Evaluation Overview and Timeline

The Evaluation Form is the essential tool for application evaluators and will be completed individually by each evaluator. It contains criteria for each section of the proposal. The evaluators present both ratings on a scale and narrative analysis of each subsection of the application. Throughout the process, evaluators will update their Forms to include additional information (due diligence, capacity interview) as it is presented. Within each section and subsection, specific criteria define the expectations for a response that “Meets the Standard.” An applicant must “Meet the Standard” in all four main portions (Meeting the Need, Finance Plan, etc.) by the end of the evaluation process to be recommended for authorization. In general, the following definitions guide evaluator ratings:

Rating	Characteristics
Meets the Standard	The response reflects a thorough understanding of key issues. It addresses the topic with specific and accurate information that shows thorough preparation; presents a clear, realistic picture of how the school expects to operate; and inspires confidence in the applicant’s capacity to carry out the plan effectively in a way which will result in a 4- or 5-star school.
Approaches the Standard	The response meets the criteria in many respects but lacks detail and/or requires additional information in one or more areas.
Does Not Meet the Standard	The response is undeveloped or incomplete; demonstrates lack of preparation; or otherwise raises substantial concerns about the viability of the plan or the applicant’s ability to carry it out.

In addition to meeting the criteria that are specific to that section, each part of the proposal should align with the overall mission, academic program, budget, and other sections of the application.

Instructions for Evaluators

1. Fill in your name, the name of the committee to form, and the name of the proposed school. Click once on the grey boxes to begin typing.
2. Complete the summary page LAST. Type a summary of your analysis of each section into the box provided, it will expand as needed. This should be a paragraph outlining the overall strengths or weaknesses of the application section as a whole. It should summarize your findings, and should not be simply cut and pasted from your subsection analysis.
3. For each subsection of the application, you should do the following during your initial individual analysis of the proposal:
 - a. Select a rating for that subsection. Click once on the gray box to select. If you are not able to check the box, please **HIGHLIGHT your selection.**
 - b. Use the “Strengths” area to identify notable positive aspects of the response. Be sure to include page references where applicable.
 - c. Use the “Weaknesses” area to identify weaknesses. Again, reference relevant page numbers.
 - d. Use the “Clarifying Questions” area to present key questions which need to be addressed and areas that need to be clarified or confirmed in writing.
4. Save the document (as a PDF) using this naming convention: SPCSA Eval_School Name_YOUR LAST NAME.pdf (For example, for the request for Sagebrush Charter Schools by Patrick, the file name would be: SPCSA Eval_Sagebrush_GAVIN.doc.) Upload your document to Dropbox using the instructions provided.
5. Following the capacity interview you should do the following:
 - a. Select a final rating for that section. Click once on the gray box to select. If you are not able to check the box, please **