking 4, 4-1/2,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the parents, and we all work together to wrap those services right around that student.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can see that their senior year they're taking 4, 4-1/2, maybe 5 credits, depending on where they are. But if	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the parents, and we all work together to wrap those services right around that student. And if that student is receptive, we can get
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can see that their senior year they're taking 4, 4-1/2, maybe 5 credits, depending on where they are. But if they have a Level 1 deficiency up to 3 credits, you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the parents, and we all work together to wrap those services right around that student. And if that student is receptive, we can get them all the way to graduation. You have to have
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can see that their senior year they're taking 4, 4-1/2, maybe 5 credits, depending on where they are. But if they have a Level 1 deficiency up to 3 credits, you can see that you go all the way you know, you take	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the parents, and we all work together to wrap those services right around that student. And if that student is receptive, we can get them all the way to graduation. You have to have that buy-in as well. Our social workers do a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can see that their senior year they're taking 4, 4-1/2, maybe 5 credits, depending on where they are. But if they have a Level 1 deficiency up to 3 credits, you can see that you go all the way you know, you take the full 8, so they're taking two additional credits	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the parents, and we all work together to wrap those services right around that student. And if that student is receptive, we can get them all the way to graduation. You have to have that buy-in as well. Our social workers do a phenomenal job as you've heard of linking them with
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can see that their senior year they're taking 4, 4-1/2, maybe 5 credits, depending on where they are. But if they have a Level 1 deficiency up to 3 credits, you can see that you go all the way you know, you take the full 8, so they're taking two additional credits during the traditional school year. The 6 credits,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the parents, and we all work together to wrap those services right around that student. And if that student is receptive, we can get them all the way to graduation. You have to have that buy-in as well. Our social workers do a phenomenal job as you've heard of linking them with those community resources. For myself, when I came
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can see that their senior year they're taking 4, 4-1/2, maybe 5 credits, depending on where they are. But if they have a Level 1 deficiency up to 3 credits, you can see that you go all the way you know, you take the full 8, so they're taking two additional credits during the traditional school year. The 6 credits, you're adding two on top of that, and then they're	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. And if that student is receptive, we can get them all the way to graduation. You have to have that buy-in as well. Our social workers do a phenomenal job as you've heard of linking them with those community resources. For myself, when I came to be in, that was one of the things that just
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	the end of their ninth grade year. I don't know what that sounds like. But you know, it's just you've got to look at each one. So when they're saying a sophomore with 5 credits at the end of the year, that student, you know suppose they need 12 credits, so they're 7 credits behind. So you're looking at students that will absolutely will not graduate in four years when you're talking about the alt ed framework by that definition. In our case, we looked at it as students trying to retrieve credits while they're continuing. So they're taking their 6, and we're adding credits on top of that, if that helps. So that's what we were speaking about. So this is just an example of a 12th grade student. So a 12th grade student should have 17 credits by the beginning of the year. And you can see that their senior year they're taking 4, 4-1/2, maybe 5 credits, depending on where they are. But if they have a Level 1 deficiency up to 3 credits, you can see that you go all the way you know, you take the full 8, so they're taking two additional credits during the traditional school year. The 6 credits,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	hoping to be a fully blended school in a couple of years. We have blended programming, which means that some of the students are opting in to take classes that require them to be on campus. We need them on campus. These students are behind. The gaps in their education are extreme, and the teachers are, like I said, they're awesome. They're one-on-one with the kid, they're working with them, and they're helping them. And so the student is really, truly the center of our school. And when that student comes in, they are supported at all times. We have the social workers. We employee three social workers for a student population of around 600. We also have the teacher support, the academic counselors, the parents, and we all work together to wrap those services right around that student. And if that student is receptive, we can get them all the way to graduation. You have to have that buy-in as well. Our social workers do a phenomenal job as you've heard of linking them with those community resources. For myself, when I came

We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that	2 3 4 5 6 7 8	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start
2 3 4 5 6 7 8 9	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule,	2 3 4 5 6 7 8 9	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success
2 3 4 5 7 8 9	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our	2 3 6 7 8 9	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic
2 3 4 5 6 7 8 9 10	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been	2 3 4 5 7 8 9 10 11	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they
2 3 4 5 6 7 8 9 10 11 12	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success	2 3 4 5 7 8 9 10 11	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they pass everything. Do we have to go back and change.
2 3 4 5 6 7 8 9 10 11 12 12	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success plan. So what are you going to do to be successful	2 3 4 5 6 7 8 9 10 11 12 13	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they pass everything. Do we have to go back and change. We do not push a kid who has failed algebra semester
2 3 4 5 7 8 9 10 11 12 13 14	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success plan. So what are you going to do to be successful here? Because we've identified their barriers at	2 3 4 5 6 7 8 9 10 11 12 13 14	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they pass everything. Do we have to go back and change. We do not push a kid who has failed algebra semester 1 into algebra semester 2. Because we can't
2 3 4 5 6 7 8 9 10 11 12 13 14 15	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success plan. So what are you going to do to be successful here? Because we've identified their barriers at this point. We know why they haven't been attending	2 3 4 5 6 7 8 9 10 11 12 13 14 15	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they pass everything. Do we have to go back and change. We do not push a kid who has failed algebra semester 1 into algebra semester 2. Because we can't that's silly. So we stop it, we reset it, and they
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success plan. So what are you going to do to be successful here? Because we've identified their barriers at this point. We know why they haven't been attending school.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they pass everything. Do we have to go back and change. We do not push a kid who has failed algebra semester 1 into algebra semester 2. Because we can't that's silly. So we stop it, we reset it, and they have to do it again. Because we're not going to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success plan. So what are you going to do to be successful here? Because we've identified their barriers at this point. We know why they haven't been attending school. Most kids are really honest. I think you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they pass everything. Do we have to go back and change. We do not push a kid who has failed algebra semester 1 into algebra semester 2. Because we can't that's silly. So we stop it, we reset it, and they have to do it again. Because we're not going to promote them onto the next level.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success plan. So what are you going to do to be successful here? Because we've identified their barriers at this point. We know why they haven't been attending school. Most kids are really honest. I think you saw some examples of that today, too. But they'll	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they pass everything. Do we have to go back and change. We do not push a kid who has failed algebra semester 1 into algebra semester 2. Because we can't that's silly. So we stop it, we reset it, and they have to do it again. Because we're not going to promote them onto the next level. MEMBER WAHL: I have a question. You said
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success plan. So what are you going to do to be successful here? Because we've identified their barriers at this point. We know why they haven't been attending school. Most kids are really honest. I think you saw some examples of that today, too. But they'll tell you why they haven't been; I just didn't like to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	coming in so I can get you what you need. All of this goes on weekly. Because we've identified their barriers at this point. We know why they haven't been attending school. Most kids are really honest. I think you saw some examples of that today, too. But they'll tell you why they haven't been; I just didn't like to go, or it was for this reason or that reason. So many students, and it's easy to tell when you're doing an orientation, whether or not an online program is really a big thing for them. So if it	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	coming in so I can get you what you need. All of this goes on weekly. Tutoring is offered 9:00 to 3:00 Monday through Thursday. Friday is by appointment. And I have a bunch of students on campus today with their teachers there for tutoring because we're almost at the end of the term. And then in addition, we continually run the services, and at the end of the nine weeks, we start all over again. We start with that student's success plan, look at how successful they were. Our academic counselors have the challenge of looking at did they pass everything. Do we have to go back and change. We do not push a kid who has failed algebra semester 1 into algebra semester 2. Because we can't that's silly. So we stop it, we reset it, and they have to do it again. Because we're not going to promote them onto the next level. MEMBER WAHL: I have a question. You said pre-enrollment interview. And I'm going to be really picky and ask you, do the parents understand their public school and you have to take them, or do they think this pre-enrollment interview is, oh, gosh, you may not take me?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	10th and credit-deficient, there's been a placement test. We use that placement test to determine the leveling of the courses, because the students are coming in with transcripts that you've never seen. Four years of English. Never successful. A math here. They have a credit here. A credit there. It's really quite interesting. So using the placement test, using that enrollment conference, building that schedule, putting them through an orientation. And then our students receive their schedule, and they've been through the orientation, and we talk about a success plan. So what are you going to do to be successful here? Because we've identified their barriers at this point. We know why they haven't been attending school. Most kids are really honest. I think you saw some examples of that today, too. But they'll tell you why they haven't been; I just didn't like to go, or it was for this reason or that reason. So many students, and it's easy to tell when you're doing an orientation, whether or not an online program is really a big thing for them. So if it isn't, we're going to ask you to be on campus twice a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	coming in so I can get you what you need. All of this goes on weekly. You know, those conferences, talking about students enrolling. We look at where they are, and that's another reason that we need to have those meetings with them before we put a schedule together. It's really hard to look at any transcripts and know where this kid is. And so looking at the dual credit options,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	systems, the games they play. MEMBER WAHL: So I'll follow up. I met you yesterday informally. I go back to the word "pre-enrollment." I'm just wondering if there's an orientation meeting. Could there be some way where you walk into your neighborhood school, and you're enrolled that day or the next day. That's just the way it is. TAMBRE TONDRYK: If we did that because that's what we used to do, we couldn't identify what they needed. And then they would be enrolled for so long before that's the only time we have how do I say this parental follow-through. Not every parent, but it's definitely the time where they're most willing to do what we ask. And I can change that name absolutely. I understand what you're saying. It's to screen. It is to screen. But it's not just for screening, it is truly to identify academic, social	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	sometimes they come in, and their parents want that for them, but they absolutely do not. (Inaudible) we can change up the name of that conference. So I wanted to just go over just briefly, we are doing the four-term preschool year. We can have 30 graduates so far this year. Dual credit enrollment. We really are a personalized learning school. People talk about, you know, the future, how are we going to personalize the way we're doing it. You know, those conferences, talking about students enrolling. We look at where they are, and that's another reason that we need to have those meetings with them before we put a schedule together. It's really hard to look at any transcripts and know where this kid is. And so looking at the dual credit options, AP options, credit retrieval and foundational courses, students that have seen a progression of
2 3 4 5 6 7 7 8 9 10 11 12 13 14 15 16 17 18 19 20	systems, the games they play. MEMBER WAHL: So I'll follow up. I met you yesterday informally. I go back to the word "pre-enrollment." I'm just wondering if there's an orientation meeting. Could there be some way where you walk into your neighborhood school, and you're enrolled that day or the next day. That's just the way it is. TAMBRE TONDRYK: If we did that because that's what we used to do, we couldn't identify what they needed. And then they would be enrolled for so long before that's the only time we have how do I say this parental follow-through. Not every parent, but it's definitely the time where they're most willing to do what we ask. And I can change that name absolutely. I understand what you're saying. It's to screen. It is to screen. But it's not just for screening, it is truly to identify academic, social and emotional needs. We have a questionnaire we go	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	sometimes they come in, and their parents want that for them, but they absolutely do not. (Inaudible) we can change up the name of that conference. So I wanted to just go over just briefly, we are doing the four-term preschool year. We can have 30 graduates so far this year. Dual credit enrollment. We really are a personalized learning school. People talk about, you know, the future, how are we going to personalize the way we're doing it. You know, those conferences, talking about students enrolling. We look at where they are, and that's another reason that we need to have those meetings with them before we put a schedule together. It's really hard to look at any transcripts and know where this kid is. And so looking at the dual credit options, AP options, credit retrieval and foundational courses, students that have seen a progression of failed math or English classes, making sure that in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	systems, the games they play. MEMBER WAHL: So I'll follow up. I met you yesterday informally. I go back to the word "pre-enrollment." I'm just wondering if there's an orientation meeting. Could there be some way where you walk into your neighborhood school, and you're enrolled that day or the next day. That's just the way it is. TAMBRE TONDRYK: If we did that because that's what we used to do, we couldn't identify what they needed. And then they would be enrolled for so long before that's the only time we have how do I say this parental follow-through. Not every parent, but it's definitely the time where they're most willing to do what we ask. And I can change that name absolutely. I understand what you're saying. It's to screen. It is to screen. But it's not just for screening, it is truly to identify academic, social and emotional needs. We have a questionnaire we go through. So its really about getting that student	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	sometimes they come in, and their parents want that for them, but they absolutely do not. (Inaudible) we can change up the name of that conference. So I wanted to just go over just briefly, we are doing the four-term preschool year. We can have 30 graduates so far this year. Dual credit enrollment. We really are a personalized learning school. People talk about, you know, the future, how are we going to personalize the way we're doing it. You know, those conferences, talking about students enrolling. We look at where they are, and that's another reason that we need to have those meetings with them before we put a schedule together. It's really hard to look at any transcripts and know where this kid is. And so looking at the dual credit options, AP options, credit retrieval and foundational courses, students that have seen a progression of failed math or English classes, making sure that in addition to their grade level classes, they're put in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	systems, the games they play. MEMBER WAHL: So I'll follow up. I met you yesterday informally. I go back to the word "pre-enrollment." And so looking at the dual credit options, AP options, credit retrieval and foundational courses, students that have seen a progression of failed math or English classes, making sure that in addition to their grade level classes, they're put in remedial courses to build up the gapped learning. We also

	Nevada State Public Charte	er 50	choor Authority Meeting
	Page 65		Page 67
1	page 74, the costs of supporting at-risk, which is	1	graduation goal, we're starting by looking at and
	highly significant. So you talk about where that		working towards our school performance plan is
	is that extra money you manage to do that and with	3	geared towards getting every student to earn an
	your small enrollment, how do you eke out the extra	4	additional two credits, or at least (inaudible) of
	resources that are needed for all this intervention		credit if they're not credit-deficient.
	that you're describing?	6	We monitor weekly how those students are
7	TAMBRE TONDRYK: We work really, really,	7	doing and try to get those interventions or supports
	really hard. What we're doing is we just we don't	8	in place. We cannot do the work for them. We have
	charge for summer school, but really, that is what we		some students that are able to accelerate and do
	base that number on, the actual credits retrieved.		their work very quickly, as you heard from a parent
	So each student is about a credit and a half I'm		of one of those students today. Other students, it's
	sorry, it's about a student and a half enrollment.		very challenging.
	They're talking about eight classes, 8 or 9 credits a	13	And so, other performance goals; our second
	year. And so you're funded for 6 credits. So we		performance goal is to increase student retention
	were just looking at the number of credits versus the		during the regular school year, increase students
	number of students, and that's where we came up with		returning every year, and increase students that stay
	that figure. It is my teachers are taking		with Beacon four years, because we don't have a large
	they're compensated, but we work one of the nice		number of students that enroll in ninth grade. So
	things about being online is our campus holds you		it's very hard for us to have basically our
	know, we can accommodate a large number of students,	20	
	but we don't.		have been with us four years. Those graduation rates
22	So I don't have to do lunches at school. I		are being with students when they come.
	don't have to have security. My students come in for	23	So as we'll demonstrate shortly, they're
	three or four hours, and then they go home. So I'm		coming during their junior and senior years. We do
	able to keep those operational costs down, and all of		recognize I know that one of the recommendations

CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it	2 3	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college
2 3 4	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash?	2 3 4	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal
2 3 4 5	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it	2 3 4 5	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him
2 3 4 5 6	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and	2 3 4 5 6	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll
2 3 4 5 6 7	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the	2 3 4 5 6 7	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly.
2 3 4 5 6 7 8	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled.	2 3 4 5 6 7 8	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a
2 3 4 5 6 7 8 9	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to.	2 3 4 5 6 7 8 9	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide,
2 3 4 5 6 7 8 9	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you.	2 3 6 7 8 9	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand
2 3 4 5 6 7 8 9 10 11	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you	2 3 4 5 6 7 8 9 10 11	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very
2 3 4 5 7 8 9 10 11 12	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement.	2 3 4 5 7 8 9 10 11	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is
2 3 4 5 6 7 8 9 10 11 12 13	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't	2 3 4 5 6 7 8 9 10 11 12 13	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where
2 3 4 5 7 8 9 10 11 12 13 14	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the	2 3 4 5 6 7 8 9 10 11 12 13 14	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at
2 3 4 5 6 7 8 9 10 11 12 13 14 15	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to	2 3 4 5 6 7 8 9 10 11 12 13 14 15	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too. And we understand that we're one of the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that looks like.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too. And we understand that we're one of the contributing factors to the low graduation rate, and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that looks like. And then of the last two goals, those are
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too. And we understand that we're one of the contributing factors to the low graduation rate, and we acknowledge that. We are working very hard to get	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that looks like. And then of the last two goals, those are more general, increase student engagement. How do we
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too. And we understand that we're one of the contributing factors to the low graduation rate, and we acknowledge that. We are working very hard to get our students where they go. You're going to see in a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that looks like. And then of the last two goals, those are more general, increase student engagement. How do we quantify those, prevention of student drop-out rates,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too. And we understand that we're one of the contributing factors to the low graduation rate, and we acknowledge that. We are working very hard to get our students where they go. You're going to see in a few minutes after we start going into data that we	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that looks like. And then of the last two goals, those are more general, increase student engagement. How do we quantify those, prevention of student drop-out rates, again, how do we quantify.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too. And we understand that we're one of the contributing factors to the low graduation rate, and we acknowledge that. We are working very hard to get our students where they go. You're going to see in a few minutes after we start going into data that we found some interesting factors that may be more	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that looks like. And then of the last two goals, those are more general, increase student engagement. How do we quantify those, prevention of student drop-out rates, again, how do we quantify. TAMBRE TONDRYK: Sure. Right now in 2015 we
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too. And we understand that we're one of the contributing factors to the low graduation rate, and we acknowledge that. We are working very hard to get our students where they go. You're going to see in a few minutes after we start going into data that we found some interesting factors that may be more global through all of the charter schools and some	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that looks like. And then of the last two goals, those are more general, increase student engagement. How do we quantify those, prevention of student drop-out rates, again, how do we quantify. TAMBRE TONDRYK: Sure. Right now in 2015 we have a 70 percent year-to-year return. And so we
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that money then can go towards the students. CHAIRMAN JOHNSON: So is this 495090, is that like an accounting way of putting that, or is it real cash? TAMBRE TONDRYK: It would be I worked it out with our aptibility our school accountant, and we talked about, you know, just looking at the support for those additional courses enrolled. Course enrollments, is what it was tied to. CHAIRMAN JOHNSON: Okay. Thank you. TAMBRE TONDRYK: So just to kind of let you know, we are very focused on student achievement. And there isn't a day that goes by that we aren't focused on the grad rate. We understand that the charter board is under significant pressure to increase their grad rate as an entity, too. And we understand that we're one of the contributing factors to the low graduation rate, and we acknowledge that. We are working very hard to get our students where they go. You're going to see in a few minutes after we start going into data that we found some interesting factors that may be more	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	that Patrick put in was that we did not put in our report how we plan to validate our data. I have with us an associate from the university, UNLV and college of education who just started doing a very minimal validation this year, but we have plans to have him validate further and further next year. And so he'll be speaking to you very shortly. CHAIRMAN JOHNSON: I just want to ask a question really quickly. Can we go back one slide, please? Is there any way to know where we stand where you stand today? So the goals are very specific goals. So the first goal at the top is increased student retention. So to understand, where we are today, and how we reached that or we are at least at that timeline. And then go to the left, right? It will say where we are today, and what that looks like. And then of the last two goals, those are more general, increase student engagement. How do we quantify those, prevention of student drop-out rates, again, how do we quantify. TAMBRE TONDRYK: Sure. Right now in 2015 we

	Nevada State Public Charte	er So	chool Authority Meeting
	Page 69		Page 71
1	we would like to increase that by 75 percent as well.	1	moving from your current grad rate to getting to at
	Sorry. And then our four-year retention rate is		least statutory minimum of 60 percent? I will note
	currently about 39 percent. So we would like to	3	
	bring that up to 50 percent.	4	
5	CHAIRMAN JOHNSON: And in terms of the final		60 percent, we would still be the lowest performing
_	two goals, do you have any quantifiable measures that		such entity in the country if we were a state.
	you're going to use to track your performance there?	7	
8	TAMBRE TONDRYK: So the resiliency data is,	0	country at 70 percent. The District of Columbia is
-	we were recently talking with some of you also are	0	at 61 percent, and New Mexico is at 68.5 percent.
	from the charter schools, and they're using		This 60 percent is still a really low bar, and we're
	resiliency data. What those are are surveys that are		just trying to get people to that. When is it going
	•		
	sent to the students every nine weeks, and they ask		to happen?
	about their feelings and thoughts towards their	13	TAMBRE TONDRYK: That is an awesome
	school. And we're hoping to this is going to be		question. As you will see, 80 percent of our
	new next year using those surveys to identify the		students show up between their junior and senior
	kids that seem to be at risk for dropping out,		year. It's really hard to predict. 80 percent show
	leaving us.		up between their junior and senior year. You're
18			giving us one to two years. And I don't know who's
	that pressure to support the family. There's just so		showing up in the fall. And so that's why we're
	many good jobs that you can get, you know, at a high	20	8 11
	pay when you're in high school. It seems like high		four-year graduation rate. That's 70 percent. So
	pay in high school. And it's hard to complete with		we're going to talk more about that. But that's the
	that when the families are struggling. And just the		reality. We take students after they failed
	frustration. They don't see the point, and so trying		everywhere else.
25	to identify that.	25	MR. GAVIN: So are you saying that there is
	Page 70		Page 72
	Page 70		Page 72
1	So we're hoping to I guess, again, it's		no timeline by which you believe you could achieve 60
2	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can	2	no timeline by which you believe you could achieve 60 percent, let alone something close to the state
2 3	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know.	2 3	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average?
2 3 4	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of	2 3 4	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is,
2 3 4 5	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other	2 3 4 5	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their
2 3 4 5 6	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they	2 3 4 5 6	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't
2 3 4 5 6 7	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own	2 3 4 5 6 7	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on
2 3 4 5 6 7 8	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better.	2 3 4 5 6 7 8	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are
2 3 4 5 6 7 8 9	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand?	2 3 4 5 6 7 8 9	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate.
2 3 4 5 6 7 8 9	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their	2 3 4 5 6 7 8 9	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different
2 3 4 5 6 7 8 9 10 11	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the	2 3 4 5 6 7 8 9 10	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different question. Similar vein. I understand the difficulty
2 3 4 5 7 8 9 10 11	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the standard performances tests, there's a reasonable	2 3 4 5 7 8 9 10 11	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different question. Similar vein. I understand the difficulty there, right? Are there ways we could be thinking
2 3 4 5 6 7 8 9 10 11 12 13	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the standard performances tests, there's a reasonable argument to be made they will help increase your	2 3 4 5 6 7 8 9 10 11 12 13	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different question. Similar vein. I understand the difficulty there, right? Are there ways we could be thinking about how we could be more flexible with the school
2 3 4 5 6 7 8 9 10 11 12 13 14	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the standard performances tests, there's a reasonable argument to be made they will help increase your graduation.	2 3 4 5 6 7 8 9 10 11 12 13 14	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different question. Similar vein. I understand the difficulty there, right? Are there ways we could be thinking about how we could be more flexible with the school because you don't know who's going to show up, right?
2 3 4 5 6 7 8 9 10 11 12 13 14 15	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the standard performances tests, there's a reasonable argument to be made they will help increase your graduation. My first question is, these goals, I don't	2 3 4 5 6 7 8 9 10 11 12 13 14 15	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different question. Similar vein. I understand the difficulty there, right? Are there ways we could be thinking about how we could be more flexible with the school because you don't know who's going to show up, right? And so the job of every school is should be at the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the standard performances tests, there's a reasonable argument to be made they will help increase your graduation. My first question is, these goals, I don't see a baseline or a time horizon for where you are	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different question. Similar vein. I understand the difficulty there, right? Are there ways we could be thinking about how we could be more flexible with the school because you don't know who's going to show up, right? And so the job of every school is should be at the end of the day, students are achieving, and some
2 3 4 5 7 8 9 10 11 12 13 14 15 16 17	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the standard performances tests, there's a reasonable argument to be made they will help increase your graduation. My first question is, these goals, I don't see a baseline or a time horizon for where you are right now and where you need to get to and at what	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different question. Similar vein. I understand the difficulty there, right? Are there ways we could be thinking about how we could be more flexible with the school because you don't know who's going to show up, right? And so the job of every school is should be at the end of the day, students are achieving, and some don't (inaudible) from that at all.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the standard performances tests, there's a reasonable argument to be made they will help increase your graduation. My first question is, these goals, I don't see a baseline or a time horizon for where you are right now and where you need to get to and at what point. Yes. It's good to know you're going to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. I mean, if they show up and they're all on track, I had 91 percent last year. There are students on track to graduate. CHAIRMAN JOHNSON: I have a different question. Similar vein. I understand the difficulty there, right? Are there ways we could be thinking about how we could be more flexible with the school because you don't know who's going to show up, right? And so the job of every school is should be at the end of the day, students are achieving, and some don't (inaudible) from that at all. There are other things we can think of in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	So we're hoping to I guess, again, it's earlier, and if we can identify them, then we can provide an intervention. Right now we don't know. Yes, we have a great relationship with 50 percent of our students, but there's still, you know, that other 50 percent that they don't answer the phone, they don't pick up. You know, they just do their own thing. So try to engage to do better. MR. GAVIN: Can you help me understand? These are some really helpful indicators for their taking on help to fix that. If you perform the standard performances tests, there's a reasonable argument to be made they will help increase your graduation. My first question is, these goals, I don't see a baseline or a time horizon for where you are right now and where you need to get to and at what point. Yes. It's good to know you're going to increase student retention to 75 percent. What is it	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	no timeline by which you believe you could achieve 60 percent, let alone something close to the state average? TAMBRE TONDRYK: I think what I'm saying is, how do you predict 80 percent that show up their junior to senior year? What would you put I don't know. And that's one of the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Something districts do all the time. In a charter school, you can't do it unless you are one of these very narrow mission-specific schools that say, we just do this. And actresses are great. And I think it's wonderful that there are options for them out there. Trying to be all things to all people is what gets our schools in a lot of trouble. MEMBER WAHL: Can I follow up? Has your board had any discussion about the possibility of changing over to only accept the students that you're TAMBRE TONYK: We do have we thought we had in our we didn't we thought we were giving preferential treatment to at-risk students. We put it in our education plan. Our charter contract refers to it, and I have it, Mr. Ott, and I forgot they were working on that language. So we were talking about that. Regarding the needing one hundred percent needing that alt framework came out this year. It's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	rate by one, one data point. We are asking for supplemental measures because one data point, as I said, is really easy to play with. Right now there really isn't a framework. We're in a process. We're in between right now. ESA hasn't come out. Maybe once the state adopts some of the language from that, once we develop, but I mean, I think what the three schools have demonstrated is that we are being successful. Our numbers just it's very difficult. We need more time with our students. We have a common problem. And the distance ed framework is one suggestion. Using SB 509, which we'd love to use, it's 60 percent graduation rate, we're asking to use the supplemental measures, which is also in the same Senate bill. You know, we're using one part of it, maybe we should look at using the supplemental measures during this period where there really isn't a framework so that we don't have to be before you next year. And that's one of the reasons we put them in.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Something districts do all the time. 1	high quality school. Just like my students where the	1	why we've asked.
	square in the circle. We just don't fit. So our	2	In addition, we're telling you our students
	data is I would say it supports that what we're	3	are coming to us their junior and senior year. The
	doing is helpful. And we'll get into that as you've		Charter Authority has the authority to make that
	asked.		decision based on SB 509 to add this as being one of
6	Where we started, we went back to the school		those supplemental measures. We are held
7	year of 2013-'14, when the charter was almost		accountable. We'll come in with our graduation rate,
	revoked, and we looked at it to where we are today.		but in addition to that gradation rate, let's look at
	So our graduation rates since that date have		a couple other factors, is what we're asking.
	increased 37.6 percent going from 2013 to 52.6.	10	And so the graduation rate versus the number
11	So we've had you can see the increase		of years enrolled with us. So you can see it's a
12	there. We did have a small decrease, which I'm going		nice, steady increase. 48 percent of you know, if
	to go on further to explain, which is why I'm very		they're here one year, we have a 48 percent
	hesitant to say what our graduation rate will be next		graduation rate. Unless they're enrolling as a
	year or the following year. There are so many		senior, they're not graduating.
	factors at play.	16	Two years enrolled, 52 percent. Three years
17	We did show you the this was our 2015		enrolled, close to 59 percent. When we have them all
	cohort. We had 152 students in it. 11th grade		four years, 70 percent.
	transfer-ins, there were 54 students that came to us	19	We've pretty much talked about credit
	in 11th grade. 21 of them, credit-deficient, which		deficiency, so we'll fast-forward through that.
	made up 39 percent of those transfer-ins.	21	So we wanted to show you what our
22	12th grade transfer-ins, we had 69 students,		transfer-in looks like. This is when the student
23	which made up and 37 of them were		transfers in, a Level 1, Level 2, Level 3 credit
	credit-deficient. The total new student population		deficiency, so to renew refresh your mind, a
	that should be in an 11th or 12th grade, was 123. 27		Level 1 is .5 to 3 credits deficient. Level 2 is 3.5
	Page 94		Page 96
1	-	1	
	percent credit-deficient, 80 percent of cohort 2015		to 6. And Level 3 is 6.5 or greater. So these are
2	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year.	2	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits
2 3	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort	2 3	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that
2 3 4	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep	2 3 4	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it
2 3 4 5	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our	2 3 4	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out.
2 3 4 5 6	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6	2 3 4 5 6	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it
2 3 4 5 6	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent.	2 3 4 5 6 7	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who
2 3 4 5 6 7 8	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6	2 3 4 5 6 7 8	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68
2 3 4 5 6 7 8 9	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students	2 3 4 5 6 7 8 9	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who
2 3 4 5 6 7 8 9	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue	2 3 6 7 8 9	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation
2 3 4 5 6 7 8 9 10 11	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not	2 3 4 5 7 8 9 10 11	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2
2 3 4 5 7 8 9 10 11 12	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you	2 3 4 5 7 8 9 10 11 12	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation
2 3 4 5 7 8 9 10 11 12 13	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on	2 3 4 5 6 7 8 9 10 11 12 13	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these
2 3 4 5 7 8 9 10 11 12 13 14	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told	2 3 4 5 6 7 8 9 10 11 12 13 14	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient
2 3 4 5 6 7 8 9 10 11 12 13 14 15	 percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law 	2 3 4 5 6 7 8 9 10 11 12 13 14 15	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area	2 3 4 5 6 7 8 9 10 11 12 13 14 15	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you can see we really have not had the opportunity to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area that maybe at the Charter Authority we can work	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you can see we really have not had the opportunity to remediate these students.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area that maybe at the Charter Authority we can work together and figure out, what is the law on that.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you can see we really have not had the opportunity to remediate these students. The changes to credit deficiency, what we're
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area that maybe at the Charter Authority we can work together and figure out, what is the law on that. 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you can see we really have not had the opportunity to remediate these students. The changes to credit deficiency, what we're showing here and this is what we will have
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area that maybe at the Charter Authority we can work together and figure out, what is the law on that. Because that is impacting. Look at 2014, we rose to 64 percent, if we just used our fifth year returning	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you can see we really have not had the opportunity to remediate these students. The changes to credit deficiency, what we're showing here and this is what we will have validated next year because we do focus on credit
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area that maybe at the Charter Authority we can work together and figure out, what is the law on that. Because that is impacting. Look at 2014, we rose to 64 percent, if we just used our fifth year returning students.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you can see we really have not had the opportunity to remediate these students. The changes to credit deficiency, what we're showing here and this is what we will have validated next year because we do focus on credit deficiency is that 31.4 percent of our seniors in
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area that maybe at the Charter Authority we can work together and figure out, what is the law on that. Because that is impacting. Look at 2014, we rose to 64 percent, if we just used our fifth year returning students. And Travis attends those meetings. And we seem to be very unique in adding new students to our fifth year. Other schools aren't doing that, which	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you can see we really have not had the opportunity to remediate these students. The changes to credit deficiency, what we're showing here and this is what we will have validated next year because we do focus on credit deficiency is that 31.4 percent of our seniors in '14-'15 decreased levels of credit deficiency, versus
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area that maybe at the Charter Authority we can work together and figure out, what is the law on that. Because that is impacting. Look at 2014, we rose to 64 percent, if we just used our fifth year returning students. And Travis attends those meetings. And we seem to be very unique in adding new students to our	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. In 2015, these students made up 45.7 percent of all credit-deficient seniors and 24 percent of the entire cohort. So you can see we really have not had the opportunity to remediate these students. The changes to credit deficiency, what we're showing here and this is what we will have validated next year because we do focus on credit deficiency is that 31.4 percent of our seniors in '14-'15 decreased levels of credit deficiency, versus 10.8 in '12-'13.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	percent credit-deficient, 80 percent of cohort 2015 during the (inaudible) 11th through 12th grade year. When we look at the fifth year cohort graduation rate, as we were pointing out, if we keep our students and did not enroll new students, our graduation rate would increase. In 2013, from 37.6 percent up to 45.83 percent. However, we take new students. Students that have dropped out or have been kicked out or not successful. These are adults. Whether we continue to do that, we're trying to determine the law on that. Do you have to take fifth year new, or can you just keep the students that you have? I've been told you don't. But you know, I don't know. The law states up to 18 years of age. But that's a gray area that maybe at the Charter Authority we can work together and figure out, what is the law on that. Because that is impacting. Look at 2014, we rose to 64 percent, if we just used our fifth year returning students. And Travis attends those meetings. And we seem to be very unique in adding new students to our fifth year. Other schools aren't doing that, which	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	to 6. And Level 3 is 6.5 or greater. So these are credit-deficient students trying to earn 6 credits and retrieve those credits. And so you can see that we are enrolling a large number this is how it breaks out. So during our senior year, 68.2 percent the number of credit-deficient students who transferred in during their senior year increased 68 percent between 2014 and '15. So what we're explaining here is the difference in the graduation rates, why we did it like this. We enrolled 68.2 percent who were credit-deficient. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's
2 3 4 5	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question?	2 3 4 5	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do
2 3 4 5 6	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please.	2 3 4 5 6	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important.
2 3 4 5 6 7	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a	2 3 4 5 6 7	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended
2 3 4 5 6 7 8	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a	2 3 4 5 6 7 8	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman.
2 3 4 5 6 7 8 9	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've	2 3 4 5 6 7 8 9	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably
2 3 4 5 6 7 8 9	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their	2 3 6 7 8 9	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your
2 3 4 5 6 7 8 9 10 11	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other	2 3 4 5 7 8 9 10 11	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that
2 3 4 5 6 7 8 9 10 11 12	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to	2 3 4 5 6 7 8 9 10 11 12	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly.
2 3 4 5 6 7 8 9 10 11 12 12	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't	2 3 4 5 6 7 8 9 10 11 12 13	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly. TAMBRE TONDRYK: Yes.
2 3 4 5 6 7 8 9 10 11 12 13 14	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't gel for them. So where do they go, then, when they	2 3 4 5 6 7 8 9 10 11 12 13 14	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly. TAMBRE TONDRYK: Yes. MEMBER McCORD: I'm not saying that's for
2 3 4 5 6 7 8 9 10 11 12 13 14 15	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't gel for them. So where do they go, then, when they transfer out?	2 3 4 5 6 7 8 9 10 11 12 13 14 15	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly. TAMBRE TONDRYK: Yes. MEMBER McCORD: I'm not saying that's for the bad. It may be for the good, I don't know, but
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't gel for them. So where do they go, then, when they transfer out? TAMBRE TONDRYK: Some of them go to the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly. TAMBRE TONDRYK: Yes. MEMBER McCORD: I'm not saying that's for the bad. It may be for the good, I don't know, but I'm afraid it's going to make comparisons very
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't gel for them. So where do they go, then, when they transfer out? TAMBRE TONDRYK: Some of them go to the adult ed, I assume. Can you speak to that one,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly. TAMBRE TONDRYK: Yes. MEMBER McCORD: I'm not saying that's for the bad. It may be for the good, I don't know, but I'm afraid it's going to make comparisons very difficult (inaudible).
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't gel for them. So where do they go, then, when they transfer out? TAMBRE TONDRYK: Some of them go to the adult ed, I assume. Can you speak to that one, Travis?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly. TAMBRE TONDRYK: Yes. MEMBER McCORD: I'm not saying that's for the bad. It may be for the good, I don't know, but I'm afraid it's going to make comparisons very difficult (inaudible). CHAIRMAN JOHNSON: We've actually been here
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't gel for them. So where do they go, then, when they transfer out? TAMBRE TONDRYK: Some of them go to the adult ed, I assume. Can you speak to that one, Travis? TRAVIS CHERRY: Travis Cherry, for the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly. TAMBRE TONDRYK: Yes. MEMBER McCORD: I'm not saying that's for the bad. It may be for the good, I don't know, but I'm afraid it's going to make comparisons very difficult (inaudible). CHAIRMAN JOHNSON: We've actually been here for two hours and 20 minutes. So we're going to take
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't gel for them. So where do they go, then, when they transfer out? TAMBRE TONDRYK: Some of them go to the adult ed, I assume. Can you speak to that one, Travis? TRAVIS CHERRY: Travis Cherry, for the record. Some of them go to adult ed. Some of them	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. MEMBER McCORD: Well, with a blended program oh, pardon me, Mr. Chairman. With a blended program, you're probably going to find a tighter concentration around your physical location. So it's going to change that pattern significantly. TAMBRE TONDRYK: Yes. MEMBER McCORD: I'm not saying that's for the bad. It may be for the good, I don't know, but I'm afraid it's going to make comparisons very difficult (inaudible). CHAIRMAN JOHNSON: We've actually been here for two hours and 20 minutes. So we're going to take a small break. Just a five-minute break. And we'll
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	attribute to a smaller end size, increased transfer-outs and substantially few credit-deficient transfer-ins. MEMBER CONABOY: Mr. Chairman, may I ask a question? CHAIRMAN JOHNSON: Please. MEMBER CONABOY: Tambre, could you talk a little bit go back to the last slide and talk a little bit about the transfers out? Because you've been talking a lot about kids coming to you in their 11th and 12th years and being sent there from other schools. So when they transfer out, they come to you. They're credit-deficient. Something doesn't gel for them. So where do they go, then, when they transfer out? TAMBRE TONDRYK: Some of them go to the adult ed, I assume. Can you speak to that one, Travis? TRAVIS CHERRY: Travis Cherry, for the record. Some of them go to adult ed. Some of them go back to their district, high school. You know,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	documented this year. But last year was the first year where I had really been through that enrollment, that serious enrollment, between August and really November. But we will be tracking the schools, who's referring them, and why they're coming because we do believe that that is very important. 	Nevada State Public Charte	er So	chool Authority Meeting
	Page 101		Page 103
1	to go. Ms. Tondryk? You have the floor to continue.	1	have already been said from board members. I don't
2	TAMBRE TONDRYK: Yes. Tambre Tondryk, for		want to repeat some of the things I already said
3	the record. So I just wanted to finish up, and then		about it, but just the condition that Beacon is faced
	Dr. Garza is going to introduce himself, and take you		with and the challenges and so forth, I will just
	through some. But we had just finished talking about		point them out. But I do want to address some of the
	the cohort retention because that is something that		questions that were asked, especially from Board
	we absolutely have to		Member McCord about the patterns and what is
8	CHAIRMAN JOHNSON: I'm sorry. I didn't mean	8	
_	-		
9	to interrupt. But it looks like up north Danny,	9	
10	are you all		The reason I say the month is because
11	DANNY: Yeah, we're ready to go. Sorry.		month-to-month-to-month, it's always fluctuating.
12	CHAIRMAN JOHNSON: No worries.		There's always constant change. As you've already
13	TAMBRE TONDRYK: So we just did want to show		heard from Beacon Academy, administrators and others,
14	that we had improved our cohort retention, though, to		you can tell that there already is a lot of change, a
15	stay through their senior year to 35.93 percent, and		lot of change at the board level, a lot of change at
	we do have a very small in size our freshman	16	the administration. And just to me as a data
	population is lower, but that is a group that we are	17	J
	focused on keeping and retaining, and that was one of	18	
19	our school improvement goals.		to measure because of instability and time that you
20	From count day to end of year, this is the		need to just have. That way you can kind of get rid
21	one that we also are really focused on. You can see	21	of instability or unreliable (inaudible), and that
22	that in this school year I'm sorry, last year,	22	way you can still continue with (inaudible) to make
23	2014 to 2015 we did retain close to 70 percent of	23	informed judgements about the trajectory or just the
24	our students. So we did increase that from 49	24	state or the pattern of the data.
25	percent the prior year. And from end of year to	25	So in March of 2016, I was looking at the

	count day. So this means students who returned. We		student records that Beacon had. And it was
2	count day. So this means students who returned. We returned 70 percent of our population. And	2	student records that Beacon had. And it was expressed one of the patterns, if they were going to
2 3	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large	2 3	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually,
2 3 4	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good	2 3 4	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the
2 3 4	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number.	2 3 4	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area.
2 3 4 5 6	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11	2 3 4 5 6	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the
2 3 4 5 6 7	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the	2 3 4 5 6 7	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the
2 3 4 5 6 7 8	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year.	2 3 4 5 6 7 8	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County,
2 3 4 5 6 7 8 9	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of	2 3 4 5 6 7 8 9	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records
2 3 4 5 6 7 8 9 10	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we	2 3 4 5 6 7 8 9	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those
2 3 4 5 6 7 8 9 10 11	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this.	2 3 6 7 8 9 10	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is
2 3 4 5 6 7 8 9 10 11 12	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me.	2 3 4 5 7 8 9 10 11 12	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno.
2 3 4 5 6 7 8 9 10 11 12 13	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over.	2 3 4 5 6 7 8 9 10 11 12 13	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here
2 3 4 5 7 8 9 10 11 12 13 14	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza.	2 3 4 5 6 7 8 9 10 11 12 13 14	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this
2 3 4 5 6 7 8 9 10 11 12 13 14 15	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the Center of Research, Evaluation and Assessment. I've	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are in this area. And the number increases to 31 because
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the Center of Research, Evaluation and Assessment. I've been asked to be an external evaluator to just look	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are in this area. And the number increases to 31 because in 6 schools I consolidated together and these
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the Center of Research, Evaluation and Assessment. I've been asked to be an external evaluator to just look at the data and kind of tell what is some of the data	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are in this area. And the number increases to 31 because in 6 schools I consolidated together and these were all the behavioral schools and juvenile
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the Center of Research, Evaluation and Assessment. I've been asked to be an external evaluator to just look at the data and kind of tell what is some of the data saying about Beacon Academy. So that's kind of my	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are in this area. And the number increases to 31 because in 6 schools I consolidated together and these were all the behavioral schools and juvenile detention. I represented that as one school. And so
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the Center of Research, Evaluation and Assessment. I've been asked to be an external evaluator to just look at the data and kind of tell what is some of the data saying about Beacon Academy. So that's kind of my role here, working with Beacon, just being again the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are in this area. And the number increases to 31 because in 6 schools I consolidated together and these were all the behavioral schools and juvenile detention. I represented that as one school. And so just to know that students are also coming from those
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the Center of Research, Evaluation and Assessment. I've been asked to be an external evaluator to just look at the data and kind of tell what is some of the data saying about Beacon Academy. So that's kind of my role here, working with Beacon, just being again the external evaluator.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are in this area. And the number increases to 31 because in 6 schools I consolidated together and these were all the behavioral schools and juvenile detention. I represented that as one school. And so just to know that students are also coming from those schools, too. This is 12 grade. So it was already
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the Center of Research, Evaluation and Assessment. I've been asked to be an external evaluator to just look at the data and kind of tell what is some of the data saying about Beacon Academy. So that's kind of my role here, working with Beacon, just being again the external evaluator. So just before I start, as an evaluator, I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are in this area. And the number increases to 31 because in 6 schools I consolidated together and these were all the behavioral schools and juvenile detention. I represented that as one school. And so just to know that students are also coming from those schools, too. This is 12 grade. So it was already mentioned that there's a large percentage, 8 percent
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	count day. So this means students who returned. We returned 70 percent of our population. And considering, you know, we have a very large percentage of students that graduate, that's a good number. Oh, I'm sorry. This is the 9 through 11 enrolled at the end of the year who returned the following year. And we already have indicated that 340 of our students are returning for next year, so we already started to make improvements on this. So if you have any questions for me. Otherwise, Dr. Garza will take over. TIBERIO GARZA: Hi, I'm Dr. Tiberio Garza. Thank you for this time to allow me to speak. I'm from the University of Nevada Las Vegas, and I worked with the Center of CREA, which is the Center of Research, Evaluation and Assessment. I've been asked to be an external evaluator to just look at the data and kind of tell what is some of the data saying about Beacon Academy. So that's kind of my role here, working with Beacon, just being again the external evaluator.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	student records that Beacon had. And it was expressed one of the patterns, if they were going to be pattern-like changes. It turns out that actually, the students that are coming to Beacon for the educational classes do come from the Las Vegas area. So to me it makes sense that one of the supplemental measures was to consolidate the educational resources and focus in on Clark County, which would make sense because based on the records alone, that's where the students are from, and those are the ones seeking the most. The only exception is the one school in Reno. So other than that, we have 25 schools here in the Las Vegas area, not even extending past this area. But Clark County would be a bigger area. But just consolidating everything to the county makes sense. But here it's just 25 schools of 26 that are in this area. And the number increases to 31 because in 6 schools I consolidated together and these were all the behavioral schools and juvenile detention. I represented that as one school. And so just to know that students are also coming from those schools, too. This is 12 grade. So it was already

	Nevada State Public Charte	er Sc	nooi Authority Meeting
	Page 105		Page 107
1	percent out of 11th grade.	1	rate is an equation that can I know it was already
2	But again, these are just the conditions.		said it can be manipulated, but again, that would be
	But what I just want to add is, where these students		at the policy implications or policy adoption at the
	are coming from. What are the schools that are		school level to be able to manipulate this score.
	involved. And in the report you can see the specific	5	Again, at Beacon I was the external
	schools that are listed. Again, and that's just	-	evaluator, so I was a witness. So I'm just
	based on student records. That just means looking at		testifying to what I saw and what I got from just
	the student records one at a time across Beacon's		interactions with people at Beacon. Again, I'm the
	data.		outside person. And even now, I'm even new to this
			-
10	Again, this is March 2016. This is just a		area. So I've only been here since August. So I'm
	visual that I got in Google maps. All the little		just giving you my unbiased I'm just telling you
	golden stars represent the schools that the students		what I saw, what I've heard, what I've learned from
	are coming to Beacon for educational services. And		Beacon.
	so again, only one star resides outside this map. So	14	And again, so we know that credit deficiency
	again, I just want to just illustrate, like who are		is a factor. The only thing I want to just state
	the students seeking educational services from		here is in 2014-2015, we considered credit deficiency
	Beacon? Again, it's in this local area.		at the state level. And so you see that .8, 11.8,
18	And this is 12th grade. And we see the same		and 16.6 and 18.2.
	in 11th grade. Again, it's the same schools, and in	19	What I want to do is just, you see the
	the report you'll see several of the schools		visual comparing that year and with Beacon. But
	repeated. I won't name them by them, but in the		5
	report you can see who they are.		So from 9th to 10th, 11th and 12th grade, there's a
23	Again, this is just telling the story, where		gradual curve of credit deficiency over time, which
	are they where are these students coming from		is, you know, reasonable as transfers from 10th grade
25	because the more we know about them, the more, as	25	to 11th grade to 12th grade, and they're trying to
	Page 106		Page 108
1		1	-
	Beacon has already stressed, the more educational		Page 108 not be credit-deficient, but as carryover that will be expressed from the Beacon information credit
		2	not be credit-deficient, but as carryover that will

2 3 4 5 6 7 8 9 10	Beacon has already stressed, the more educational resources and support can be provided to them. And education, we just know that it's a growing trend that relationship is starting to become an important factor of just overall student achievement, especially among older students. Just building relationships. So as was already said among parents and students, I was glad to just see that student-centered instruction and support from them	2 3 4 5 6 7 8 9 10	not be credit-deficient, but as carryover that will be expressed from the Beacon information credit deficiency in the Beacon file. This is just showing you at the state level. It's a nice gradual curve. That makes sense. There's progress going. But wanted to just show you, again, this is 2014. Again, it's more specifically to that one year, the most current year. And again, this data is coming from the data interaction for Nevada Report Card. So it's publicly accessible. I'm just bringing it here to just illustrate.
2 3 4 5 6 7 8 9 10 11 12	Beacon has already stressed, the more educational resources and support can be provided to them. And education, we just know that it's a growing trend that relationship is starting to become an important factor of just overall student achievement, especially among older students. Just building relationships. So as was already said among parents and students, I was glad to just see that student-centered instruction and support from them being expressed that Beacon was providing for them. Because I know that's along towards the trend and	2 3 4 5 6 7 8 9 10 11 12	not be credit-deficient, but as carryover that will be expressed from the Beacon information credit deficiency in the Beacon file. This is just showing you at the state level. It's a nice gradual curve. That makes sense. There's progress going. But wanted to just show you, again, this is 2014. Again, it's more specifically to that one year, the most current year. And again, this data is coming from the data interaction for Nevada Report Card. So it's publicly accessible.
2 3 4 5 6 7 8 9 10 11 12	Beacon has already stressed, the more educational resources and support can be provided to them. And education, we just know that it's a growing trend that relationship is starting to become an important factor of just overall student achievement, especially among older students. Just building relationships. So as was already said among parents and students, I was glad to just see that student-centered instruction and support from them being expressed that Beacon was providing for them. Because I know that's along towards the trend and research, just build that relationship and that learning can happen in that kind of environment.	2 3 4 5 6 7 8 9 10 11 12 13	not be credit-deficient, but as carryover that will be expressed from the Beacon information credit deficiency in the Beacon file. This is just showing you at the state level. It's a nice gradual curve. That makes sense. There's progress going. But wanted to just show you, again, this is 2014. Again, it's more specifically to that one year, the most current year. And again, this data is coming from the data interaction for Nevada Report Card. So it's publicly accessible. I'm just bringing it here to just illustrate. What I want to illustrate is just the
2 3 4 5 6 7 8 9 10 11 12 13 14	Beacon has already stressed, the more educational resources and support can be provided to them. And education, we just know that it's a growing trend that relationship is starting to become an important factor of just overall student achievement, especially among older students. Just building relationships. So as was already said among parents and students, I was glad to just see that student-centered instruction and support from them being expressed that Beacon was providing for them. Because I know that's along towards the trend and research, just build that relationship and that	2 3 4 5 6 7 8 9 10 11 12 13 14	not be credit-deficient, but as carryover that will be expressed from the Beacon information credit deficiency in the Beacon file. This is just showing you at the state level. It's a nice gradual curve. That makes sense. There's progress going. But wanted to just show you, again, this is 2014. Again, it's more specifically to that one year, the most current year. And again, this data is coming from the data interaction for Nevada Report Card. So it's publicly accessible. I'm just bringing it here to just illustrate. What I want to illustrate is just the reliability of the data or just the instability. So
2 3 4 5 6 7 8 9 10 11 12 13 13 14	Beacon has already stressed, the more educational resources and support can be provided to them. And education, we just know that it's a growing trend that relationship is starting to become an important factor of just overall student achievement, especially among older students. Just building relationships. So as was already said among parents and students, I was glad to just see that student-centered instruction and support from them being expressed that Beacon was providing for them. Because I know that's along towards the trend and research, just build that relationship and that learning can happen in that kind of environment. So we already know that there are negative influences on the graduation rate. It is a robust	2 3 4 5 6 7 8 9 10 11 12 13 14 15	not be credit-deficient, but as carryover that will be expressed from the Beacon information credit deficiency in the Beacon file. This is just showing you at the state level. It's a nice gradual curve. That makes sense. There's progress going. But wanted to just show you, again, this is 2014. Again, it's more specifically to that one year, the most current year. And again, this data is coming from the data interaction for Nevada Report Card. So it's publicly accessible. I'm just bringing it here to just illustrate. What I want to illustrate is just the reliability of the data or just the instability. So here at the state it's a nice, gradual curve. But
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Beacon has already stressed, the more educational resources and support can be provided to them. And education, we just know that it's a growing trend that relationship is starting to become an important factor of just overall student achievement, especially among older students. Just building relationships. So as was already said among parents and students, I was glad to just see that student-centered instruction and support from them being expressed that Beacon was providing for them. Because I know that's along towards the trend and research, just build that relationship and that learning can happen in that kind of environment. So we already know that there are negative	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	not be credit-deficient, but as carryover that will be expressed from the Beacon information credit deficiency in the Beacon file. This is just showing you at the state level. It's a nice gradual curve. That makes sense. There's progress going. But wanted to just show you, again, this is 2014. 	other estimates of 18.4 and 13.9. That just refers		percentage?
	other estimates of 18.4 and 13.9. That just refers to the State and Clark County.	1 2 3	percentage? TIBERIO GARZA: An absolute percentage.
2 3	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total	2 3	percentage?
2 3 4	other estimates of 18.4 and 13.9. That just refers to the State and Clark County.	2 3 4	percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014
2 3 4	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the	2 3 4	percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the
2 3 4 5 6	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else?	2 3 4 5 6	percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out?
2 3 4 5 6 7 8	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see	2 3 4 5 6	percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out? TIBERIO GARZA: That was in the previous
2 3 4 5 6 7 8 9	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see is just that those students there's a lot of	2 3 4 5 6 7 8	percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out? TIBERIO GARZA: That was in the previous year. CHAIRMAN JOHNSON: Yeah, for the 2014 cohort.
2 3 4 5 6 7 8 9	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see is just that those students there's a lot of students coming from prior schools in this area. And	2 3 4 5 6 7 8 9	percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out? TIBERIO GARZA: That was in the previous year. CHAIRMAN JOHNSON: Yeah, for the 2014 cohort. TIBERIO GARZA: Okay. That would be
2 3 4 5 6 7 8 9 10 11	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see is just that those students there's a lot of students coming from prior schools in this area. And once they reach credit deficiency, they have friends	2 3 4 5 7 8 9 10 11	percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out? TIBERIO GARZA: That was in the previous year. CHAIRMAN JOHNSON: Yeah, for the 2014 cohort. TIBERIO GARZA: Okay. That would be correct. It's over the span of four years.
2 3 4 5 7 8 9 10 11 12	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see is just that those students there's a lot of students coming from prior schools in this area. And once they reach credit deficiency, they have friends at those other schools. It's more likely that they	2 3 4 5 7 8 9 10 11	<pre>percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out? TIBERIO GARZA: That was in the previous year. CHAIRMAN JOHNSON: Yeah, for the 2014 cohort. TIBERIO GARZA: Okay. That would be correct. It's over the span of four years. CHAIRMAN JOHNSON: Four years in that</pre>
2 3 4 5 7 8 9 10 11 12 13	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see is just that those students there's a lot of students coming from prior schools in this area. And once they reach credit deficiency, they have friends at those other schools. It's more likely that they would go back and enjoy that senior year that Travis	2 3 4 5 6 7 8 9 10 11 12 13	 percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out? TIBERIO GARZA: That was in the previous year. CHAIRMAN JOHNSON: Yeah, for the 2014 cohort. TIBERIO GARZA: Okay. That would be correct. It's over the span of four years. CHAIRMAN JOHNSON: Four years in that cohort, 80 percent of the students transferred out?
2 3 4 5 7 8 9 10 11 12 13 14	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see is just that those students there's a lot of students coming from prior schools in this area. And once they reach credit deficiency, they have friends at those other schools. It's more likely that they would go back and enjoy that senior year that Travis described. There's also other factors.	2 3 4 5 6 7 8 9 10 11 12 13 14	 percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out? TIBERIO GARZA: That was in the previous year. CHAIRMAN JOHNSON: Yeah, for the 2014 cohort. TIBERIO GARZA: Okay. That would be correct. It's over the span of four years. CHAIRMAN JOHNSON: Four years in that cohort, 80 percent of the students transferred out? TIBERIO GARZA: Yes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see is just that those students there's a lot of students coming from prior schools in this area. And once they reach credit deficiency, they have friends at those other schools. It's more likely that they would go back and enjoy that senior year that Travis described. There's also other factors. But again, what I'm worrying about is just	2 3 4 5 6 7 8 9 10 11 12 13 14 15	<pre>percentage? TIBERIO GARZA: An absolute percentage. CHAIRMAN JOHNSON: So you're saying in 2014 or '13, you're going to get 80 percent of the students transferred out? TIBERIO GARZA: That was in the previous year. CHAIRMAN JOHNSON: Yeah, for the 2014 cohort. TIBERIO GARZA: Okay. That would be correct. It's over the span of four years. CHAIRMAN JOHNSON: Four years in that cohort, 80 percent of the students transferred out? TIBERIO GARZA: Yes. CHAIRMAN JOHNSON: Okay. I just wanted to</pre>
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. And as Travis just mentioned, that's also the ideas of there's other slides that support this slide, but again, what I see is just that those students there's a lot of students coming from prior schools in this area. And once they reach credit deficiency, they have friends at those other schools. It's more likely that they would go back and enjoy that senior year that Travis described. There's also other factors. But again, what I'm worrying about is just that students come to Beacon to get back on track	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	<pre>percentage?</pre>
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	other estimates of 18.4 and 13.9. That just refers to the State and Clark County. MEMBER CONABOY: So 64 percent of the total student population at Beacon in 2014-15 left the school, transferred out to somewhere else? TIBERIO GARZA: Right. So again, whether they stay or not, it's those students' choice. But I'm glad that Beacon has worked on retention strategies and measures. One other thing that I might add, too, that was questioned earlier was just, what do you do with students coming in at 12th grade or the fifth year. Again, it would have to be an aggressive plan to be able to show to those students the curriculum that
2 3 4 5 6 7 8 9 10 11 12 13	It just creates the instability of that measure, that graduation rate. Some of it just reduces the calculation. We're putting in the values for 121415; 80 divided by 152, which again, the Nevada report card is already calculating this for us. But again, this just kind of just illustrates all the different factors for the number of graduates. I just wanted to just illustration, just so you can kind of see more of the influence of the transfer-outs, all those elements. What I really wanted to address was the patterns that were mentioned by Board Member McCord.	2 3 4 5 6 7 8 9 10 11 12 13	these students are seeking out Beacon for the educational services that, in my opinion, that they've already seen that they can get from Beacon Academy. So again, whether they stay or not, it's those students' choice. But I'm glad that Beacon has worked on retention strategies and measures. One other thing that I might add, too, that was questioned earlier was just, what do you do with students coming in at 12th grade or the fifth year. Again, it would have to be an aggressive plan to be able to show to those students the curriculum that they would need to be able to fulfill those credit
2 3 4 5 6 7 8 9 10 11 12 13 14	It just creates the instability of that measure, that graduation rate. Some of it just reduces the calculation. We're putting in the values for 121415; 80 divided by 152, which again, the Nevada report card is already calculating this for us. But again, this just kind of just illustrates all the different factors for the number of graduates. I just wanted to just illustration, just so you can kind of see more of the influence of the transfer-outs, all those elements. What I really wanted to address was the patterns that were mentioned by Board Member McCord. So here on the 12th grade, March 2016, all	2 3 4 5 6 7 8 9 10 11 12 13 14	these students are seeking out Beacon for the educational services that, in my opinion, that they've already seen that they can get from Beacon Academy. So again, whether they stay or not, it's those students' choice. But I'm glad that Beacon has worked on retention strategies and measures. One other thing that I might add, too, that was questioned earlier was just, what do you do with students coming in at 12th grade or the fifth year. Again, it would have to be an aggressive plan to be able to show to those students the curriculum that they would need to be able to fulfill those credit deficiencies.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	It just creates the instability of that measure, that graduation rate. Some of it just reduces the calculation. We're putting in the values for 121415; 80 divided by 152, which again, the Nevada report card is already calculating this for us. But again, this just kind of just illustrates all the different factors for the number of graduates. I just wanted to just illustration, just so you can kind of see more of the influence of the transfer-outs, all those elements. What I really wanted to address was the patterns that were mentioned by Board Member McCord. So here on the 12th grade, March 2016, all those 12th graders reported that a hundred for	2 3 4 5 6 7 8 9 10 11 12 13 14 15	these students are seeking out Beacon for the educational services that, in my opinion, that they've already seen that they can get from Beacon Academy. So again, whether they stay or not, it's those students' choice. But I'm glad that Beacon has worked on retention strategies and measures. One other thing that I might add, too, that was questioned earlier was just, what do you do with students coming in at 12th grade or the fifth year. Again, it would have to be an aggressive plan to be able to show to those students the curriculum that they would need to be able to fulfill those credit deficiencies. I mean, in the end, if a student finds that
2 3 4 5 6 7 8 9 10 11 12 13 14	It just creates the instability of that measure, that graduation rate. Some of it just reduces the calculation. We're putting in the values for 121415; 80 divided by 152, which again, the Nevada report card is already calculating this for us. But again, this just kind of just illustrates all the different factors for the number of graduates. I just wanted to just illustration, just so you can kind of see more of the influence of the transfer-outs, all those elements. What I really wanted to address was the patterns that were mentioned by Board Member McCord. So here on the 12th grade, March 2016, all those 12th graders reported that a hundred for example, only 30 12th grade students reported that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	these students are seeking out Beacon for the educational services that, in my opinion, that they've already seen that they can get from Beacon Academy. So again, whether they stay or not, it's those students' choice. But I'm glad that Beacon has worked on retention strategies and measures. One other thing that I might add, too, that was questioned earlier was just, what do you do with students coming in at 12th grade or the fifth year. Again, it would have to be an aggressive plan to be able to show to those students the curriculum that they would need to be able to fulfill those credit deficiencies. I mean, in the end, if a student finds that that's too much to do to make up two years in one
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	It just creates the instability of that measure, that graduation rate. Some of it just reduces the calculation. We're putting in the values for 121415; 80 divided by 152, which again, the Nevada report card is already calculating this for us. But again, this just kind of just illustrates all the different factors for the number of graduates. I just wanted to just illustration, just so you can kind of see more of the influence of the transfer-outs, all those elements. What I really wanted to address was the patterns that were mentioned by Board Member McCord. So here on the 12th grade, March 2016, all those 12th graders reported that a hundred for example, only 30 12th grade students reported that they have been with Beacon ever since. And they had	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	these students are seeking out Beacon for the educational services that, in my opinion, that they've already seen that they can get from Beacon Academy. So again, whether they stay or not, it's those students' choice. But I'm glad that Beacon has worked on retention strategies and measures. One other thing that I might add, too, that was questioned earlier was just, what do you do with students coming in at 12th grade or the fifth year. Again, it would have to be an aggressive plan to be able to show to those students the curriculum that they would need to be able to fulfill those credit deficiencies. I mean, in the end, if a student finds that that's too much to do to make up two years in one year, or three years in one year, the student's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	It just creates the instability of that measure, that graduation rate. Some of it just reduces the calculation. We're putting in the values for 121415; 80 divided by 152, which again, the Nevada report card is already calculating this for us. But again, this just kind of just illustrates all the different factors for the number of graduates. I just wanted to just illustration, just so you can kind of see more of the influence of the transfer-outs, all those elements. 1	And then of course, further observance of		factors.
2	And then of course, further observance of credit deficiency among students and those entering	2	factors. So I would do this through machine learning
2 3	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential.	2 3	factors. So I would do this through machine learning where I can look at mathematical relationships and
2 3 4	And then of course, further observance of credit deficiency among students and those entering	2 3 4	factors. So I would do this through machine learning
2 3 4 5 6	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation	2 3 4 5 6	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being
2 3 4 5 6 7	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school	2 3 4 5 6 7	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community.
2 3 4 5 6 7 8	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy.	2 3 4 5 6 7 8	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But
2 3 4 5 6 7 8 9	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've	2 3 4 5 6 7 8 9	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many
2 3 4 5 6 7 8 9	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do	2 3 4 5 6 7 8 9	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I
2 3 4 5 6 7 8 9 10 11	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've	2 3 6 7 8 9 10	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many
2 3 4 5 7 8 9 10 11 12	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working	2 3 4 5 7 8 9 10 11	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those
2 3 4 5 6 7 8 9 10 11 12 13 14	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time	2 3 4 5 6 7 8 9 10 11 12 13 14	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one
2 3 4 5 6 7 8 9 10 11 12 13 14 15	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there. So my assumptions are that, yes, these	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just look at GPA. You look at writing, you look at what's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there. So my assumptions are that, yes, these individuals are hardworking. They're trying their	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just look at GPA. You look at writing, you look at what's the service that the high school has done. There's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there. So my assumptions are that, yes, these individuals are hardworking. They're trying their best. They're doing everything they can. But maybe	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just look at GPA. You look at writing, you look at what's the service that the high school has done. There's multiple things you look at before that student is
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there. So my assumptions are that, yes, these individuals are hardworking. They're trying their	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just look at GPA. You look at writing, you look at what's the service that the high school has done. There's
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there. So my assumptions are that, yes, these individuals are hardworking. They're trying their best. They're doing everything they can. But maybe they just we need more information related to the data and what could be done, and what else is the data saying. So that's the options. I'm just	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just look at GPA. You look at writing, you look at what's the service that the high school has done. There's multiple things you look at before that student is allowed to enter college. So I would just reiterate that one measure doesn't really help to justify good or bad in making
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there. So my assumptions are that, yes, these individuals are hardworking. They're trying their best. They're doing everything they can. But maybe they just we need more information related to the data and what could be done, and what else is the data saying. So that's the options. I'm just grateful to just be a part of that.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just look at GPA. You look at writing, you look at what's the service that the high school has done. There's multiple things you look at before that student is allowed to enter college. So I would just reiterate that one measure doesn't really help to justify good or bad in making that judgment. Again, that's just a measurement
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there. So my assumptions are that, yes, these individuals are hardworking. They're trying their best. They're doing everything they can. But maybe they just we need more information related to the data and what could be done, and what else is the data saying. So that's the options. I'm just grateful to just be a part of that. And so just and also just I had	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just look at GPA. You look at writing, you look at what's the service that the high school has done. There's multiple things you look at before that student is allowed to enter college. So I would just reiterate that one measure doesn't really help to justify good or bad in making that judgment. Again, that's just a measurement perspective.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	And then of course, further observance of credit deficiency among students and those entering Beacon Academy, that's going to be very essential. If that's the major population that's coming in, it's going to be very critical to be able to address that because again, it's just influencing the graduation rate in a way that's not representative of the school effectiveness of Beacon Academy. And we just don't want that because I've been there. I've visited several times. Since I do get the impression that everyone there is working hard to try and meet the needs of the students. There's always individuals running around trying to take care of things. So I get that sense every time on the visits I've been there. So my assumptions are that, yes, these individuals are hardworking. They're trying their best. They're doing everything they can. But maybe they just we need more information related to the data and what could be done, and what else is the data saying. So that's the options. I'm just grateful to just be a part of that.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	factors. So I would do this through machine learning where I can look at mathematical relationships and how these variables are related to one another. This will just be a school effectiveness measure just to be able to say school X or school Y is actually being effective based on effective in this community. And of course, we'll have all the factors. But machine learning, I can only think of so many variables at once, but with the machine learning, I can list dozens more being able to make those mathematical relationships, being able to come up with equations that are helpful in rating them. But the graduation rate again is just one measure. For college entrance exams, you don't just look at GPA. You look at writing, you look at what's the service that the high school has done. There's multiple things you look at before that student is allowed to enter college. So I would just reiterate that one measure doesn't really help to justify good or bad in making that judgment. Again, that's just a measurement

	Page 121		Page 123
1	MR. GAVIN: I have one follow-up question,	1	would have strategies to be successful with the group
2	Dr. Garza? Did you in your research look at what the		you know your school is going to bring in.
	transfer-out rates look like for the state as a whole	3	
	or for other schools that are sending kids? Is this	-	is. Transiency is an issue. But it's an issue that
	highly anomalous, or we are a great transient		everyone knows when they open a charter school
	state. So I think it's really helpful to understand		exists. So then to be like, The transiency and
	it.		again, I'm not beating up on Beacon. I saw it in
8	TIBERIO GARZA: Yeah, and I saw that in the		every report that was in our board packet to blame
	Nevada Report Card, that there is a lot of		transiency. It's no different than blaming the fact
	transiency. But I'm not able to see the percentage.		that they, you know, English language you know,
	And really, my focus was Beacon Academy. But this		people saying, Well, there's a lot of ELL kids here,
	would be like future research, where I would like to		so, man, we're just not fit. We can't fill that
	be able to look at more than just one school to be		because of that. It makes it so hard.
	able to because that will help with the equation	14	
	development and being able to really assess what is		about that because we know, everyone knows those are
	school effectiveness across the state, or it might go		the kids that are attracted to online schools. It's
17	outside of the state, too.		a common fact. Everyone knows it when they open
18	But again, there just wasn't enough time to		their school. It's not unique to Nevada. It's a
19	be able to calculate all that. But it's something		fact that we know. That's what you said you were
20	that's interesting to me and something I would like	20	going to do, was deal with transient students because
21	to continue to pursue.		you opened an online school, and you know that that's
22	CHAIRMAN JOHNSON: Were there any further	22	who comes to online schools.
23	questions for Dr. Garza?	23	
24	MS. MACKEDON: I'm sorry. Beacon isn't the	24	up on Beacon here. It's just something that really
25	first school up here, because this isn't just a	25	stood out to me over the last few months and in
	Page 122		Page 124
1	-	1	
	Beacon issue. So I want to be clear about beating up		reading our board packet again. And it's very
2	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of	2	reading our board packet again. And it's very frustrating from my perspective.
2 3	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone	2 3	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just
2 3 4	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit	2 3 4	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress
2 3 4 5	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency	2 3 4 5	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one
2 3 4 5 6	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that.	2 3 4 5 6	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the
2 3 4 5 6 7	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that	2 3 4 5 6 7	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to
2 3 4 5 6 7 8	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and	2 3 4 5 6 7 8	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that
2 3 4 5 6 7 8 9	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just	2 3 4 5 6 7 8 9	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all.
2 3 4 5 6 7 8 9	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high.	2 3 6 7 8 9	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else
2 3 4 5 6 7 8 9 10 11	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and	2 3 4 5 6 7 8 9 10 11	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second
2 3 4 5 6 7 8 9 10 11 12	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we	2 3 4 5 6 7 8 9 10 11 12	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items?
2 3 4 5 6 7 8 9 10 11 12 12	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know.	2 3 4 5 6 7 8 9 10 11 12 13	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready.
2 3 4 5 6 7 8 9 10 11 12 13 14	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If	2 3 4 5 6 7 8 9 10 11 12 13 14	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to
2 3 4 5 6 7 8 9 10 11 12 13 13 14	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it,	2 3 4 5 6 7 8 9 10 11 12 13 14 15	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those issues.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number 7.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those issues. Just like if you open an ELL school, you're	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number 7. MR. GAVIN: Beacon Academy has requested two
2 3 4 5 6 7 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those issues. Just like if you open an ELL school, you're saying, we have strategies to be successful with the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number 7. MR. GAVIN: Beacon Academy has requested two contractual amendments. The first is to request to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those issues. Just like if you open an ELL school, you're saying, we have strategies to be successful with the population that this school is going to bring. If	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number 7. MR. GAVIN: Beacon Academy has requested two contractual amendments. The first is to request to limit enrollment in school to Clark County students.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those issues. Just like if you open an ELL school, you're saying, we have strategies to be successful with the population that this school is going to bring. If you open a school for adjudicated youth, and then	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number 7. MR. GAVIN: Beacon Academy has requested two contractual amendments. The first is to request to limit enrollment in school to Clark County students. And the second requests 6 additional measures for
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those issues. Just like if you open an ELL school, you're saying, we have strategies to be successful with the population that this school is going to bring. If you open a school for adjudicated youth, and then you're in shock and awe that they have an attitude	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number 7. MR. GAVIN: Beacon Academy has requested two contractual amendments. The first is to request to limit enrollment in school to Clark County students. And the second requests 6 additional measures for performance framework.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those issues. Just like if you open an ELL school, you're saying, we have strategies to be successful with the population that this school is going to bring. If you open a school for adjudicated youth, and then you're in shock and awe that they have an attitude problem. No. Your charter said you had you know,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number 7. MR. GAVIN: Beacon Academy has requested two contractual amendments. The first is to request to limit enrollment in school to Clark County students. And the second requests 6 additional measures for performance framework. As you're aware, the Academy and the staff
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	Beacon issue. So I want to be clear about beating up on Beacon here, but in general, this issue of transiency is making me want to scream. Everyone knows, every charter school that bothered to submit something today put right in their report, transiency is an issue with an online school. So we know that. We know that when we open the door. We know that when we get our charter. And then we come back and say, Transiency, that's why we're failing. We just can't get these kids cause the rates are so high. It's like opening a school for ELL kids and saying, well, they're not fluent in English so we haven't been able to teach them. Yeah, we know. It's an ELL school. It goes with the territory. If you open an online school, you know going into it, transiency is an issue. And your charter says you have a way to be successful, just to have those issues. Just like if you open an ELL school, you're saying, we have strategies to be successful with the population that this school is going to bring. If you open a school for adjudicated youth, and then you're in shock and awe that they have an attitude	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	reading our board packet again. And it's very frustrating from my perspective. TIBERIO GARZA: I want to just say, I just want to just say, that's why I didn't want to stress that too much because I got the sense every one already knows. What I wanted to just bring to the table is just being able to assess that in a way to be able to properly adjust for that in a way that measures school effectiveness. But that's all. CHAIRMAN JOHNSON: Is there anything else (inaudible), or do we want to move on to the second half of this, which are the action items? UNIDENTIFIED SPEAKER: Yes, we're ready. CHAIRMAN JOHNSON: So we will then move to Agenda item number 7, which is the consideration of possible action of Beacon Academy's request pursuant to NAC 386.325. Director Gavin? This is item number 7. MR. GAVIN: Beacon Academy has requested two contractual amendments. The first is to request to limit enrollment in school to Clark County students. And the second requests 6 additional measures for performance framework.

 incorporated the last provision MEMBER CONABOY: Patrick, I'm just having a little bit of trouble keeping up. MR, GAVIN: Sorry. So I'll stop reading and start talking. They asked for two amendments. As you're a mended contract reflecting the changes that the board requested. The staff and the staff's attorney are continuing to work with the school's counsel on that. I think i's critical that any approval you make be contingent upon the execution of that containing to upon the execution of that contract. So these things do not come into effect. le that contract is put into effect. We can't secondly, with relation to amendment 1; that is the Clark County requests, staff is supportive of a not supporting that at this time. In the even the school comes back with an amendment to request to Page 12 convert to a school serving the opportunity youth population we discussed earlier, the students whorats i. So it would be an extraordinarily dangerous a precedent to set because it would essentially negate the whole purpose of the governor requiring ustof i. So it would be an extraordinarily dangerous a precodent to set because it would essentially negate the whole purpose of the governor requiring ustof contract, and we are the third lowest to radking norgess towards those measures. Again, I will remind you, we are the lowest the whole purpose of the governor requiring ustof contract anguage that we propose to be changed the whole purpose of the governor requiring ustof the subel purpose of the governor requiring ustof the state whora sub with good faith		Nevada State Public Charte	er So	chool Authority Meeting
2 MEMBER CONABOY: Partick, I'm just having a 3 little bit of trouble keeping up. 4 MR, GAVIN: Sorry. So I'll stop reading and 5 start talking. 6 They asked for two amendments. As you're 7 aware, we approved, two approved amendments back in 8 the summer. The school has not yet executed an 9 amended contract reflecting the changes that the 10 board requested. 11 The staff and the staff's attorney are 12 continuing to work with the school's counsel on that 13 I am hopeful that that will be taken care of in short 14 order. 15 I think it's critical that any approval you 16 make be contingent upon the execution of that 17 contract. So these things do not come into effect. 18 until that contract is put into effect. We can't 19 keep pushing that out. 20 School comes back with an amendment to request to 21 contrauting the reformance framework, staff is 24 not upst head this time. In the even the 25 school comes back with an amendment to request to		Page 125		Page 127
2 MEMBER CONABOY: Parick, I'm just having a 3 litub bit of trouble keeping up. 4 MR. GAVIN: Sorry. So I'll stop reading and 5 start talking. 6 They asked for two amendments. As you're 7 aware, we approved, two approved amendments back in 8 the summer. The school has not yet executed an 9 amended contract reflecting the changes that the 10 board requested. 11 The staff and the staff's attorney are 12 continuing to work with the school's counsel on that 13 I am hopeful that that will be taken care of in short 14 order. I 15 I think it's critical that any approval you 16 make be contingent upon the execution of that 17 contract. So these things do not come into effect. 18 until that contract is put into effect. We can't 19 keep pushing that out. 20 School comes back with an amendment to requesto 21 contruing that dut is time. In the even the 25 school comes back with an amendment to requesto 21 contruing that at this time. <tr< th=""><th>1</th><th>incorporated the last provision</th><th>1</th><th>Let me sign up for that</th></tr<>	1	incorporated the last provision	1	Let me sign up for that
 a little bit of trouble keeping up. MR. GAVIN: Sorry. So I'll stop reading and start talking. They asked for two amendments. As you're They asked for two approved amendments back in the summer. The school has not yet executed an a mended contract reflecting the changes that the lob board requested. The staff and the staff's autorney are I am hopeful that that will be taken care of in short Gradrer. I hink it's critical that any approval you make be contingent upon the execution of the contract. So these things do not come into effect. Scondly, with relation to amendment 1; that additional metrics to performance framework, staff is additional metrics to performance framework, staff is a dottion we discussed earlier, the students who are a cocuntability of every school in the state who wants t. So it would be an extraordinarily dangerous presented both to yourself and to us. Page 126 Away of tracking progress towards those measures. A courtability of every school in the state who wants t. So it would be an extraordinarily dangerous precentuly framed, this would esaver gover fiss IC SANCHEZ: Then the other probl the whole purpose of the governor requiring us to presented both to yourself and to us. ters whole manedments that we feel are going to presented both to yourself and to us. presented both to yourself and to us. presented both to yourself and to us. ters whole purpose of the governor requiring us to the whole purpose of the governor requiring usto the whole purpose of the governor requiring us				÷ .
 MR. GAVIN: Sorry. So I'll stop reading and 5 start talking. At think it shows a true sincerity about their student 15 and not just the bottom line. I think it's avesome 6 So I would move to approve the amendment number 7 and not just the bottom line. I think it's avesome 6 So I would move to approve the amendment number 9 anended contract reflecting the changes that the 10 board requested. In the staff and the staff's attorney are continuing to work with the school's counsel on that 2 contract. So these things do not come into effect. I think it's critical that any approval you 16 make be contingent upon the execution of that 2 contract. So these things do not come into effect. I until that contract is put into effect. We can't 12 keep ushing that out. Scoolly, with relation to amendment 1; that 2 is the Clark County requests, staff is supportive of 22 that change. With regard to the addition of the 23 additional metrics to performance framework, staff is a unsporting that at this time. In the even the 25 school comes back with an amendment to request to 3 more than two years behind, this would water down 6 accountability of every school in the state who wats 7 it. So it would be an extraordinarily dangerous 8 percedent to set because it would essentially negate 9 the whole purpose of the governor requiring us to 10 have the 60 percent graduation rate (maudible) (inaudible) absolutely unacceptable graduation rate (maudible) absolutely unacceptable graduation rate (inaudible) and the scounty. That number is 12 of this agency. Max Again, I will remind you, we are the lowest 13 performing school system in the states with relation to atte for the students, and we provide actual 14 effort the sudents, and we provide actual 15 to graduation rate, and we are the third lowest 16 performing school system in the states with relation to a time of the set way this occurred back 17 ultry unacceptable. We must ensure that we are specond ton the state off			_	
 5 start talking. 5 start talking. They asked for two amendments. As you're They asked for two approved amendments back in 8 the summer. The school has not yet executed an 9 amended contract reflecting the changes that the 10 board requested. 11 The staff and the staff's attorney are 12 continuing to work with the school's counsel on that. 13 I am hopeful that that will be taken care of in short 14 order. 14 order. 15 I think it's critical that any approval you 16 make be contingent upon the execution of that 17 contract. So these things do not come into effect. 18 unit that contract is put into effect. We can't 19 keep pushing that out. 20 Scondly, with relation to amendment 1; that 21 is the Clark County requests, staff is supportive of 22 that change. With regard to the addition of the 23 additional metrics to performance framework, staff is 24 not supporting that at this time. In the even the 25 scool comes back with an amendment to request to 26 for us to prepare to respond to his recommendation? 21 convert to a school serving the opportunity youth 22 opulation we discussed earlier, the students who ara 32 inconvert to a school serving the opportunity youth 33 more than two years behind, this would water dowa 34 way of tracking progress towards hose measures. 35 Accuratability of every school in the state who wants 31 is on thole an extraordinarily dangerous 33 more than two learned, this would water dowa 34 performing school system in the states with relation 35 or parduation rate, and we are the third lowest 34 performing state in the country. That number is 35 So then they we nokling this hostage over 36 So then they we nokling this hostage over 37 utterly unacceptable			_	
 6 They asked for two amendments. As you're 7 aware, we approved, two approved amendments back in 8 the summer. The school has not yet executed 9 amended contract reflecting the changes that the 10 board requested. 11 The staff and the staff's attorney are 12 continuing to work with the school's counsel on that. 13 I am hopeful that that will be taken care of in short 14 order. 15 I think i's critical that any approval you 16 make be contingent upon the execution of that 17 contract. So these things do not come into effect. 18 until that contract is put into effect. We can't 19 keep pushing that out. 20 Secondly, with relation to amendment 1; that 21 is the Clark County requests, staff is supportive of 22 that change. With regard to the addition of the 23 additional metries to performance framework, staff is 24 not supporting that at this time. In the even the 25 school comes back with an amendment to request to 26 poly and we discussed earlier, the students thou way of tracking progress towards those measures. 3 A gain, I will remind you, we are the lowest 10 have the 60 percent graduation rate (inaudible) 11 (inaudible) absolutely unacceptable graduation rate, and we are the third lowest 12 of this ageny. 13 Again, I will remind you, we are the lowest 14 performing school system in the states with relation 15 to graduation rate, and we are the third lowest 16 performing state in the country. That number is 17 uttryly unacceptable. We must ensure that we are 		• • •		
 7 aware, we approved, two approved amendments back in 8 the summer. The school has not yet executed an 9 amended contract reflecting the changes that the 10 board requested. 11 The staff and the staff's atorney are 12 continuing to work with the school's coursel on that. 13 I am hopeful that that will be taken care of in short 14 order. 15 I think it's critical that any approval you 16 make be contingent upon the execution of that 17 contract. So these things do not come into effect. 19 until that contract is put into effect. We can't 19 keep pushing that out. 20 Secondly, with relation to amendment 1; that 21 is the Clark County requests, staff is supportive of 22 that change. With regard to the addition of the 23 additional metrics to performance framework, staff is 24 not supporting that at this time. In the even the 25 school comes back with an amendment to request to 26 convert to a school serving the opportunity youtt 2 population we discussed earlier, the students who are 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would water down 3 more than two years behind, this would sesentially negate 4 the would sear the third lowest 5 for this agency. 10 (inaudible) absolutely unacceptable graduation rate, and we are the third lowest 14 performing school system in the states with relation 15 to graduation rate, and we are the third lowest 16 performing state in the country. That number is 17 uttryl unacceptable. We must ensure that we are 18 performi			_	
 8 the summer. The school has not yet executed an 9 amended contract reflecting the changes that the 10 board requested. 11 The staff and the staff's attorney are 12 continuing to work with the school's counsel on that. 13 I am hopful that that will be taken care of in short 14 order. 15 I think it's critical that any approval you 16 make be contingent upon the execution of that 17 contract. So these things do not come into effect. 18 the Clark County requests, staff is supportive of 19 ditional metrics to performance framework, staff is 10 and supporting that at this time. In the even the 11 convert to a school serving the opportunity youth 12 population we discussed earlier, the students who are 13 more than two years behind, this would water down 6 accountability of every school in the state who wants 14 the stop solution you are extraordinarily dangerous 15 to graduation rate, and we are the third lowest 19 performing school system in the states with relation 10 have the do percent graduation rate (naudble) 11 Again, I will remind you, we are the lowest 12 or this agency. 13 Again, I will remind you, we are the lowest 14 performing state in the country. That number is 15 to graduation rate, and we are the third lowest 16 performing state in the country. That number is 17 uttryly unacceptable. We must ensure that we are 19 utcylip unacceptable. We must ensure that we are 10 the state in the country. That number is 11 the state in the country. That number is 12 or that is and we are the third lowest 13 performing state in the country. That number is 14 performing state in the	7	· · ·	7	
 9 amended contract reflecting the changes that the 10 board requested. 11 The staff and the staff's attorney are 12 continuing to work with the school's counsel on that. 13 I am hopeful that that will be taken care of in short 14 order. 15 I think it's critical that any approval you 16 make be contingent upon the execution of that 17 contract. So these things do not come into effect. 18 until that contract is put into effect. We can't 19 keep pushing that out. 20 Secondly, with relation to amendment 1; that 21 is the Clark County requests, staff is supportive of 22 that change. With regard to the addition of the 23 additional metrics to performance framework, staff is 24 not supporting that at this time. In the even the 25 school comes back with an amendment to request to 26 rouvert to a school serving the opportunity youth 2 population we discussed earlier, the students who are 3 more than two years behind, this would water down 3 a countability of every school in the state who wants 3 it. Soi the acktraordinarity dangerous 4 percedent to set because it would essentially negate 9 the whole purpose of the governor requiring us to 10 have the 60 percent graduation rate (mauble) 11 manduible) absolutely unacceptable graduation rate (mauble) 12 of this agency. 13 Again, I will remind you, we are the lowest 14 performing school system in the states with relation 15 to graduation rate, and we are the third lowest 16 performing state in the country. That number is 17 out sche purpus and in the states with relation 18 performing state in the country. That number is 19 to rate, and we are the third lowest 10 the relating the country. That number is 10 the state in the country. That number is 	8		8	· ·
10 board requested. 11 The staff and the staff's attorney are 12 continuing to work with the school's coursel on that. 14 order. 15 I think it's critical that any approval you 16 make be contingent upon the execution of that 17 contract. So these things do not come into effect. 18 until that contract is put into effect. 19 keep pushing that out. 20 Secondly, with relation to amendment 1; that 21 stop pushing that out. 20 Secondly, with regard to the addition of the 23 additional metrics to performance framework, staff is 24 not supporting that at this time. In the even the 25 school serving the opportunity youth 2 population we discussed earlier, the students who are 11 presented both to yourself and to us. 2 Imake show, with these late recommendations 2 having these discussions, and then here we are, y 2 it. So it would be an extraordinarily dangerous 3 precedent to set because it would essentially negate 3 precedent to set because it would essentially negate </th <th>9</th> <th></th> <th>9</th> <th>•</th>	9		9	•
11 The staff and the staff's attorney are 11 JESSICA SANCHEZ: Can I please be here 12 continuing to work with the school's counsel on that. 11 JESSICA SANCHEZ: Can I please be here 13 I am hopeful that that will be taken care of in short 12 Chairman, members of the board. Again, I'm Jess 14 order. 14 Chairman, members of the board. Again, I'm Jess 15 sanchez. The here on behalf of the Beacon Acade 16 make be contingent upon the execution of that 17 17 contract. So these things do not come into the freet 18 18 until that contract is put into effect. 19 19 keep pushing that out. 10 20 Secondly, with relation to amendment 1; that 10 21 is the Clark County requests, staff is supportive of 14 14 21 additional metrics to performance framework, staff is 23 14 14 14 23 additional metrics to performance framework, staff is 23 14 14 14 14 14 24 to supporting that at this time. I mean at this point, I was hoping and I understand that we submitted this on May because of our board meeting, we had a board meeting May 11th, and I haven't been privy to the discussions that Tambre and Patrick have been having because they have been trying to work some of these things out on their own. And it's my understanding that Tambre Tondryk is like, We're looking at these measures because we want to be held accountable. And guess what, if we can't meet these additional measures that we're asking you to consider, then shame on us, right? Shame on us if we can't do it. We're not saying, Hey, we're just going	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	MEMBER WAHL: Didn't we make a policy or something that says we can't approve any amendments unless we get them in the contract? Going from CHAIRMAN JOHNSON: I'm not MEMBER WAHL the contract. CHAIRMAN JOHNSON: I don't know, Member Wahl. I would have to figure out MEMBER WAHL: Aren't we doing aren't we saying, We're not going to give you any amendments unless you give us your contract? MR. GAVIN: Yes. They already have a charter contract in place. The charter contract you approved amendments to the charter contract that the school has executed upon, but hadn't yet without having to sign the contract. JESSICA SANCHEZ: Because we haven't agreed to the contract language. It was very it was very like it was like a contract in SB 509. That was
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the only indicator that you have right now. We're saying, Hey, let's validate this other measures that can determine whether we're being effective or not. Again, we provided very specific contract language as to what it would be. I mean at this point, I was hoping and I understand that we submitted this on May because of our board meeting, we had a board meeting May 11th, and I haven't been privy to the discussions that Tambre and Patrick have been having because they have been trying to work some of these things out on their own. And that original the SE 509 charter contract amendments that we're talking about were originally supposed to be done back in July. In fact, if I recall correctly, July of 2016. So we saw this lax. You know, nothing happened, actually, until we said, Hey, you can't do this high stakes review in February. And they're like, Oh, great. We were supposed to do the charte contract amendments back in July.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	And then with regard to the second thing, I think it's important to note that even though I know the recommendation for staff came out very close to this meeting, in the interest of disclosure, in our discussions regarding the contract, I did relay to Ms. Sanchez last week staff's disappointment with the recommendation number 2, that there was not a I didn't tell her that that would be recommending disapproval, but did relay that disappointment as soon as I knew about it, which was last week. So to the extent that they're claiming that they're surprised that the staff was not embracing this fully, I don't think that that is accurate. MR. GAVIN: And I would note that I've also had multiple conversations with Ms. Tondryk regarding our concerns about the second amendments. Not the Second Amendments of the Constitution, just to be clear. I don't want to put that on the record.	 waiting to enroll. And so they've had their applications in for quite a while now, and I can't process them. I can't deny them. They need to find schools. And so that would be my exception to the delay. JESSICA SANCHEZ: Jessica Sanchez. As to those the other contract language is not time-sensitive like for the reasons that Tambre Tondryk just explained. And that original the SE 509 charter contract amendments that we're talking about were originally supposed to be done back in July. In fact, if I recall correctly, July of 2016. So we saw this lax. You know, nothing happened, actually, until we said, Hey, you can't do this high stakes review in February. And they're like, Oh, great. We were supposed to do the charte contract amendments back in July. So now to say that there's this urgency that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	And then with regard to the second thing, I think it's important to note that even though I know the recommendation for staff came out very close to this meeting, in the interest of disclosure, in our discussions regarding the contract, I did relay to Ms. Sanchez last week staff's disappointment with the recommendation number 2, that there was not a I didn't tell her that that would be recommending disapproval, but did relay that disappointment as soon as I knew about it, which was last week. So to the extent that they're claiming that they're surprised that the staff was not embracing this fully, I don't think that that is accurate. MR. GAVIN: And I would note that I've also had multiple conversations with Ms. Tondryk regarding our concerns about the second amendments. Not the Second Amendments of the Constitution, just to be clear. I don't want to put that on the record. But this proposed amendment number 2, I	 waiting to enroll. And so they've had their applications in for quite a while now, and I can't process them. I can't deny them. They need to find schools. And so that would be my exception to the delay. JESSICA SANCHEZ: Jessica Sanchez. 	negotiations. So it would be a matter of inserting		the parties that are here today could sign that this	
2	negotiations. So it would be a matter of inserting language into the current redline, which the football	2	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language,	
2 3	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that	2 3	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it,	
2 3 4	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send	2 3 4	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it	
2 3 4 5	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the	2 3 4 5	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this	
2 3 4 5 6	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section	2 3 4 5 6	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment	
2 3 4 5 6	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the	2 3 4 5 6 7	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs	
2 3 4 5 6 7	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case.	2 3 4 5 6 7 8	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That	
2 3 4 5 6 7 8 9	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would	2 3 4 5 6 7 8 9	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section.	
2 3 4 5 7 8 9	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we	2 3 6 7 8 9	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make	
2 3 4 5 7 8 9	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making	2 3 4 5 7 8 9 10 11	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The	
2 3 4 5 6 7 8 9 10 11 12	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier	2 3 4 5 6 7 8 9 10 11 12	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and	
2 3 4 5 6 7 8 9 10 11 12 12	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if	2 3 4 5 6 7 8 9 10 11 12 13	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super	
2 3 4 5 7 8 9 10 11 12 13 14	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then	2 3 4 5 6 7 8 9 10 11 12 13 14	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with	
2 3 4 5 7 8 9 10 11 12 13 14	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if	2 3 4 5 6 7 8 9 10 11 12 13 14	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super	
2 3 4 5 6 7 8 9 10 11 12 13 14 15	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then	2 3 4 5 6 7 8 9 10 11 12 13 14 15	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So if the direction to me is, incorporate that into the current draft and send everything back in one package, that's different from, let's process number	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved these amendments, and then negotiations break down in	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So if the direction to me is, incorporate that into the current draft and send everything back in one	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved these amendments, and then negotiations break down in a contract, and the school won't sign it. And then	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So if the direction to me is, incorporate that into the current draft and send everything back in one package, that's different from, let's process number 2 right now because it needs to know, and put	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved these amendments, and then negotiations break down in a contract, and the school won't sign it. And then we're in this weird place where they're fulfilling	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So if the direction to me is, incorporate that into the current draft and send everything back in one package, that's different from, let's process number	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved these amendments, and then negotiations break down in a contract, and the school won't sign it. And then we're in this weird place where they're fulfilling amendments that we've approved, but they don't have a	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So if the direction to me is, incorporate that into the current draft and send everything back in one package, that's different from, let's process number 2 right now because it needs to know, and put everything else on hold so we can get this one in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved these amendments, and then negotiations break down in a contract, and the school won't sign it. And then we're in this weird place where they're fulfilling amendments that we've approved, but they don't have a signed contract.	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So if the direction to me is, incorporate that into the current draft and send everything back in one package, that's different from, let's process number 2 right now because it needs to know, and put everything else on hold so we can get this one in place. MEMBER CONABOY: My question was only about	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved these amendments, and then negotiations break down in a contract, and the school won't sign it. And then we're in this weird place where they're fulfilling amendments that we've approved, but they don't have a signed contract. And so then they're like, you can't hold us	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So if the direction to me is, incorporate that into the current draft and send everything back in one package, that's different from, let's process number 2 right now because it needs to know, and put everything else on hold so we can get this one in place. MEMBER CONABOY: My question was only about amendment 1, the one the blended model	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved these amendments, and then negotiations break down in a contract, and the school won't sign it. And then we're in this weird place where they're fulfilling amendments that we've approved, but they don't have a signed contract. And so then they're like, you can't hold us accountable because the contract hasn't been signed. Is that is that the argument?	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	negotiations. So it would be a matter of inserting language into the current redline, which the football is currently in my court. So I would insert that language back in to the redline that I would send back to Ms. Sanchez. But that section I think the question is whether we're touching that section currently in the redline. I don't believe that's the case. CHAIRMAN JOHNSON: Theoretically there would be no real barrier to move forward with this as we are making MR. OTT: Well, I guess the only barrier would be if we're supposed to do them together, or if we're supposed to do the second one first and then postpone the one that we're currently working on. So if the direction to me is, incorporate that into the current draft and send everything back in one package, that's different from, let's process number 2 right now because it needs to know, and put everything else on hold so we can get this one in place. MEMBER CONABOY: My question was only about	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	the parties that are here today could sign that this is going to be 2.5.1 is going to be the language, and we can have (inaudible) they already voted on it, then he can sign it today. And if the board signs it today, then it will be then it's done, for this 2.5.1 as written in our charter contract amendment request is going to be incorporated, everyone signs it, and that's incorporated into our contract. That would be my proposal as to this section. MS. MACKEDON: Mr. Ott, I just want to make sure I'm understanding both arguments here. The problem is that historically what's happened and correct me if I'm wrong because I could be super confused historically what has happened maybe with this school and/or other schools is, we've approved these amendments, and then negotiations break down in a contract, and the school won't sign it. And then we're in this weird place where they're fulfilling amendments that we've approved, but they don't have a signed contract. And so then they're like, you can't hold us accountable because the contract hasn't been signed. Is that is that the argument?	

	Nevada State Public Charte	r Sc	chool Authority Meeting
	Page 141		Page 143
3 4 5 6 7 8 9 10 11 12 13	JESSICA SANCHEZ: That's not what happened in the case of Beacon, though. That has not been one that's taken place. I think you would agree. MR. GAVIN: Actually, Ms. Sanchez, I would disagree. Let me be 100 percent crystal clear. The mechanism by which we negotiate changes to the contract is through this lengthy process. Your attempt to turn this into a situation where you and your client and others will effectively control what this agency does is seriously problematic. This agency approves a standard contract much like every other state agency, that's with every other vendor. The fact that you want to come back	2 3 4 5 6 7 8 9 10 11 12	Page 143 the Authority. I wish we had power over you guys as Mr. Gavin states, but no, we're here because you have the power over us, right, and at the same time, we're supposed to be negotiating. And we're trying to be make it cleaner so that we can say, Hey, we're not asking we're trying to put precise contract language that would be in effect. So in that sense, I think that would cure your concern, Patrick. If you can tell me how we haven't complied, then, please. CHAIRMAN JOHNSON: Member Wahl. MEMBER WAHL: Okay. So this goes back to exactly what I said. We have an open contract that's
14 15 16 17 18 19 20 21 22 23 24	after the fact and make changes is something we find seriously problematic. We are I am more than willing to work with you on this because I do believe that you and your client are thoughtful people, and you've raised really thoughtful points about some areas of the contract that can be improved. JESSICA SANCHEZ: I'm not quite sure what MR. GAVIN: But my concern is JESSICA SANCHEZ: I'm now quite sure what you're talking about, Patrick, because like I said, again, in July 2015, there was a very general made	14 15 16 17 18 19 20 21 22 23 24	not signed right now, and we're not supposed to approve amendments until we have a signed contract. MS. SANCHEZ: We have a signed contract. MEMBER WAHL: You have an open contract, is what I'm hearing, because you already asked for an amendment that we granted that you haven't agreed on language. MEMBER CONABOY: May I ask a question? I believe that what we agreed after 509 was passed is
2 3 4 5 6 7 8 9 10 11 12 13 14 15	changes to the contract based on SB 509. That was it. There was no specific there was no specific contract language submitted as saying, Hey, we're going to change Section 1.1 or whatever of the contract because SB 509 requires that. That's not what occurred. So that occurred July 2015. We brought up issues regarding a high stakes review. Then we did get a new charter contract redline with proposed changes. There's a lot of things that have been happening in the interim, so I don't know what part you're saying that we have maybe reneged on or that we're not complying with. Because you would be more like, you said you were supposed to be doing X, and now you're doing Y, then that would be okay. But I don't know what you're talking I honestly don't know what you're talking about, that	2 3 4 5 6 7 8 9 10 11 12 13 14 15	performance-based charter and include some of the provisions under 509. Isn't that what we agreed to, Patrick? MR. GAVIN: That is correct, Member Conaboy. MEMBER CONABOY: Okay. So then last July, that was after 509 was passed, you came with amendments. And so that was the time that you heard other issues in your charter with regard to the amendments, and then the broader issues around 509. So when did that process start, Mr. Ott? UNIDENTIFIED SPEAKER: (Inaudible). MR. OTT: That's probably accurate. Probably early 2016, I would say. MEMBER CONABOY: So we had some operational challenges. And it took eight months to get them the contract to look at. So that was February, March,
17 18 19 20 21 22 23 24	we have not participated in good faith, or that we're not holding up to our charter contract agreement or the amendments that were provided for in the past.	17 18 19 20 21 22 23 24	April, May. So we're three months into negotiations. It's not an insurmountable or an outrageous amount of time for something serious like this, is it, Mr. Ott? And we're 90 percent there in three months' time. UNIDENTIFIED SPEAKER: Because there were some issues that needed to take place for the March 25th meeting as well. So I assume we would be able to resolve them within the next month, is my understanding.

	Nevada State Public Charte	er So	chool Authority Meeting
	Page 145		Page 147
1	MR. OTT: I think that's accurate. I don't	1	contract is executed, I think they're compelled to
	think the parties proceeded in bad faith. I think		enroll the students from outside of Clark County.
	our negotiations have largely been cordial. I think		And then and then and they are allowed to stay
	I have already told Africa the things that I'm going		in our schools until they graduate.
	to object to and say no to, and there's probably not	5	UNIDENTIFIED SPEAKER: That's our issue.
	going to be much of a change from our previous	6	TAMBRE TONDRYK: I'm trying to prevent
	conversations. So I think we're moving forward.	7	
8	MEMBER CONABOY: I'll go back to my original	8	MR. GAVIN: So it strikes me that it would
9	question to make everybody happy, to give you what	9	be in the interest of the school to move quickly on
	you need to inform the families that want to enroll	10	
	from outside of Clark County, can we set a	11	special meeting to approve the contract and get it
	deadline and it's an all or nothing either we		done. Because you're going to be in a very tough
	meet the deadline or we don't. Is that an untenable		position until such time it's executed. And that's
14	solution?	14	really unfortunate.
15	MR. OTT: Not from my perspective.	15	MEMBER WAHL: Member Wahl. You're putting
16	CHAIRMAN JOHNSON: Ms. Sanchez?	16	us in a pickle because our director and our DAG said
17	JESSICA SANCHEZ: It's not your Honor,	17	no. Procedurally at some point we're going to
	it's not in regards to number 2. Just in regards to		have to do things procedurally. It's out of
	number 1, I guess. If we do it in July. So then	19	procedure. It's just not I mean, we all agree.
	maybe we just do that, we hold off on enrolling any	20	,
	students until July. Because I know that Miss		you come to terms with the school, that contract
	Tondryk will be unavailable in June. What is the		doesn't have to come back to us, then, to be
23	June meeting date?		approved, does it? It just gets signed by the chair.
24	CHAIRMAN JOHNSON: June 4, I think. June		We don't have there's nothing magic about our June
25	24. June 25.	25	date. The contract is a legal document that reflects
	–		
	Page 146		Page 148
1	Page 146 JESSICA SANCHEZ: I'd say July just to be on	1	Page 148 the decisions of the board. Is that not
2	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out	1	-
2 3	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our	2 3	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the
2 3	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too.	2 3 4	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to
2 3 4 5	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too. CHAIRMAN JOHNSON: So the solution is an	2 3 4 5	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to make the technical changes to put the contract in
2 3 4 5	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too. CHAIRMAN JOHNSON: So the solution is an agreeable one. So we'll have a deadline of	2 3 4 5 6	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to make the technical changes to put the contract in alignment with SB 509, no more. You approved that.
2 3 4 5 6 7	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too. CHAIRMAN JOHNSON: So the solution is an agreeable one. So we'll have a deadline of MR. GAVIN: So let me understand something,	2 3 4 5 6 7	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to make the technical changes to put the contract in alignment with SB 509, no more. You approved that. So unless Mr. Ott disagrees or board's counsel
2 3 4 5 6 7 8	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too. CHAIRMAN JOHNSON: So the solution is an agreeable one. So we'll have a deadline of MR. GAVIN: So let me understand something, Mr. Chairman. So the school would not enroll any	2 3 4 5 6 7 8	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to make the technical changes to put the contract in alignment with SB 509, no more. You approved that. So unless Mr. Ott disagrees or board's counsel disagrees, I believe that delegated authority
2 3 4 5 6 7 8 9	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too. CHAIRMAN JOHNSON: So the solution is an agreeable one. So we'll have a deadline of MR. GAVIN: So let me understand something, Mr. Chairman. So the school would not enroll any students until after the effective date of the	2 3 4 5 6 7 8 9	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to make the technical changes to put the contract in alignment with SB 509, no more. You approved that. So unless Mr. Ott disagrees or board's counsel disagrees, I believe that delegated authority still stands, and then the chair can simply execute.
2 3 4 5 6 7 8 9	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too. CHAIRMAN JOHNSON: So the solution is an agreeable one. So we'll have a deadline of MR. GAVIN: So let me understand something, Mr. Chairman. So the school would not enroll any students until after the effective date of the contract until actually the contract was executed?	2 3 6 7 8 9	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to make the technical changes to put the contract in alignment with SB 509, no more. You approved that. So unless Mr. Ott disagrees or board's counsel disagrees, I believe that delegated authority still stands, and then the chair can simply execute. But I will defer to Mr. Ott or to your counsel.
2 3 4 5 6 7 8 9 10	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too. CHAIRMAN JOHNSON: So the solution is an agreeable one. So we'll have a deadline of MR. GAVIN: So let me understand something, Mr. Chairman. So the school would not enroll any students until after the effective date of the contract until actually the contract was executed? Is that what you're saying? So those kids from	2 3 4 5 7 8 9 10 11	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to make the technical changes to put the contract in alignment with SB 509, no more. You approved that. So unless Mr. Ott disagrees or board's counsel disagrees, I believe that delegated authority still stands, and then the chair can simply execute. But I will defer to Mr. Ott or to your counsel. MR. OTT: I don't disagree.
2 3 4 5 6 7 8 9 10 11 12	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. We'll have to do that, too. CHAIRMAN JOHNSON: So the solution is an agreeable one. So we'll have a deadline of MR. GAVIN: So let me understand something, Mr. Chairman. So the school would not enroll any students until after the effective date of the contract until actually the contract was executed? Is that what you're saying? So those kids from outside Clark County would not be you'd be	2 3 6 7 8 9 10 11	the decisions of the board. Is that not MR. GAVIN: The assumption is the delegated authority that we requested in the original in the original for the original amendments was for us to make the technical changes to put the contract in alignment with SB 509, no more. You approved that. So unless Mr. Ott disagrees or board's counsel disagrees, I believe that delegated authority still stands, and then the chair can simply execute. But I will defer to Mr. Ott or to your counsel. MR. OTT: I don't disagree. JESSICA SANCHEZ: The only issue that I
2 3 4 5 6 7 8 9 10 11 12 12	JESSICA SANCHEZ: I'd say July just to be on the safe side. Stick with July if that works out because that will give us time to present it to our board as well. 2 3	all of Mr. Ott's changes, then it will be signed on June 8th when our board meets. Potentially not (inaudible), then after that if we can't come to which I feel like it will be able to be resolved.	2	aren't any? All right. So we move to the second part of this issue, which might be a little more contentious. It's hard to imagine. MR. GAVIN: Mr. Chairman, the staff	
5 6 7 8 9 10 11 12 13	MR. OTT: I think the other thing the board could do is vote on Amendment 1 to be more incorporated into the current under the current contract revisions and to be effective upon execution, and I will take your direction to make sure that that is prioritized and to get a redline to Africa by Wednesday and work as expediently as possible. So even if we missed that deadline, it wouldn't defeat amendment 1, it would just postpone the enactment of it. UNIDENTIFIED SPEAKER: I'll move. CHAIRMAN JOHNSON: Do I have a second? Oh,	6 7 8 9 10 11 12 13 14 15	recommends that the second amendment not be amendment number 2 not be approved at this time. We request the authority to continue to work with the school to tweak this language, and request resubmission by the school in conjunction with amendments related to certain alternative population. MS. MACKEDON: This is Member Mackedon. I know you're dying to hear my two cents. I agree with Patrick. Everyone's graduation rates would go up if they got to play by these rules. Every single school in the state, if they could keep track of and hopefully they all are doing that internally, right?	
17 18 19 20 21 22 23 24	MR. WHITNEY: Oh, thank you, Miss (inaudible). That makes sense. The only another option you can consider but under the circumstances, it doesn't sound like anybody wants to use that but you can always follow the have a special meeting, but then you'll have to comply with the open meeting law, you know. But it sounds like Mr. Ott's proposal is great.	17 18 19 20 21 22 23	I mean, that's what we do. We look at our kids that we've had from kindergarten, when we get to see our key data, see how did they do compared to other kids. I mean, hopefully everyone is keeping track of this stuff on their own internally to shape their practice. But every school in the State's graduation rates would go up if they were playing by these rules. But what I do really, really the one I	
	Page 154		Page 156	
	CHAIRMAN JOHNSON: We had always wanted an amendment, but it sounds like we might be able to move past the stalemate. So we have a movement. Do I have a second? MEMBER McCORD: Second. CHAIRMAN JOHNSON: So all in favor of (inaudible). So (inaudible), all in favor?	2 3 4 5 6	love in here is the Number 5 about reengaging students. I think that's super cool and leans more towards mission specific than anything. And I do really like that one. And that's just my opinion. MR. GAVIN: I would wholeheartedly concur with Member Mackedon's point regarding that. And I do want to say, she didn't mention that that is that	
	MR. GAVIN: Mr. Chairman, could someone please state the exact motion for approval, what is being approved, and what the action is because I'm scared about what the action would make the school look like.	9 10 11	the school has clearly been very thoughtful about that. CHAIRMAN JOHNSON: Any discussions or questions for Mr. Gavin or the Beacon staff and counsel?	
15	UNIDENTIFIED SPEAKER: When I moved I was quoting Mr. Ott when I made my motion, Mr. Chair. And that motion was that the language relative to amendment number 1 be incorporated into the contract negotiations currently underway and be effective upon execution of that contract. CHAIRMAN JOHNSON: With some expedited. MEMBER CONABOY: And hope that it's	15 16 17 18 19 20	mentioned it again last week at our retreat. And I used to write the contracts when I was a chair, and I thought that they were all pro forma. And I never	
21 22 23 24 25	expedited for everybody involved. CHAIRMAN JOHNSON: All right. Motion was seconded by Member McCord. All in favor? ALL: Aye. CHAIRMAN JOHNSON: Any opposed? There	22 23 24	got the deal from our schools particularly, what they were, what their mission was by reading the contract. So I applaud Beacon for thinking about these things. To me this is as Member Mackedon said, this is almost just a new way to work with the data	

	Nevada State Public Charte	er Scł	hool Authority Meeting
	Page 157		Page 159
	that you already have. So I don't particularly see		to the state to start allowing anything that waters
	this metrics, although I think there was some	2	down those key measures.
	discussion at the last inter-community on education	3	CHAIRMAN JOHNSON: The things I've been
	about new ways to look at things. There was a		thinking about, because I looked at this over and
	national speaker, and also there was some Clark		over, and I keep trying to determine if these aren't
	County school district schools if I remember back, to		just key point indicators of your progress. Because
	the point who said that they could tell a whole		ultimately, at the end of the day, like the
8	different story (inaudible).		graduation rate is what it is. Because even if you
9	So I think there may be policy discussions		knock all these out of the park, and you still
	going forward about the way we look at things, and (inaudible) (inaudible) and access all these data.		graduate 20 percent of students, and no one is saying you're not doing a good job, and you say, well, we're
12	But would you like to take this opportunity,		kind of spinning wheels, we're doing a lot of good
	Mr. Gavin, to talk about what a mission-specific		things, well so the ultimate output is so the
	measurable goal actually looks like, in two minutes		ultimate output, that's why I've been really torn
	or less? To my way of thinking, these are data		because you said more than once that you don't want
	points that somebody, as Member Mackedon said,		to add a single metric to be a determining factor.
	already had that we might want to look at and talk	17	And I would tend to agree with you. I think
	about among ourselves. These aren't really goals.		there's a lot of good things that happen with
19	MR. GAVIN: Certainly. So in terms of		students along the way, right? You're supposed to
20	mission specific goals, it is typically an academic		have these outcomes, but, you know, it sounds like
21	or non-academic measure that is not reflected in the	21	(inaudible). But at the same time, if you had a lot
	rest of the framework. So one example would be a	22	of touchdowns but no points, you're not going to win.
	school that could emphasize the community service and	23	So it's very hard for me to look at
	could say that their goal is that every student		indicators toward an ultimate goal and the way that
25	graduates with an Eagle Scout badge or the equivalent	25	we should be measuring, because feels like it's very
	Page 158		Page 160
1		1	-
	for the Girl Scouts. That could be an option. It		tough to say, if you still aren't hitting that end
2	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and	2	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students,
2 3	for the Girl Scouts. That could be an option. It	2 3	tough to say, if you still aren't hitting that end
2 3 4	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible).	2 3 4 5	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very
2 3 4 5 6	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can	2 3 4 5 6	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms
2 3 4 5 6 7	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or	2 3 4 5 6 7	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall
2 3 4 5 6 7 8	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that	2 3 4 5 6 7 8	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you
2 3 4 5 6 7 8	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind.	2 3 4 5 6 7 8 9	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond?
2 3 4 5 6 7 8 9	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that	2 3 4 5 6 7 8 9 10	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the
2 3 4 5 6 7 8 9 10 11	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics.	2 3 4 5 6 7 8 9 10	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are
2 3 4 5 7 8 9 10 11 12	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam	2 3 4 5 6 7 8 9 10 11 12	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something
2 3 4 5 6 7 8 9 10 11 12 13	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic	2 3 4 5 6 7 8 9 10 11 12 13	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every
2 3 4 5 7 8 9 10 11 12 13 14	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we	2 3 4 5 6 7 8 9 10 11 12 13 14	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might
2 3 4 5 6 7 8 9 10 11 12 13 14 15	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this, thinking about what a mission-specific goal is, but	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to you and say, we are graduating them in their fifth
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this, thinking about what a mission-specific goal is, but it should be something that supplements it, but does	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to you and say, we are graduating them in their fifth year because they came their 11th grade year, and it
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this, thinking about what a mission-specific goal is, but it should be something that supplements it, but does not supplant. But we're attempting another bite at	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to you and say, we are graduating them in their fifth year because they came their 11th grade year, and it took us three years to get them there on time.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this, thinking about what a mission-specific goal is, but it should be something that supplements it, but does	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to you and say, we are graduating them in their fifth year because they came their 11th grade year, and it took us three years to get them there on time. We want recognition for that because our
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this, thinking about what a mission-specific goal is, but it should be something that supplements it, but does not supplant. But we're attempting another bite at the apple with the same data performance we already	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to you and say, we are graduating them in their fifth year because they came their 11th grade year, and it took us three years to get them there on time. We want recognition for that because our goal is to graduate students, okay? And they
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this, thinking about what a mission-specific goal is, but it should be something that supplements it, but does not supplant. But we're attempting another bite at the apple with the same data performance we already looked at.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to you and say, we are graduating them in their fifth year because they came their 11th grade year, and it took us three years to get them there on time. We want recognition for that because our
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this, thinking about what a mission-specific goal is, but it should be something that supplements it, but does not supplant. But we're attempting another bite at the apple with the same data performance we already looked at. This body has the authority to (inaudible)	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to you and say, we are graduating them in their fifth year because they came their 11th grade year, and it took us three years to get them there on time. We want recognition for that because our goal is to graduate students, okay? And they happened to come to us a little late in their career.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	for the Girl Scouts. That could be an option. It could be a school that emphasizes college and career-readiness. It could say, every student will be admitted into a four-year college, and they will graduate within six years, which is a (inaudible). Or a school that is a military school can say that every kid either goes into a college or enlists in the military. Those are some things that come to mind. Other things I've seen in other states that work really well, schools that emphasize civics. They require kids to pass the U.S. citizenship exam as a condition of graduation, which is an academic measure. But it is not reflected in the data that we currently look at. So there are lots of ways of doing this, thinking about what a mission-specific goal is, but it should be something that supplements it, but does not supplant. But we're attempting another bite at the apple with the same data performance we already looked at. This body has the authority to (inaudible) the contract to determine what the metrics and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	tough to say, if you still aren't hitting that end goal of graduating X percentage of your students, that you've done a good job. Because I don't think you would agree that you would otherwise. So that's just the only that's been very difficult for me to kind of comprehend here in terms of how we would measure the school's overall performance if we're not looking at a metric. Do you want to respond? ANDREA DAMORE: Andrea Damore. For the record. You're absolutely right. So there are specific indicators. But the 60 percent is something that will sit there. And we aim to graduate every single one of our students. The problem is, it might not be in their fourth year of high school. So if we measure what we do as a school, and we come back to you and say, we are graduating them in their fifth year because they came their 11th grade year, and it took us three years to get them there on time. We want recognition for that because our goal is to graduate students, okay? And they happened to come to us a little late in their career. And that's you know, last year's cohort,

	Nevada State Public Charte	er Scl	hool Authority Meeting
	Page 161		Page 163
2 3 4 5 6 7	goals to deal with at-risk students, we want to look	3 4 5 6 7	This is all about formative evaluation. It's all about it. It's not about summative evaluation. You already acknowledged the fact that there has to be a summative evaluation, and you're not making it on it. You have to work on it in a formative way. If you can plot those steps in a formative way by creating a (inaudible) in parformance. That's just my visuonint on it. Linet
	at the fifth year graduation rate. That's definitely one of the things. We also want to look at students		performance. That's just my viewpoint on it. I just ran an R&D in a big district, so (inaudible).
	that stay enrolled with us throughout the year.	10	UNIDENTIFIED SPEAKER: If I may. I'm
11	And the reason for that is because students		(inaudible). I know what Beacon was trying to do
	come to us and they may leave at some point. Maybe a week. Maybe a day. You know, students show up and		with this amendment was because there is I know that Mr. Gavin said, you know, there is a performance
	they exit quickly. Night school wasn't for them.		framework, but there really isn't a performance
15	But we want to make sure that our dedication		framework that we're basing it on.
16	to our students is to keep them enrolled, to keep	16	And so here, you know, we're trying to say,
17	J J I		Hey, here's some measures that we can use to
	population and our cohort population, but also to		determine our progress. And, yes, I wish that the
	make sure that we can graduate them as quickly as		board would say the Authority would say, Hey, yes,
20 21	possible. MEMBER McCORD: Mr. Chairman, graduation		let's make up this evaluation form so we can really determine whether the schools are being effective or
	rate as summative evaluations is dichotomous. You		not.
	either get there or you don't. Unfortunately,	23	And Mr. Garza, who had spoken earlier I
	schools do okay with summative evaluations. They	24	don't know if he's still here or not from the
25	move forward based upon a formative evaluation; a	25	department from UNLV Department of Ed, when he
	Page 162		Page 164
2 3 4 5 6 7 8 9 10	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this.	2 3 4 5 6 7 8 9 10 11	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent
2 3 4 5 6 7 8 9 10 11 12	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are	2 3 4 5 6 7 8 9 10 11 12	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that
2 3 4 5 6 7 8 9 10 11 12 13	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have.	2 3 4 5 6 7 8 9 10 11 12 13	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the
2 3 4 5 6 7 8 9 10 11 12 13 14	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have. If you could demonstrate to me, as just one	2 3 4 5 6 7 8 9 10 11 12 13 14	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students. So we're trying to be innovative and trying
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have. If you could demonstrate to me, as just one member here, that you're making statistically	2 3 4 5 6 7 8 9 10 11 12 13 14 15	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have. If you could demonstrate to me, as just one member here, that you're making statistically significant advances of those in a formative way, then I would become a lot more persuaded about your plan and how things work.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students. So we're trying to be innovative and trying to be proactive. With that being said. CHAIRMAN JOHNSON: I think it's difficult because there's an effectiveness with a group of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have. If you could demonstrate to me, as just one member here, that you're making statistically significant advances of those in a formative way, then I would become a lot more persuaded about your plan and how things work. So to the members of the Authority, as you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students. So we're trying to be innovative and trying to be proactive. With that being said. CHAIRMAN JOHNSON: I think it's difficult because there's an effectiveness with a group of students, and then there's some who obviously
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have. If you could demonstrate to me, as just one member here, that you're making statistically significant advances of those in a formative way, then I would become a lot more persuaded about your plan and how things work. So to the members of the Authority, as you start thinking this through, thinking about how you	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students. So we're trying to be innovative and trying to be proactive. With that being said. CHAIRMAN JOHNSON: I think it's difficult because there's an effectiveness with a group of students, and then there's some who obviously there's some that haven't been touched.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have. If you could demonstrate to me, as just one member here, that you're making statistically significant advances of those in a formative way, then I would become a lot more persuaded about your plan and how things work. So to the members of the Authority, as you start thinking this through, thinking about how you look at it, I hope we look at both summative and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students. So we're trying to be innovative and trying to be proactive. With that being said. CHAIRMAN JOHNSON: I think it's difficult because there's an effectiveness with a group of students, and then there's some who obviously there's some that haven't been touched. UNIDENTIFIED SPEAKER: Yeah.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have. If you could demonstrate to me, as just one member here, that you're making statistically significant advances of those in a formative way, then I would become a lot more persuaded about your plan and how things work. So to the members of the Authority, as you start thinking this through, thinking about how you look at it, I hope we look at both summative and formative evaluation design as an assessment of where	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students. So we're trying to be innovative and trying to be proactive. With that being said. CHAIRMAN JOHNSON: I think it's difficult because there's an effectiveness with a group of students, and then there's some who obviously there's some that haven't been touched. UNIDENTIFIED SPEAKER: Yeah. CHAIRMAN JOHNSON: And so results are what
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I think much that you have applied here is formative in its evaluation. We're working on this. These are things that are important. These are reflective of the kind of institution we have. If you could demonstrate to me, as just one member here, that you're making statistically significant advances of those in a formative way, then I would become a lot more persuaded about your plan and how things work. So to the members of the Authority, as you start thinking this through, thinking about how you look at it, I hope we look at both summative and formative evaluation design as an assessment of where the school is and how it's complying with its	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	talked about an equation, making up an equation that determines all these different factors, Beacon would be very, very amenable to maybe form a committee or form, you know, with Mr. Gavin where we come and we tailor this equation. We come up with this equation that's is mathematical, that it's not you know, it's mathematical and it shows whether you are an effective school or not. It may be more beneficial to this body. I know that it would be beneficial to Beacon because even though Beacon may not have that 60 percent graduation rate, I know that they believe that they're being effective and that they're meeting the needs of these particular students. So we're trying to be innovative and trying to be proactive. With that being said. CHAIRMAN JOHNSON: I think it's difficult because there's an effectiveness with a group of students, and then there's some who obviously there's some that haven't been touched. UNIDENTIFIED SPEAKER: Yeah. CHAIRMAN JOHNSON: And so results are what they are. I mean, it's never easy to slice a knife
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	series of formative evaluations. And I would suggest to the Authority that one of the things that we might want to ponder and wander around in our minds is a combination of both formative and summative evaluation. Not walking away from graduation rate because it's a significant issue, but maybe a collection of formative evaluations that create a picture of progress on particular matters. I repeat. 75 percent. In spite of this, we've increased the percentage. We can state with reasonable certainty that our graduation rate for cohort 2016 will be between 50 to 58 percent, which is higher than projected because we do remediate our students and help them. We started out with 48 percent. We've
2 3 4 5 6 7 8 9	wouldn't want to quash that mind-set by denying something rather than just have it withdrawn. Is that possible? MR. GAVIN: Member Conaboy, I just want to emphasize that I that Chairman Johnson's point about the (inaudible) as being the leading indicators, formative indicators that inform the schools in some ways of its progress toward or predictive of its likelihood of achieving BPM summative goal.	2 3 6 7 8 9	enrolled credit-deficient 12th graders from 67 percent to 75 percent. I repeat. 75 percent. In spite of this, we've increased the percentage. We can state with reasonable certainty that our graduation rate for cohort 2016 will be between 50 to 58 percent, which is higher than projected because we do remediate our students and help them. We started out with 48 percent. We've enrolled more. 75 percent of our newly enrolled
2 3 4 5 6 7 8 9 10	wouldn't want to quash that mind-set by denying something rather than just have it withdrawn. Is that possible? MR. GAVIN: Member Conaboy, I just want to emphasize that I that Chairman Johnson's point about the (inaudible) as being the leading indicators, formative indicators that inform the schools in some ways of its progress toward or predictive of its likelihood of achieving BPM summative goal. So I don't think that we should in any	2 3 4 5 7 8 9 10 11	enrolled credit-deficient 12th graders from 67 percent to 75 percent. I repeat. 75 percent. In spite of this, we've increased the percentage. We can state with reasonable certainty that our graduation rate for cohort 2016 will be between 50 to 58 percent, which is higher than projected because we do remediate our students and help them. We started out with 48 percent. We've enrolled more. 75 percent of our newly enrolled students are credit-deficient. We're going to hit a
2 3 4 5 6 7 8 9 10 11	wouldn't want to quash that mind-set by denying something rather than just have it withdrawn. Is that possible? MR. GAVIN: Member Conaboy, I just want to emphasize that I that Chairman Johnson's point about the (inaudible) as being the leading indicators, formative indicators that inform the schools in some ways of its progress toward or predictive of its likelihood of achieving BPM summative goal. So I don't think that we should in any way should the Authority decide not to act on this	2 3 4 5 7 8 9 10 11 12	enrolled credit-deficient 12th graders from 67 percent to 75 percent. I repeat. 75 percent. In spite of this, we've increased the percentage. We can state with reasonable certainty that our graduation rate for cohort 2016 will be between 50 to 58 percent, which is higher than projected because we do remediate our students and help them. We started out with 48 percent. We've enrolled more. 75 percent of our newly enrolled students are credit-deficient. We're going to hit a 50 to 58 percent graduation rate.
2 3 4 5 6 7 8 9 10 11 12 13	wouldn't want to quash that mind-set by denying something rather than just have it withdrawn. Is that possible? MR. GAVIN: Member Conaboy, I just want to emphasize that I that Chairman Johnson's point about the (inaudible) as being the leading indicators, formative indicators that inform the schools in some ways of its progress toward or predictive of its likelihood of achieving BPM summative goal. So I don't think that we should in any way should the Authority decide not to act on this or to deny it, that this is a reflection that these	2 3 4 5 6 7 8 9 10 11 12 13	enrolled credit-deficient 12th graders from 67 percent to 75 percent. I repeat. 75 percent. In spite of this, we've increased the percentage. We can state with reasonable certainty that our graduation rate for cohort 2016 will be between 50 to 58 percent, which is higher than projected because we do remediate our students and help them. We started out with 48 percent. We've enrolled more. 75 percent of our newly enrolled students are credit-deficient. We're going to hit a 50 to 58 percent graduation rate. So what this means this is me speaking
2 3 4 5 6 7 8 9 10 11 12 13 14	wouldn't want to quash that mind-set by denying something rather than just have it withdrawn. Is that possible? MR. GAVIN: Member Conaboy, I just want to emphasize that I that Chairman Johnson's point about the (inaudible) as being the leading indicators, formative indicators that inform the schools in some ways of its progress toward or predictive of its likelihood of achieving BPM summative goal. So I don't think that we should in any way should the Authority decide not to act on this or to deny it, that this is a reflection that these are bad measures. It's just that they are not	2 3 4 5 6 7 8 9 10 11 12 13 14	enrolled credit-deficient 12th graders from 67 percent to 75 percent. I repeat. 75 percent. In spite of this, we've increased the percentage. We can state with reasonable certainty that our graduation rate for cohort 2016 will be between 50 to 58 percent, which is higher than projected because we do remediate our students and help them. We started out with 48 percent. We've enrolled more. 75 percent of our newly enrolled students are credit-deficient. We're going to hit a 50 to 58 percent graduation rate. So what this means this is me speaking now this is my fifth time before the board this
2 3 4 5 6 7 8 9 10 11 12 13 14 15	wouldn't want to quash that mind-set by denying something rather than just have it withdrawn. Is that possible? MR. GAVIN: Member Conaboy, I just want to emphasize that I that Chairman Johnson's point about the (inaudible) as being the leading indicators, formative indicators that inform the schools in some ways of its progress toward or predictive of its likelihood of achieving BPM summative goal. So I don't think that we should in any way should the Authority decide not to act on this or to deny it, that this is a reflection that these are bad measures. It's just that they are not appropriate measures for a contract.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	enrolled credit-deficient 12th graders from 67 percent to 75 percent. I repeat. 75 percent. In spite of this, we've increased the percentage. We can state with reasonable certainty that our graduation rate for cohort 2016 will be between 50 to 58 percent, which is higher than projected because we do remediate our students and help them. We started out with 48 percent. We've enrolled more. 75 percent of our newly enrolled students are credit-deficient. We're going to hit a 50 to 58 percent graduation rate. So what this means this is me speaking now this is my fifth time before the board this year. And as much as I enjoy being here and speaking
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	wouldn't want to quash that mind-set by denying something rather than just have it withdrawn. Is that possible? MR. 22 34 5 6 6 7 8 9 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	hitting that population, that target. The reason we're asking for supplemental measures is because we can't invest this much time every year trying to keep our doors open. And I understand Patrick is saying, Go all in, Go all in, but in the interim, I can't do that magically, and I know that next year I'm going to be below the 60 percent threshold, and I know that that means that I will receive a notice of closure because we're using that SB 509, which actually contains the word "may" be closed. I recognize that. Using this isolated graduation rate is causing schools to play games, and they're not getting caught. They're not the ones sitting here five times, you know? It's me because, you know, we want to support, welcome the students. We would just like the assurance that our doors will remain open. I mean, what more do you want from a school that started out the year with a 48 percent graduation rate than to be above that number? That's all. MEMBER McCORD: And my guess, if the data comes out right, you'll be statistically significant at the .05 level or better, which was my point.	 because I can measure it. I can understand. You ca use all of the measures you need internally to get you to that point. But if we know we have a very ambitious goal, and you said, You know what, I'm going to tether myself to that goal, then I would feel much more comfortable. But as I'm looking at some of these six figures that you said you want to measure, they're all kind of indicating and leaning towards just the graduation goal, but they don't necessarily tie you down to say, here is what we absolutely will do and can accomplish over the course. So it's hard for us to measure how absolutely effective you have been TAMBRE TONDRYK: So just to make sure understand. In creating mission-specific goals, they need to be tied to a specific time frame? Because they go in the charter contract. That's where I'm a little confused. So if he were to say if we validated, let's say, our population October 1st, and then from that we had to our students needed to grow this much, is that what you're looking for? Or does it have you know, is it tied per year? That's the confusing piece. MEMBER WAHL: Member Wahl. (Inaudible) that all of the students in 11th and 12th grade. I don't 	n 1 y r
2.5	tins.	25 an of the students in 11th and 12th grade. 1 don't

So that gives you a little bit of a different near term action item that could possibly take on this board and in collaboration with some of the other charter schools. But I think the idea of looking at things a little bit differently is getting some legs. I think today you've made it very clear to this board that if	2 3 4 5 6 7 8 9 10 11 12 13 14	unpleasant things. MEMBER CONABOY: Patrick, I don't understand what that means. What are you suggesting? MR. GAVIN: We need a plan of improvement. That was the that is the expectation. There needs to be specific goals that shows how this school is going to either achieve the 60 percent graduation rate, or how it is going to move into a different category of school. We need clarity on this. We cannot be sitting here waiting another year. There needs to be a real plan that shows how this is going to happen. Because right now what we're doing, we're
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	children of the state, not just the charter school children. And that's what I would advise as a very near term next step given the fact that the education committee is looking for specific recommendations for consideration at their work session. So that gives you a little bit of a different near term action item that could possibly take on this board and in collaboration with some of the other charter schools. But I think the idea of looking at things a little bit differently is getting some legs. I think today you've made it very clear to this board that if we look at things differently, the picture is different. As your colleagues from Clark County said at	2 3 4 5 6 7 8 9 10 11 12 13 14 15	unpleasant things. MEMBER CONABOY: Patrick, I don't understand what that means. What are you suggesting? MR. GAVIN: We need a plan of improvement. That was the that is the expectation. There needs to be specific goals that shows how this school is going to either achieve the 60 percent graduation rate, or how it is going to move into a different category of school. We need clarity on this. We cannot be sitting here waiting another year. There needs to be a real plan that shows how this is going to happen. Because right now what we're doing, we're dithering. We have an obligation to make sure that our schools meet certain standards, or that there is a real plan in place to make that happen.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	children of the state, not just the charter school children. And that's what I would advise as a very near term next step given the fact that the education committee is looking for specific recommendations for consideration at their work session. So that gives you a little bit of a different near term action item that could possibly take on this board and in collaboration with some of the other charter schools. But I think the idea of looking at things a little bit differently is getting some legs. I think today you've made it very clear to this board that if we look at things differently, the picture is different. As your colleagues from Clark County said at this last meeting, My good news is it's never going	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	unpleasant things. MEMBER CONABOY: Patrick, I don't understand what that means. What are you suggesting? MR. GAVIN: We need a plan of improvement. That was the that is the expectation. I intend to tie you as the	2 3 4 5 6 7 8 9 10 11 12 13 14	it is, and as specific as it is at this point. As you might remember from the last time I spoke with all of you, my professional background is in educational leadership, and continued school improvement, and I know that raising achievement in our schools is always a challenge. And it's not something that's easy, but it's a target that we all want to have. And the term "continuous" is definitely a key part to that, but it does take the same efforts. And hopefully you'll be able to see that that's what you have in front of you. And even though there's no silver bullet, you have a detailed plan with what we plan to do. And in this plan, it does reflect the	
2 3 4 5 6 7 8 9 10 11 12 13 14 15	I don't quite know how to make a plan for 80 percent of unknowns in the next two years. I mean, we know that we are going to educate them. Our goals are to get them at least two credits less deficient each year. That's our goal. And so that they're getting 8, 9 credits every year I think is a reasonable goal. Keeping them longer. Making sure they come back and get their high school diploma. You're wanting to tie credit-deficient students to the same standards as students that are on a higher academic track. MR. GAVIN: Ms. Tondryk, let me be a hundred percent crystal clear. I don't intend to tie our students to anything. I intend to tie you as the adult who is responsible for the outcome of those	2 3 4 5 6 7 8 9 10 11 12 13 14 15	it is, and as specific as it is at this point. She's on our board, one of the more recent ones from 2015, along with Gene Stewart, who joined our board in 2015. He has over three decades of experience on the entrepreneur/civic leader side. He has his MSB in comparative psychology from the University of California. He founded multiple companies in fields as diverse as real estate development to biotechnology. He served on the board for our Center Street mission, helping homeless to regain their foothold in life. He's been with us since 2013, and
2 3 4 5 6 7 8 9 10 11 12 12	our website, and you have it in the document. But just some brief things about our board members. So as I mentioned, my background has been in education, right now in the College of Education for Educational Leadership. So this is part of what I do. You talked about statistical significance. These are things that I do with the researchers regularly, whether it's been an out-of-state (inaudible) grant or whether its school, high school and consulting, and things like that. But we also have Dr. Scott Harrington. He's our vice-president of our board. And he's worked with individuals with disabilities since 1990. So he	2 3 4 5 6 7 8 9 10 11 12 13	Gorman, and she's pursuing her doctorate at North Central University. MEMBER CONABOY: Mr. Chair, I have a question.	

	Nevada State Public Charte	er So	chool Authority Meeting
	Page 193		Page 195
1	MEMBER CONABOY: Is it Dr. Garza?	1	framework again, I don't want to give you numbers
2	You said a couple of times already, and it's		that I don't have in front of me. We can certainly
	a question I asked for cohorts, as well, that these,	3	
	what's called interventions, have been successful	4	MEMBER WAHL: Should we listen to you?
	elsewhere. Can you tell us a little bit about how	5	TIBERIO GARZA: Pardon?
	that success has been measured?	6	MEMBER WAHL: Was the school you were a part
7	TIBERIO GARZA: Absolutely.	7	
8	MEMBER CONABOY: Thank you.	8	TIBERIO GARZA: Yes. It was
9	TIBERIO GARZA: For example, I've had the	-	considered well, again, you can say I'm slightly
	opportunity and I'll share a little bit more about		biased, but I'll tell you that during accreditations,
	my position I'm actually formerly the principal of		it was called the golden standard (inaudible) of
	the Arizona Connections Academy five years ago. So		education in the state of Arizona. And considering
	you heard earlier mention of the Arizona framework.		there's 80 some programs, and I consider Vanstead
	And I was fortunate, and with all respect, I've seen		(phonetic) to be experts in making that decision.
	this before. I saw it five years ago in Arizona	15	And in fact, Arizona Connections Academy was
	where the governing body, that charter board was not		sort of the leader in working through that framework.
	sure obviously in Arizona there are a lot more charter schools than there are in Nevada. And the		And they're currently a state (inaudible). So I think that qualifies. So to get back to the question
	fear was that by having discussions about grad rate,	19	again. It's looking at as much trends as you can year over year. Looking at the same level of states.
	you would perhaps create grad mills where students		
	are suddenly becoming caught up in two weeks, you		And certainly I think, especially in the online
	know?		virtual world, we're often accused of using students
23	So the challenge is to still be able to		as labs, petri dishes, that we throw things against
	create quality educational experiences, that will		the wall and see what sticks. I'd like to believe,
25	still allow students who are behind to get caught up.	25	especially here in Nevada, we're trying to take a

So at my current position as director of schools, I oversee the Connections supported schools in the southwest. And so I've had the opportunity to work, for example, the Freshman Focus program was one that was implemented in Oregon during this school year. And this is already you know, we're at that time of the school year where students are getting	2 3 4 5 7 8 9 10 11	very targeted effort to make sure that we're utilizing programs that have proven to be successful, and not just simply throw them at students as in often cases. This is additional work. This is for teachers as well. So if you utilize programs that have proven successful in other places, so that there's at least a greater possibility that they'll be successful here in Nevada. MS. MACKEDON: Chair Johnson, can I ask a follow-up related to that?
2 3 4 5 6 7 8 9 10 11 12	I think Arizona has ultimately found that balance, and they've created a framework which is fair and not just comparing because it certainly isn't apples-to-apples. So at my current position as director of schools, I oversee the Connections supported schools in the southwest. And so I've had the opportunity to work, for example, the Freshman Focus program was one that was implemented in Oregon during this school year. And this is already you know, we're at that time of the school year where students are getting promoted from 9th grade to 10th grade, and some are	2 3 4 5 7 8 9 10 11 12 13	very targeted effort to make sure that we're utilizing programs that have proven to be successful, and not just simply throw them at students as in often cases. This is additional work. This is for teachers as well. So if you utilize programs that have proven successful in other places, so that there's at least a greater possibility that they'll be successful here in Nevada. MS. MACKEDON: Chair Johnson, can I ask a follow-up related to that? CHAIRMAN JOHNSON: Yes, please.
2 3 4 5 7 8 9 10 11 12 13 14	I think Arizona has ultimately found that balance, and they've created a framework which is fair and not just comparing because it certainly isn't apples-to-apples. So at my current position as director of schools, I oversee the Connections supported schools in the southwest. And so I've had the opportunity to work, for example, the Freshman Focus program was one that was implemented in Oregon during this school year. And this is already you know, we're at that time of the school year where students are getting promoted from 9th grade to 10th grade, and some are being held back.	2 3 4 5 6 7 8 9 10 11 12 13 14	very targeted effort to make sure that we're utilizing programs that have proven to be successful, and not just simply throw them at students as in often cases. Because so much of this stuff right now is still on paper. As you're well aware, we don't have	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	become very popular because it still is a comprehensive grad rate recovery program. It isn't viewed as something that might be used as a credit mill type school. It is based on mastery, which allows students to move through and focus on areas in which they've struggled and to relearn it and have it retaught. I think one of the things I won't say it's unique about the way Nevada Connections Academy is handling this as this whole-world invention, is that it's going a lot of times students are placed into grad point courses, and it's just not (inaudible) by themselves. So the fact that this is also going to be monitored not only by actual teachers in realtime, but Nevada certified teachers along with counselors. That the board has supported committed to and financially supported, I think is important. The other piece that I personally in my experience working with the students, with the grad point, which I think the way that grad point is set

	Page 205	5 Page 207
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	their first attempt, and sometimes their second and third attempt at a particular course. And so it works with them. There's pretests. It learns what they need to master, what they need to relearn, and then allows them to focus on those areas where some credit recovery starts from day one and makes them go through even items that they already know. It can make it for a student that's disengaged boring very quickly. Where this focuses purely on the areas that they've shown in the past that they've struggled, to let them focus on those areas. And then the last piece that I'll share is obviously Nevada Connections Academy has a group of teachers, those who are dedicated to the programs that I mentioned here that are particularly for students who are off cohort. But also, obviously these students are being taught by the entire staff, such as the high school, and the (inaudible) of the school. And that requires a good amount of professional development to make sure that it's a message that's being heard from every teacher in every class for all students. A student that is on	 Connections, and I've been involved in the charter school movement since 1997 when Senator Washington first proposed it, and was an employee and board member for Sierra Nevada Academy, the first charter school, elementary charter school in the state. And I have ten years of working at UNR in the college of education, teaching special education teachers and working at the Nevada Center for Excellence and Disability. And I've been working at the (inaudible) Center for Excellence in Disabilities, and I've been working with persons with disabilities for the last 26 years, with serious maladies. And if you don't mind, I want to make sure
23	Page 206	
2 3 4 5 6 7	cohort today can very easily fall off, and oftentimes they do it at the most inopportune time for anyone. It's not particularly about them. So it's important that teachers, just like the old initiatives of writing across the curriculum, but we wanted students to write in every class. You learn how to write, and we all remember that. It has benefits, but it's also important to constantly remind students of the importance of staying in the	 part of the realty at Nevada Connections Academy. And as educators, we should be seeking a complete picture and all of the data to make an informed decision. I've worked with many non-traditional at-risk students in my educational career, and we need to validate and recognize that nontraditional paths also have value. Education in whatever form is valuable, and we need to recognize that if our school

You've heard from Dr. Sanchez and myself on how competent and involved the school board is in operating this school and holding our employees accountable for the results. And we know you, as the	2 3 4 5 6 7 8	better way of tracking where the students are coming from and going to. Then the last thing we mentioned are the measures of fidelity. So we have in place a way to look at the records to make sure that fidelity is being met. There's one number I wanted to throw out very fast, and Steve didn't mention it, is over the
2 3 4 5 6 7 8 9	strategic plan that will achieve this goal. You've heard from Steve and Brian with the details of specific strategies and supports and interventions to increase the graduation report. You've heard from Dr. Sanchez and myself on how competent and involved the school board is in operating this school and holding our employees accountable for the results. And we know you, as the school's authorizer, will in turn hold the NCA board	2 3 4 5 6 7 8 9	better way of tracking where the students are coming from and going to. Then the last thing we mentioned are the measures of fidelity. So we have in place a way to look at the records to make sure that fidelity is being met. There's one number I wanted to throw out very fast, and Steve didn't mention it, is over the years, over the last six years that I've been on the
2 3 4 5 6 7 8 9	strategic plan that will achieve this goal. You've heard from Steve and Brian with the details of specific strategies and supports and interventions to increase the graduation report. You've heard from Dr. Sanchez and myself on how competent and involved the school board is in operating this school and holding our employees accountable for the results. And we know you, as the school's authorizer, will in turn hold the NCA board accountable for improvement.	2 3 4 5 6 7 8 9	better way of tracking where the students are coming from and going to. Then the last thing we mentioned are the measures of fidelity. So we have in place a way to look at the records to make sure that fidelity is being met. There's one number I wanted to throw out very fast, and Steve didn't mention it, is over the years, over the last six years that I've been on the board, we've looked at summer school as an
2 3 4 5 6 7 8 9 10 11	strategic plan that will achieve this goal. You've heard from Steve and Brian with the details of specific strategies and supports and interventions to increase the graduation report. You've heard from Dr. Sanchez and myself on how competent and involved the school board is in operating this school and holding our employees accountable for the results. And we know you, as the school's authorizer, will in turn hold the NCA board accountable for improvement. We have already seen some indicators of	2 3 6 7 8 9 10	better way of tracking where the students are coming from and going to. Then the last thing we mentioned are the measures of fidelity. So we have in place a way to look at the records to make sure that fidelity is being met. There's one number I wanted to throw out very fast, and Steve didn't mention it, is over the years, over the last six years that I've been on the board, we've looked at summer school as an opportunity for us to get these students caught up.
2 3 4 5 6 7 8 9 10 11 12	strategic plan that will achieve this goal. You've heard from Steve and Brian with the details of specific strategies and supports and interventions to increase the graduation report. You've heard from Dr. Sanchez and myself on how competent and involved the school board is in operating this school and holding our employees accountable for the results. And we know you, as the school's authorizer, will in turn hold the NCA board accountable for improvement. We have already seen some indicators of success which is outlined in appendix C. There are	2 3 4 5 7 8 9 10 11	better way of tracking where the students are coming from and going to. Then the last thing we mentioned are the measures of fidelity. So we have in place a way to look at the records to make sure that fidelity is being met. There's one number I wanted to throw out very fast, and Steve didn't mention it, is over the years, over the last six years that I've been on the board, we've looked at summer school as an opportunity for us to get these students caught up. And the amount of money that we have approved for the
2 3 4 5 6 7 8 9 10 11 12 12	strategic plan that will achieve this goal. You've heard from Steve and Brian with the details of specific strategies and supports and interventions to increase the graduation report. You've heard from Dr. Sanchez and myself on how competent and involved the school board is in operating this school and holding our employees accountable for the results. And we know you, as the school's authorizer, will in turn hold the NCA board accountable for improvement. We have already seen some indicators of success which is outlined in appendix C. There are some successes that we are seeing in the data for the	2 3 4 5 7 8 9 10 11 12 13	better way of tracking where the students are coming from and going to. Then the last thing we mentioned are the measures of fidelity. So we have in place a way to look at the records to make sure that fidelity is being met. There's one number I wanted to throw out very fast, and Steve didn't mention it, is over the years, over the last six years that I've been on the board, we've looked at summer school as an opportunity for us to get these students caught up. And the amount of money that we have approved for the summer school has increased each summer of 268,000
2 3 4 5 6 7 8 9 10 11 12 13 14	strategic plan that will achieve this goal. You've heard from Steve and Brian with the details of specific strategies and supports and interventions to increase the graduation report. You've heard from Dr. Sanchez and myself on how competent and involved the school board is in operating this school and holding our employees accountable for the results. And we know you, as the school's authorizer, will in turn hold the NCA board accountable for improvement. We have already seen some indicators of success which is outlined in appendix C. There are some successes that we are seeing in the data for the 2016 cohort. We anticipate there will be some	2 3 4 5 6 7 8 9 10 11 12 13 14	better way of tracking where the students are coming from and going to. Then the last thing we mentioned are the measures of fidelity. So we have in place a way to look at the records to make sure that fidelity is being met. There's one number I wanted to throw out very fast, and Steve didn't mention it, is over the years, over the last six years that I've been on the board, we've looked at summer school as an opportunity for us to get these students caught up. And the amount of money that we have approved for the summer school has increased each summer of 268,000 this year, just for summer school. So we could pay
2 3 4 5 6 7 8 9 10 11 12 13 14 15	strategic plan that will achieve this goal. You've heard from Steve and Brian with the details of specific strategies and supports and interventions to increase the graduation report. You've heard from Dr. Sanchez and myself on how competent and involved the school board is in operating this school and holding our employees accountable for the results. And we know you, as the school's authorizer, will in turn hold the NCA board accountable for improvement. We have already seen some indicators of success which is outlined in appendix C. There are some successes that we are seeing in the data for the 2016 cohort. We anticipate there will be some improvement in the graduation rate due to efforts	2 3 4 5 6 7 8 9 10 11 12 13 14 15	better way of tracking where the students are coming from and going to. Then the last thing we mentioned are the measures of fidelity. So we have in place a way to look at the records to make sure that fidelity is being met. There's one number I wanted to throw out very fast, and Steve didn't mention it, is over the years, over the last six years that I've been on the board, we've looked at summer school as an opportunity for us to get these students caught up. And the amount of money that we have approved for the summer school has increased each summer of 268,000 this year, just for summer school. So we could pay for the teachers to help remediate students to help
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	strategic plan that will achieve this goal. 2	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about	2	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a
2 3	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the	2 3	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout.
2 3 4	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60	2 3 4	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable.
2 3 4 5	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know	2 3 4 5	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do
2 3 4 5 6	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for	2 3 4 5 6	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the
2 3 4 5 6 7	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I	2 3 4 5 6 7	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how
2 3 4 5 6 7 8	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here	2 3 4 5 6 7 8	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we
2 3 4 5 6 7 8 9	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based	2 3 4 5 6 7 8 9	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible.
2 3 4 5 6 7 8 9	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in	2 3 4 5 6 7 8 9	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl?
2 3 4 5 6 7 8 9 10	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having	2 3 4 5 7 8 9 10 11	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe
2 3 4 5 6 7 8 9 10 11 12	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school	2 3 4 5 7 8 9 10 11 12	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody?
2 3 4 5 6 7 8 9 10 11 12 13	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency.	2 3 4 5 6 7 8 9 10 11 12 13	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question.
2 3 4 5 6 7 8 9 10 11 12 13 14	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see	2 3 4 5 6 7 8 9 10 11 12 13 14	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking	2 3 4 5 6 7 8 9 10 11 12 13 14 15	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's always the expectation that at least for three years	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and the best stuff and training us. How are schools
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's always the expectation that at least for three years when something happens, you're able to then	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and the best stuff and training us. How are schools going to do in (inaudible) of the first few years of
2 3 4 5 6 7 7 8 9 10 11 12 13 14 15 16 17 18 19 20	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's always the expectation that at least for three years when something happens, you're able to then reestablish a benchmark that has some of that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and the best stuff and training us. How are schools going to do in (inaudible) of the first few years of existence? You guys have been in existence for so
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's always the expectation that at least for three years when something happens, you're able to then reestablish a benchmark that has some of that baseline data.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and the best stuff and training us. How are schools going to do in (inaudible) of the first few years of existence? You guys have been in existence for so long. And so you're putting us in a bad position
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's always the expectation that at least for three years when something happens, you're able to then reestablish a benchmark that has some of that baseline data. So from my personal perspective as board	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and the best stuff and training us. How are schools going to do in (inaudible) of the first few years of existence? You guys have been in existence for so long. And so you're putting us in a bad position because you've already known this for how many years.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's always the expectation that at least for three years when something happens, you're able to then reestablish a benchmark that has some of that baseline data. So from my personal perspective as board president, I know that this is constantly a piece	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and the best stuff and training us. How are schools going to do in (inaudible) of the first few years of existence? You guys have been in existence for so long. And so you're putting us in a bad position because you've already known this for how many years. JESSICA SANCHEZ: That's the same case as a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's always the expectation that at least for three years when something happens, you're able to then reestablish a benchmark that has some of that baseline data. So from my personal perspective as board president, I know that this is constantly a piece that I'm going to see for graduation rate. And	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and the best stuff and training us. How are schools going to do in (inaudible) of the first few years of existence? You guys have been in existence for so long. And so you're putting us in a bad position because you've already known this for how many years. JESSICA SANCHEZ: That's the same case as a brick and mortar school. Is that a (inaudible)
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	see that there's going to be approximately 14 percent growth over the prior year. And when you asked about this two year thing, I don't even know that at the whole state level there is this threshold of 60 percent right now because of SB 509 I don't know that we're going to see that as the whole state for increases that any higher level person can say, I want to see a 10 percent increase from private here when we have a framework that's being developed based on the new ESA regulations for potential changes in how to calculate the growth based on having end-of-course exams and doing away with high school proficiency. So in any statistical research that you see where something new is implemented; one, we're asking if you would compare prior years to that year because of those different measurements, but two; there's always the expectation that at least for three years when something happens, you're able to then reestablish a benchmark that has some of that baseline data. So from my personal perspective as board president, I know that this is constantly a piece	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	charter school, traditional brick and mortar school, can do that, either. We have trend lines in a traditional somewhat layout. I'm going to hold our principal accountable. I'm going to ask every time, where are we, what do you foresee, what can we do, and are you meeting the rigorous expectations that we want to have, and how is your school leadership in general, and how are we as a board doing this in the best way possible. CHAIRMAN JOHNSON: Member Wahl? JESSICA SANCHEZ: I heard there was maybe going to be a question from somebody? MEMBER WAHL: Yeah. Not a question. Sometimes you guys are placing us in a bad place. We've got five-star schools, and we know from the charter schools, from NACSA and from people who have been doing this nationwide and know all the best and the best stuff and training us. How are schools going to do in (inaudible) of the first few years of existence? You guys have been in existence for so long. And so you're putting us in a bad position because you've already known this for how many years. JESSICA SANCHEZ: That's the same case as a

	Nevada State Public Charte	er So	chool Authority Meeting
	Page 221		Page 223
1	MEMBER WAHL: We're not over them. We can't	1	can't ask us to have a lesser expectation of you
	do anything with them. We want		because you're a distance ed. That's not going to
3	JESSICA SANCHEZ: Right.		happen.
4	MEMBER WAHL: in the schools. And we	4	JESSICA SANCHEZ I'm not
	have them.	5	MEMBER WAHL: It's not reality.
6	JESSICA SANCHEZ: Right.	6	JESSICA SANCHEZ: I'm not asking for lesser
7	MEMBER WAHL: They've got the same baseline,	7	
	they've got the same problems, and yet they're doing	8	MEMBER WAHL: It's not reality, and I'm not
	it. And so	-	authorized to meet and respond to parents sometimes
10	CHAIRMAN JOHNSON: (Inaudible)?	10	
11	UNIDENTIFIED SPEAKER: Thank you, Mr. Chair.	11	JESSICA SANCHEZ: I take offense to the
12	JESSICA SANCHEZ: I would love to be able to		comment that I'm asking for a lesser expectation.
	replicate any of that. But that's the whole beauty		I'm not in any way asking for a lesser expectation.
	of our education system, that there is no silver		I'm sitting here saying that we've collaborated and
	bullet. And we value our students at heart, and we		the charter has collaborated with Patrick Gavin and
	do everything that we possibly can, and we take in		Chairman Johnson to be able to meet those goals that
	those other students that many other traditional		are the expectation, but I'm asking for the
	brick and mortar settings haven't been able to take		understanding that there are distinctions.
	or maybe have under the radar, been able to push out		Differentiated instruction is everything we say.
	and things to that regard.		It's a cliche, but it's exactly what we are doing as
21	I'm not in any way disagreeing with you. I		a school.
22	absolutely see that there are models out there, and	22	CHAIRMAN JOHNSON: Miss (inaudible)?
23	we want to be able to serve that model.	23	UNIDENTIFIED SPEAKER: Thank you,
24	And our conversations with Director Patrick,	24	Mr. Chairman, members of the board. I'd like to pick

And we want to talk to you about what those measures should be and what those benchmarks should be. For example, when the school gets you know, the cohort percentage rate does not mean that hundreds of kids came to Connections in 9th grade and stayed in Connections for four years and didn't graduate. That is false, and it is improper to judge the performance of this school based on how those students were served for 12 plus years before they
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	would love to see NCA be that model, and as board president, I would absolutely want to be able to do that as well. So we do see eye-to-eye, and I find it interesting that you say that we're placing you in a I don't want to quote you in an awkward situation. But from my perspective, as somebody that, I see you as my authority for this particular role. I see that as being your role. From my understanding, the Charter School Authority was made to be able to have these conversations so that there is support and understanding that there's a distinction in the brick and mortar layout to the online setting, and that we have that understanding of support for MEMBER WAHL: I have to interrupt you. Sorry. There is no difference in my mind at all between an online school and a brick and mortar school. They are charter schools. I see no difference at all except we know there is how that delivery is taken by the student. JESSICA SANCHEZ: Well, that's the difference. We already have	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	going. We understand you need accountability. And the school wants to be held accountable. The school has been completely transparent. As to the the school went to work focusing on the same objectives you all have, improving the outcomes immediately and putting together a plan that is, I think incredible, and that the school team is very proud of that is substantive and tells you, as Member McCord noted, exactly how the outcomes are going to be improved. What the school didn't do is try to assign some arbitrary, uninformed benchmark. What we wanted to do was start this dialogue with you, and we understand that there has to be a measure of student growth. And we want to talk to you about what those measures should be and what those benchmarks should be. For example, when the school gets you know, the cohort percentage rate does not mean that hundreds of kids came to Connections in 9th grade and stayed in Connections for four years and didn't graduate. That is false, and it is improper to judge the performance of this school based on how those

And the testimony at the legislature was that there would be compelling evidence considered behind that number. And we appreciate what you're doing here today, and we appreciate that you are considering our plan and the data because that's the compelling evidence that the legislation was promised, for you to exercise your discretion to decide whether to close a school based on that single data point. It also goes to Dr. Camiverido (phonetic) having said that there could be a flexible graduation rate to deal with these kinds of situations relative to the SB 509. So that's the dialogue that we want to have with you so that we can talk about this in a meaningful way, we can talk about student growth and 	 1 from researcher from UNLV about developing a 2 mathematical model that will capture just that. So 3 when them come in, we'll find out how deficient they 4 are, and then what direction we should be going in to 5 support them. That would be a very valuable tool for 6 any of the virtual schools. 7 So the other thing I was thinking about is 8 having a summit. This issue is a big one. And if 9 there could be a two-day summit, or even a one-day 10 summit, to address this issue specifically about the 11 challenges with mobility, how to get our finger on 12 it, because it's a tough one. 13 The other thing that I was thinking, I heard 14 a lot about Ms. Wahl, you mentioned understanding 15 where the students ended up, like working and things. 16 Is there a way you can determine why they leave and 17 track that data yet? 18 SCOTT HARRINGTON: Yes, there is. 19 Unfortunately, the means right now are very much 20 dependent upon the family providing the information 21 and for a traditional student who will in ninth grade 22 transfers back to their zoned school, when they leave 23 the school, we ask very specific questions; was it
	 numbers nobody wants a numbers game. Nobody wants a school to say they're going to hit 60 percent, and then they play whatever games they need to hit that 60 percent. We all want it to be meaningful. We want these kids to be successful. And so, you know, I think the question and it takes us back to the May the May SB 509. And the testimony at the legislature was that there would be compelling evidence considered behind that number. And we appreciate what you're doing here today, and we appreciate that you are considering our plan and the data because that's the compelling evidence that the legislation was promised, for you to exercise your discretion to decide whether to close a school based on that single data point. It also goes to Dr. Camiverido (phonetic) having said that there could be a flexible graduation rate to deal with these kinds of situations relative to the SB 509. So that's the dialogue that we want to have with you so that we can talk about this in a meaningful way, we can talk about student growth and hit benchmarks based on accumulation of credits, for 	 1 from researcher from UNLV about developing a 2 mathematical model that will capture just that. So 3 when them come in, we'll find out how deficient they 4 are, and then what direction we should be going in to 5 support them. That would be a very valuable tool for 6 any of the virtual schools. 7 So the other thing I was thinking about is 8 having a summit. This issue is a big one. There is also, of course, the advent of course exams, which right now we're seeing it move upwards in grad ratings. And as we move from no HSP to the gradual (inaudible). So your organization's (inaudible). But I think one way of framing of how the improvement could be looked at, instead of saying a hard and fast 60	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	UNIDENTIFIED SPEAKER: Mr. Chairman, to your question regarding potential measurements. Obviously there are a lot of initiatives in this improvement plan, and how do you benchmark that not knowing the students that are coming in? When a student comes in and is working through the program at Nevada Connections Academy, they're assigned a tier, basically, how far are they behind. And so at that point, if there's a measurement based on credit approval, it doesn't matter who walks in your door, you have a system if you have an appropriate system in place, of how quickly you're going to be able to move that student along, provide them with a customized education, then to me no matter what school you're dealing with, I would assume that's what you folks are looking for. These kids aren't going away. So you need to come up with the most successful way to get them everything they need and make sure that the schools are doing everything they can teaching to get them caught up. So rather you know, again, to Mr. Gavin's point, rather than just sort of saying,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	So without the mathematical model, we have those interventions that we want to specifically target to increase our graduation rate. MR. GAVIN: Mr. Chairman, I just want to provide a little bit of contextual data. This school has (inaudible) ranking statewide. It has its highest intervention in the 11th percentile. The lowest is per one year, usually it's been around the 7th or 8th percentile. Recognizing that the calculation could change. It would be because of lots of reasons. Number one, there is the possibility that the legislature or the state department will change the graduation rate calculation (inaudible), or they may choose not to regardless of what consequences that would have for the state. There is also, of course, the advent of course exams, which right now we're seeing it move upwards in grad ratings. And as we move from no HSP to the gradual (inaudible). So your organization's (inaudible). But I think one way of framing of how the improvement could be looked at, instead of saying a hard and fast 60 percent by X date, we could instead talk about moving	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	UNIDENTIFIED SPEAKER: Mr. Chairman, to your question regarding potential measurements. JESSICA SANCHEZ: Thank you for that, Patrick. This is Jessica Sanchez. CHAIRMAN JOHNSON: Member Mackedon. MS. MACKEDON: I would just say, I think, you know, we said that we wanted like an update and a plan, and they have provided that. And I think now I mean maybe that wasn't wise on our part when we said it. Maybe we wouldn't do that again if we had it to do over again. But that's what we did. They provided the plan. It's foolish for us, in my opinion, to sit and argue about all of this the little nuances and the numbers and the timelines. The law is the law. The rules are the rules. It's their responsibility to put forth the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	work with the school to come up with proposed bench marks that show student growth. We'll have third party validation of the data. We would want your input about what they would like to see validated. We want to help give you the information to show you that the plan is working, and work with you to change it if it needs to be changed. But we want to continue the dialogue. We don't want a long period of time and then (inaudible). That's simply not what the law provides. I also just want for the record to make two quick points. One is, our middle school is a four-star middle school. So we appreciate Director Gavin saying on the record that the school is in good standing. It received the unanimous vote for renewal in 2013, and that was with the recognition of the population that the school serves. As then as a housekeeping matter, I wanted to ask Mr. Chair just for the record; given the March meeting and the item was removed from the agenda, I think we're in this kind of legally uncertain area.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	currently was in good standing as of the most recent full framework. So I did want to put that on the record. It is worth knowing. I think this is I would ask this question before the board has this discussion, I think it would be helpful for staff and for the school to get some guidance on what this board wants to see next. JESSICA SANCHEZ: Thank you for that, Patrick. This is Jessica Sanchez. CHAIRMAN JOHNSON: Member Mackedon. MS. MACKEDON: I would just say, I think, you know, we said that we wanted like an update and a plan, and they have provided that. And I think now I mean maybe that wasn't wise on our part when we said it. Maybe we wouldn't do that again if we had it to do over again. But that's what we did. They provided the plan. It's foolish for us, in my opinion, to sit and argue about all of this the little nuances and the numbers and the timelines. The law is the law. The rules are the rules. It's their responsibility to put forth the plan, which they did, and to get results on it. And	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	work with the school to come up with proposed bench marks that show student growth. We'll have third party validation of the data. We would want your input about what they would like to see validated. We're not sure that there's any past record. And I ask respectfully request that, for purposes of today,

	Nevada State Public Charter School Authority Meeting		
	Page 237		Page 239
1	that we can, for housekeeping purposes, maintain a	1	month to say, by this date this will happen, and by
	separate (inaudible) on site.		this date this will happen and have those be outputs
3	CHAIRMAN JOHNSON: I'm not sure how to		versus inputs, and that was the recent conversation
	respond to that. Our two attorneys are looking like		we had with Beacon about, there really needs to be
5	they want to respond, so I'll let them go at it.		some metrics that are tied to this. Much like we did
6	MR. OTT: I don't understand the need to		with Silver State, as well. They don't necessarily
7			have to be the same. These are different contexts,
	into the record today. This isn't agenda for action,		different needs. And frankly, lots of different
	so there can't be action taken today. So I'm not		system performance issues with different places and
	certain the reason behind the request. Maybe Robert		(inaudible) with what's going on.
	understands. Maybe he can clarify.	11	
12	MR. WHITNEY: Honestly, I was thinking along		think it will also be helpful for staff to understand
	the same lines. It's not actually an action item set		if there is at some point essentially a drop-dead
	for today. It was just to really provide information		date by which the board wants to see a certain level
	about where this school is headed. I don't think		of improvements. And recognizing if that cannot be
	there's as far as anything in March, I don't think		acted on, it would be helpful to get a sense of what
	it's really (inaudible).		the spirit a sense of the board's thinking on that
			· · ·
18	JESSICA SANCHEZ: And thank you. And I want it to be clear for the record, it's really just a	18	during this discussion, because I believe it will inform the conversations with each of these, and
	•••		
	housekeeping request not knowing where things are headed. So to kind of be sure that we know what		that's when we prefer (inaudible) discuss as part of the final item with the final school that is talking
			about that rate issue.
	record exists on this issue that started in February		
	and then March, and it was removed from the agenda.	23	There were actually no other issues today,
	And I'm happy to work with you guys off-line to		so I guess we can (inaudible). Nevada Virtual does
25	figure this out, so that we don't take up everyone's	25	not have the same graduating challenge.

2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	time. I just wanted to make a request. MEMBER WAHL: Wouldn't it just be fair to say work on your graduation rates? JESSICA SANCHEZ: We respectfully ask for more guidance than that. Again, we want to work with you. We want to set benchmarks. I don't think anyone expects that those benchmarks can be decided today. It's not actually on the agenda. That's not what we're asking. We are simply asking that with your input, that staff work with us to come up with proposed benchmarks to satisfy you and provide you compelling evidence that the gradation improvement plan is working and student outcomes are improving, and there is student growth. That's what we're seeking. MEMBER WAHL: Do you agree that's part of the law, that we collaborate with them what their goals should be?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	I think it would be useful just to have a sense of what we should be doing. You guys help me with this, and I'll just try to make this possible as an option. MEMBER WAHL: Another question. Member Wahl. So they're under a notice for closure. MR. GAVIN: Member Wahl, just to be clear, no notice was issued, no notice or attempt to revoke or reconstitute was ever issued by this body. I want to be very clear of that. There was a discussion of such an item. The board took no action. MEMBER WAHL: Okay. So where do we stand today is they fall under the 60 percent graduation rate, and we need to do something. Would you like us to do something? Because I'm asking. MR. GAVIN: It would be helpful for staff to have a sense of what the board would like to see next. (Inaudible) having some kind of a target, at
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	time. I just wanted to make a request. MEMBER WAHL: Wouldn't it just be fair to say work on your graduation rates? JESSICA SANCHEZ: We respectfully ask for more guidance than that. Again, we want to work with you. We want to set benchmarks. I don't think anyone expects that those benchmarks can be decided today. It's not actually on the agenda. That's not what we're asking. We are simply asking that with your input, that staff work with us to come up with proposed benchmarks to satisfy you and provide you compelling evidence that the gradation improvement plan is working and student outcomes are improving, and there is student growth. That's what we're seeking. MEMBER WAHL: Do you agree that's part of the law, that we collaborate with them what their goals should be? MR. GAVIN: Member Wahl. I don't know that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	I think it would be useful just to have a sense of what we should be doing. You guys help me with this, and I'll just try to make this possible as an option. MEMBER WAHL: Another question. Member Wahl. So they're under a notice for closure. MR. GAVIN: Member Wahl, just to be clear, no notice was issued, no notice or attempt to revoke or reconstitute was ever issued by this body. I want to be very clear of that. 	Nevada State Public Charter School Authority Meeting		
	Page 241		Page 243
1	MEMBER WAHL: (Inaudible).	1	(inaudible) in writing so everybody can agree.
2	MR. GAVIN: (Inaudible).	2	MEMBER WAHL: I kind of think that we
3	MEMBER WAHL: (Inaudible) Go ahead and	_	already have metrics, and that we all agreed to them
4	finish what you're saying. I just thought		from the beginning. The school is supposed to and
5	(inaudible).		really, when you start a school, you're supposed to
6	CHAIRMAN JOHNSON: I wanted to I would		do that. I would think 60 is I don't think they
_	like to we understand the path towards 60 and as		started the school saying, let's just graduate 60
	quickly as it can be again, I think we've all been		percent of the people. Their goal probably was
	a bit disheartened that 60 is the kind of target.		higher than the floor. I hope it was higher than the
	But if that is the target, we have to we're		floor. And they haven't made it. And then, so now
	saying, this is the plan that we've asked to see.		we're putting it out to 18 more months, and then
12	MR. GAVIN: It's not a target. It's the		we're going to have the same conversation in 18
	floor. We're trying to get people to the floor.		months. (Inaudible). I'm sorry
14	CHAIRMAN JOHNSON: But it's the target,	14	MR. GAVIN: So Member Wahl, I would note,
	right, for all intents and purposes, right. It's not		the board since this is not and agenda for action,
	our target, but it is the target, it is a target. So		there is no action that the board is taking. So we
	I will feel comfortable in understanding over what		will have to come back and have a conversation about
	point in time do we know that, you if at the next		what you actually want me to do and what you want
	point in time you're so far from the target, we need		them to do. And that could just mean, we're going to
	to take another type of action. So creating some		think we're going to wait and see, and we'll make
	sort of model that you would want to put together to		a decision based on our hearing (inaudible). That
	try to figure out what are the benchmarks to show us		could be what you decide to do.
	that there will be a clear path to our floor/target.	23	I don't think that's what the school is
24	MEMBER CONABOY: Mr. Chair, realistically	_	asking for. But you certainly can there are lots
	we're talking about graduation rates. We're a year		of things you can make lots of decision at
	Page 242		Page 244
	Page 242		Page 244
	away from a new graduation; is that correct? Is that		whatever time that is. Certainly I do think it would
2	away from a new graduation; is that correct? Is that a fair way to frame this?	2	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and
2 3	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically,	2 3	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those
2 3 4	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation	2 3 4	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur
2 3 4 5	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to	2 3 4 5	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if
2 3 4 5 6	 away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another 	2 3 4 5 6	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public
2 3 4 5 6 7	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible).	2 3 4 5 6 7	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it
2 3 4 5 6 7 8	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics	2 3 4 5 6 7 8	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it isn't even always fun for any of us. I think
2 3 4 5 6 7 8 9	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics relative to the '16-'17 graduation cohort, whenever	2 3 4 5 6 7 8 9	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it isn't even always fun for any of us. I think (inaudible).
2 3 4 5 6 7 8 9	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics relative to the '16-'17 graduation cohort, whenever they're available to us, are the statistics that	2 3 5 6 7 8 9	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it isn't even always fun for any of us. I think (inaudible). CHAIRMAN JOHNSON: So it sounds like we have
2 3 4 5 6 7 8 9 10	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics relative to the '16-'17 graduation cohort, whenever they're available to us, are the statistics that we're looking to impact from the discussions we're	2 3 4 5 6 7 8 9 10 11	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it isn't even always fun for any of us. I think (inaudible). CHAIRMAN JOHNSON: So it sounds like we have an actionable next step, which is to see staff and
2 3 4 5 6 7 8 9 10 11 12	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics relative to the '16-'17 graduation cohort, whenever they're available to us, are the statistics that we're looking to impact from the discussions we're having today; is that correct? So if we all agree to	2 3 4 5 7 8 9 10 11	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it isn't even always fun for any of us. I think (inaudible). CHAIRMAN JOHNSON: So it sounds like we have an actionable next step, which is to see staff and the school be working together to try to determine
2 3 4 5 6 7 8 9 10 11 12 12	 away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics relative to the '16-'17 graduation cohort, whenever they're available to us, are the statistics that we're looking to impact from the discussions we're having today; is that correct? So if we all agree to that, that's the target. Why don't we ask the 	2 3 4 5 7 8 9 10 11 12 13	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it isn't even always fun for any of us. I think (inaudible). CHAIRMAN JOHNSON: So it sounds like we have an actionable next step, which is to see staff and the school be working together to try to determine some benchmarks so that when you come back to us,
2 3 4 5 6 7 8 9 10 11 12 13 14	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics relative to the '16-'17 graduation cohort, whenever they're available to us, are the statistics that we're looking to impact from the discussions we're having today; is that correct? So if we all agree to that, that's the target. Why don't we ask the schools, both Beacon, because there were some	2 3 4 5 6 7 8 9 10 11 12 13 14	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it isn't even always fun for any of us. I think (inaudible). CHAIRMAN JOHNSON: So it sounds like we have an actionable next step, which is to see staff and the school be working together to try to determine some benchmarks so that when you come back to us, you'll have something in writing we can be able to
2 3 4 5 6 7 8 9 10 11 12 13 13 14	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics relative to the '16-'17 graduation cohort, whenever they're available to us, are the statistics that we're looking to impact from the discussions we're having today; is that correct? So if we all agree to that, that's the target. Why don't we ask the schools, both Beacon, because there were some unresolved issues when they stepped away from the	2 3 4 5 6 7 8 9 10 11 12 13 14 15	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. I do think that the public process of the conversation is useful, even if it isn't even always fun for any of us. I think (inaudible). CHAIRMAN JOHNSON: So it sounds like we have an actionable next step, which is to see staff and the school be working together to try to determine some benchmarks so that when you come back to us, you'll have something in writing we can be able to measure its progress. You asked for an action step.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	away from a new graduation; is that correct? Is that a fair way to frame this? MR. GAVIN: I would say it's realistically, it's actually closer to 18 months. The graduation rate they have got right now will probably go up to (inaudible) December. So it will be another (inaudible). MEMBER CONABOY: Okay. So the statistics relative to the '16-'17 graduation cohort, whenever they're available to us, are the statistics that we're looking to impact from the discussions we're having today; is that correct? So if we all agree to that, that's the target. Why don't we ask the schools, both Beacon, because there were some unresolved issues when they stepped away from the table, and Connections, to work with Patrick. I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	whatever time that is. Certainly I do think it would be valuable for the school to propose timelines and benchmarks for us and then come back and share those with you. Because otherwise, I do tend to concur with Member Wahl. We don't know what will happen if it just sits in a drawer. 	Nevada State Public Charter School Authority Meeting		
	Page 257		Page 259
1	DON CURRY: Actually, I just got word	1	to that. I think we're at 2,200 on that.
	yesterday that a new local marketing person is being	2	
	vetted. And so, you know, I can't speak to marketing	3	record. 2,150, I believe.
	itself, necessarily. I know that we were under some	4	
	restrictions for certain types of marketing, I	5	enrollment was?
	believe suggested by Mr. McCord, I believe, at one	6	UNIDENTIFIED SPEAKER: I don't have that
	point. And so we do have a new person taking that	7	number off the top of my head. But in excess of
	position.		4,000.
9	MEMBER WAHL: I have a different variation	9	
10	of that question. Is that new vetted person going to	10	wrong? Three years ago.
	understand our Nevada laws and accurately represent	11	UNIDENTIFIED SPEAKER: Three years ago it
	them to the public?	12	probably was, yeah.
13	DON CURRY: I'll tell you, that person is a	13	
14	Nevada native, lives here, has grown up here, and is	14	question out there, where do those kids go? That's a
15	familiar with Nevada law.	15	rather dramatic policy decision you folks made during
16	DON GORDAN: Ms Wahl, I could just add as		this time of transition. Is there any additional
17	well, any person that we retain in that capacity,		(inaudible) on that, any sense of that? Because I
18	that we'll make sure they are well vetted, not simply		had looked at the data of transfers, and I don't see
	by the fact of their birth from here, you know, that	19	a tracking of where those kids went.
20	they do have familiarity and knowledge of the	20	UNIDENTIFIED SPEAKER: I'm under the
	governing law here. I try to make that a point in	21	impression from discussions just in the last few days
22	most every decision that's being made because I	22	with administration that the board formally requested
23	know I'm aware by trade.		information. And I know that that came from
24	MEMBER WAHL: Were you both on the board		somebody. Perhaps Ms. Conaboy today asking about
25	last year?	25	asking another school, do we have information about
	5		
	Page 258		Page 260
1	Page 258 MR. GORDAN: Yes.	1	-
1	-		Page 260 where people go when they leave and where people come from when they come to us, regardless of who they are
	MR. GORDAN: Yes.	2	where people go when they leave and where people come
2	MR. GORDAN: Yes. MR. CURRY: Yes.	2 3	where people go when they leave and where people come from when they come to us, regardless of who they are
2 3	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what	2 3 4	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go
2 3 4	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about?	2 3 4 5	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I
2 3 4 5 6	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again?	2 3 4 5 6	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the
2 3 4 5 6	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm	2 3 4 5 6 7 8	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of
2 3 4 5 6 7 8 9	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know,	2 3 4 5 6 7 8 9	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of graduation rate, as you know, factors in the
2 3 4 5 6 7 8 9	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know, we can any questions you have, obviously, you	2 3 4 5 6 7 8 9	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of graduation rate, as you know, factors in the whereabouts of student who leave you, and our
2 3 4 5 6 7 8 9 10 11	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know, we can any questions you have, obviously, you know, we can get answers to. I'm not necessarily	2 4 5 6 7 8 9 10	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of graduation rate, as you know, factors in the whereabouts of student who leave you, and our graduation has grown every for four consecutive
2 3 4 5 6 7 8 9 10 11 12	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know, we can any questions you have, obviously, you know, we can get answers to. I'm not necessarily MEMBER WAHL: I just want to make sure that	2 3 4 5 7 8 9 10 11	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of graduation rate, as you know, factors in the whereabouts of student who leave you, and our graduation has grown every for four consecutive years. So those students, if you're ask me where
2 3 4 5 6 7 8 9 10 11 12 13	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know, we can any questions you have, obviously, you know, we can get answers to. I'm not necessarily MEMBER WAHL: I just want to make sure that marketing this year is appropriate and legal and	2 3 4 5 6 7 8 9 10 11 12 13	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of graduation rate, as you know, factors in the whereabouts of student who leave you, and our graduation has grown every for four consecutive years. So those students, if you're ask me where they went, I can't give you specifics, but I can tell
2 3 4 5 7 8 9 10 11 12 13 14	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know, we can any questions you have, obviously, you know, we can get answers to. I'm not necessarily MEMBER WAHL: I just want to make sure that marketing this year is appropriate and legal and appropriate for the public. It doesn't exclude any	2 3 4 5 6 7 8 9 10 11 12 13 14	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of graduation rate, as you know, factors in the whereabouts of student who leave you, and our graduation has grown every for four consecutive years. So those students, if you're ask me where they went, I can't give you specifics, but I can tell you that's it's tracked and verified that they've
2 3 4 5 6 7 8 9 10 11 12 13 14 15	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know, we can any questions you have, obviously, you know, we can get answers to. I'm not necessarily MEMBER WAHL: I just want to make sure that marketing this year is appropriate and legal and appropriate for the public. It doesn't exclude any segment of students.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of graduation rate, as you know, factors in the whereabouts of student who leave you, and our graduation has grown every for four consecutive years. So those students, if you're ask me where they went, I can't give you specifics, but I can tell you that's it's tracked and verified that they've gone somewhere.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know, we can any questions you have, obviously, you know, we can get answers to. I'm not necessarily MEMBER WAHL: I just want to make sure that marketing this year is appropriate and legal and appropriate for the public. It doesn't exclude any segment of students. UNIDENTIFIED SPEAKER: That's correct.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. Mr. Dos Santos might speak to that, but I think the board formally requested they have the school to gather data in that regard just this week. I know we talked about it. UNIDENTIFIED SPEAKER: The calculation of graduation rate, as you know, factors in the whereabouts of student who leave you, and our graduation has grown every for four consecutive years. So those students, if you're ask me where they went, I can't give you specifics, but I can tell you that's it's tracked and verified that they've gone somewhere. MEMBER MCCORD: Did you when you had a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	MR. GORDAN: Yes. MR. CURRY: Yes. MEMBER WAHL: So you're both aware of what I'm speaking about? UNIDENTIFIED SPEAKER: Say that again? MEMBER WAHL: You're both aware of what I'm speaking of? UNIDENTIFIED SPEAKER: I believe I am, Ms. Wahl. I believe I am. But obviously, you know, we can any questions you have, obviously, you know, we can get answers to. I'm not necessarily MEMBER WAHL: I just want to make sure that marketing this year is appropriate and legal and appropriate for the public. It doesn't exclude any segment of students. UNIDENTIFIED SPEAKER: That's correct. That's certainly the intention.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	where people go when they leave and where people come from when they come to us, regardless of who they are and what they are and what classification they go into. 1	be.	1	MEMBER WAHL: I asked if it was an intent to
2	MEMBER McCORD: That is a question about you	2	
	more.	3	
4	UNDENTIFIED SPEAKER: Right. But we are	-	again, we looked at that as to what are the materials
5	I certainly, when we are given a request for		they're given at enrollment, and that form is not
	documentation for review by authorities, and when we		part of the packet of materials that we
	assure that there is and I would be hesitant to	7	
	speak prior to even knowing what the scope of that	8	responsive to that. I really do thank you for that.
	review is.		My concern is what happened to those, and were they
10	MEMBER McCORD: I respect that of you. Let		used in any way for kids that we couldn't follow up
11	me ask you, is that 2,200 level, that can be kind of	11	on.
12	a static level, or are you going to be growing that?	12	UNIDENTIFIED SPEAKER: (Inaudible)
13	UNIDENTIFIED SPEAKER: I mean, it could	13	absolutely not. As we had spoken before, you know,
14	grow, I suppose. It's been the historic data in	14	we're very aware of the difference between home
15	the last few years, but I don't know the specific	15	school and the services we provide. And so no, the
16	historic data. But I'll let you speak to that,		direct answer is no, we absolutely do not use the
17	(inaudible).		home school forms in that way. But I can't give you
18	UNIDENTIFIED SPEAKER: Well, there is a cap.		the number off the top of my head as to how many
	So we can only grow 10 percent higher than the 2,200	19	students we had that have gone to home school.
20	that we have. So can we grow? We can grow	20	CHAIRMAN JOHNSON: Anything further from the
21	10 percent, but no more.		DAG?
22	MEMBER McCORD: Got you. Thank you. I just	22	· · · · · · · · · · · · · · · · · · ·
	want to make sure.		closing out, I wanted to ask for I wanted to
24	MR. GAVIN: Can we get back on the topic of		propose some next steps or request feedback for next
25	academic improvement? I don't mean to I know I	25	steps. So I'm going to suggest the next steps.

1	it be forward-looking and have it be very intentional	1	to the Authority board. That's how I saw some of
	and structured versus all forward-looking statements		what came from the state when you were formed. And
	with no actions taken. So, with that idea, let's		that has happened with us for sure. So I just wanted
			to get that off my chest, Patrick.
	(inaudible).		•
5	UNIDENTIFIED SPEAKER: Yes. Well, I have a	5	UNIDENTIFIED SPEAKER: Yes, thank you,
	couple of comments. As you all know, we've seen what	6	J J I I I
	I feel would be a significant increase in graduation	7	8
	rates year by year for the last four years. Without		more. The only thing I would mention, we've had
			these discussions in our prior calls. You know,
	that we have a significant increase coming here in		usually a quick and hasty change for the sake of
	this year. You never know. But, you know, I know		making a significant change without it being fully
	this from I have some rationale for believing	12	vetted or evaluated leads to bad results.
13	that.	13	And so, you know, will we come up with
14	And so, there's been a lot of talk about		right now we're finishing our first year of blended
	grad rate today. And I think that's a significant		learning, and are fully about to begin to digest that
	thing, that we look at those programs, the policy	16	to see how fruitful it's been.
	shifts that you're talking about, too, that have	17	I think that and so we're sort of right
	implemented some of those things. And I think that		now in an evaluative phase. And the board is already
	that's been a very important facet for the board		looking as an item, can this be expanded. I think
20	to and I give credit for some of the new people,	20	step one is the evaluation of how things have gone
21	too, who have come on the board (inaudible) move	21	thus far. I'm not suggesting that we're going to
22	things along and that sort of thing.	22	bring, you know, bigger decisions into the
23	But before we finish today, I do want to say	23	future without to say, you know, will we come back
24	that for whatever reason, I suspect you woke up in	24	with, we're going to do all blended, I think there
25	the middle of the night and had an epiphany of some	25	needs to be at least an evaluation done first since
	Page 266		Page 268

	sort, I don't know. But communication between staff		we started that process to see where we thing it
2	sort, I don't know. But communication between staff and the board has been significantly improved. That	2	we started that process to see where we thing it should go.
2 3	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to	2 3	we started that process to see where we thing it should go. But in general, I don't disagree with the
2 3 4	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have	2 3 4	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly
2 3 4 5	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that.	2 3 4	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions.
2 3 4 5 6	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and	2 3 4 5 6	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been
2 3 4 5 6 7	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three	2 3 4 5 6 7	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think
2 3 4 5 6 7 8	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this	2 3 4 5 6 7 8	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that
2 3 4 5 6 7 8 9	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished.	2 3 4 5 6 7 8 9	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give
2 3 4 5 6 7 8 9	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some	2 3 5 6 7 8 9	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right
2 3 4 5 6 7 8 9 10	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established,	2 3 4 5 7 8 9 10 11	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong?
2 3 4 5 6 7 8 9 10 11	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish.	2 3 4 5 7 8 9 10 11	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was
2 3 4 5 6 7 8 9 10 11 12 12	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for	2 3 4 5 7 8 9 10 11 12 13	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I
2 3 4 5 6 7 8 9 10 11 12 13 14	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link	2 3 4 5 6 7 8 9 10 11 12 13 14	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had
2 3 4 5 6 7 8 9 10 11 12 13 14 15	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort	2 3 4 5 6 7 8 9 10 11 12 13 14 15	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort of communication has resulted in maybe a change of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, II
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort of communication has resulted in maybe a change of attitude. And, you know, speaking very finally,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, II think we would certainly be open to doing something
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort of communication has resulted in maybe a change of attitude. And, you know, speaking very finally, which I do sometimes, there have been times I met	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, 11 think we would certainly be open to doing something like that. I will point out to you that we do have a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. And I think that that sort of communication has resulted in maybe a change of attitude. And, you know, speaking very finally, which I do sometimes, there have been times I met with Patrick in years past where I walked away, and I didn't feel like I wanted to do anything. You know,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, II think we would certainly be open to doing something like that. I will point out to you that we do have a third party as part of the SI grant, the accrued SI grant that's evaluated our data, at least in the high
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort of communication has resulted in maybe a change of attitude. And, you know, speaking very finally, which I do sometimes, there have been times I met with Patrick in years past where I walked away, and I didn't feel like I wanted to do anything. You know, that happened (inaudible). But these last	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	 we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, II think we would certainly be open to doing something like that. I will point out to you that we do have a third party as part of the SI grant, the accrued SI grant that's evaluated our data, at least in the high school. And all that information is in the packet
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort of communication has resulted in maybe a change of attitude. And, you know, speaking very finally, which I do sometimes, there have been times I met with Patrick in years past where I walked away, and I didn't feel like I wanted to do anything. You know, that happened (inaudible). But these last conversations and I think that's important to say.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, 11 think we would certainly be open to doing something like that. I will point out to you that we do have a third party as part of the SI grant, the accrued SI grant that's evaluated our data, at least in the high school. And all that information is in the packet that you all can see where the margin is. So there
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort of communication has resulted in maybe a change of attitude. And, you know, speaking very finally, which I do sometimes, there have been times I met with Patrick in years past where I walked away, and I didn't feel like I wanted to do anything. You know, that happened (inaudible). But these last conversations and I think that's important to say. And you know, I'm not giving him praise where it's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, 11 think we would certainly be open to doing something like that. I will point out to you that we do have a third party as part of the SI grant, the accrued SI grant that's evaluated our data, at least in the high school. And all that information is in the packet that you all can see where the margin is. So there is third-party validated data on us, on your behalf.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort of communication has resulted in maybe a change of attitude. And, you know, speaking very finally, which I do sometimes, there have been times I met with Patrick in years past where I walked away, and I didn't feel like I wanted to do anything. You know, that happened (inaudible). But these last conversations and I think that's important to say. And you know, I'm not giving him praise where it's not due, I don't think. That's so important.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	 we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, II think we would certainly be open to doing something like that. I will point out to you that we do have a third party as part of the SI grant, the accrued SI grant that's evaluated our data, at least in the high school. And all that information is in the packet that you all can see where the margin is. So there is third-party validated data on us, on your behalf.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	sort, I don't know. But communication between staff and the board has been significantly improved. That is a major, major accomplishment. I don't want to give you very much credit, Patrick, but I will have to say that I give you some credit for that. The last conversations we've had and we've had three not very brief, but three conversations that I walked away from feeling this was really positive. We got something accomplished. We agreed on some things. There were some guidelines. There were some goals established, sometimes among board members after we finish. But I compliment you and the board for whatever happened with that. That communication link has really been enhanced. And I think that that sort of communication has resulted in maybe a change of attitude. And, you know, speaking very finally, which I do sometimes, there have been times I met with Patrick in years past where I walked away, and I didn't feel like I wanted to do anything. You know, that happened (inaudible). But these last conversations and I think that's important to say. And you know, I'm not giving him praise where it's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	we started that process to see where we thing it should go. But in general, I don't disagree with the proposal, and we can you know, we certainly welcome conversations and discussions. MEMBER WAHL: Inaudible. So Beacon has been working with Mr. UNLV back there. And I think Connections Academy said, would you guys welcome that intensive machine looking into your school to give them a really good evaluation of what's going right and what's goings wrong? UNIDENTIFIED SPEAKER: Unfortunately I was stepping out for most of those conversations. So I didn't hear what was going on in that regard. I had to file an appellate brief today in the morning. UNIDENTIFIED SPEAKER: Sure, yeah. No, 11 think we would certainly be open to doing something like that. I will point out to you that we do have a third party as part of the SI grant, the accrued SI grant that's evaluated our data, at least in the high school. And all that information is in the packet that you all can see where the margin is. So there is third-party validated data on us, on your behalf.

Five indicated that they received over 70 credits, when 60 will get you an Associate's degree, but we had five kids deciding that they would rather take Calculus 3, Physics, going through the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	CHAIRMAN JOHNSON: Yeah. We can ask for a one minute recess. (A recess was had) MR. GAVIN: Okay. So I'm recognizing it's 22 minutes before CHAIRMAN JOHNSON: My question was, can we postpone the (inaudible) plan? Because I think it's going to take longer than a 22 minute conversation. It's just how we have conversations. They're always over 22 minutes. And what we can do is move our minutes to a time so we can approve our minutes from the April 29th meeting. UNIDENTIFIED SPEAKER: I'll move. MEMBER CONABOY: I'll second. MS. MACKEDON: I'll second. CHAIRMAN JOHNSON: We have two seconds. All in favor of approving the minutes from the April 29th meeting? MEMBER CONABOY: I have a question first about our minutes. Because it's much abbreviated from what we're accustomed to see. So our new process is what we said, is that we have just a record of actions in the written	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	We do have one last item, it's public comment, and we have one person. Our standing closer of our meeting, Dr. John Hall, is standing tall and handsome. JOHN HALL: Jerry Johnson, members of the board, thank you very much for that. My intention is not to be there, but listening to the audio, something alarmed me, so I'll get to that in a moment. I just wanted to tell you, all of you reminded me of graduation tomorrow. I am glad and happy to report we had 20 graduates with Associates degrees on Monday walking with CSN. And we're graduating 152, not 20 out of 150. We only have 90 kids that returned to us for a second year. So we have 60 newbies, (inaudible) Associate's degree in one year. So it's really 20 out of 90. It's pretty good. Five indicated that they received over 70 credits, when 60 will get you an Associate's degree, but we had five kids deciding that they would rather take Calculus 3, Physics, going through the Bachelor's of engineering rather than taking some

So I'm recognizing it's 22 minutes before CHAIRMAN JOHNSON: My question was, can we postpone the (inaudible) plan? Because I think it's going to take longer than a 22 minute conversation. It's just how we have conversations. They're always over 22 minutes. And what we can do is move our minutes to a time so we can approve our minutes from the April 29th meeting. UNIDENTIFIED SPEAKER: I'll move. MEMBER CONABOY: I'll second. MS. MACKEDON: I'll second. CHAIRMAN JOHNSON: We have two seconds. All in favor of approving the minutes from the April 29th meeting? MEMBER CONABOY: I have a question first about our minutes. Because it's much abbreviated from what we're accustomed to see. So our new process is what we said, is that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	We do have one last item, it's public comment, and we have one person. Our standing closer of our meeting, Dr. John Hall, is standing tall and handsome. JOHN HALL: Jerry Johnson, members of the board, thank you very much for that. My intention is not to be there, but listening to the audio, something alarmed me, so I'll get to that in a moment. I just wanted to tell you, all of you reminded me of graduation tomorrow. I am glad and happy to report we had 20 graduates with Associates degrees on Monday walking with CSN. And we're graduating 152, not 20 out of 150. We only have 90 kids that returned to us for a second year. So we have 60 newbies, (inaudible) Associate's degree in one year. So it's really 20 out of 90. It's pretty good. Five indicated that they received over 70 credits, when 60 will get you an Associate's degree, but we had five kids deciding that they would rather take Calculus 3, Physics, going through the Bachelor's of engineering rather than taking some course that's not going to be useful for them.

	able to operate if we didn't have a signed contract.
	I do appreciate all of the work that you do and all
	of the time that you're spending with the schools
	today. I still don't have a signed contract.
6	So if you could maybe light a fire. I know
7	that Mr. Gavin, we just spoke moments ago, so I'm
8	happy to be here, answer any questions, but I'm still
9	looking for a contract.
10	MR. GAVIN: Thank you, Dr. Hall.
11	CHAIRMAN JOHNSON: All right. Is there any
	further discussion? I'll move to have our meeting
13 14	adjourned at 4:11. UNIDENTIFIED SPEAKER: Aye.
15	CHAIRMAN JOHNSON: All right. Meeting
16	adjourned. 4:11.
17	(Thereupon the proceedings were
18	concluded at 4:10 p.m.)
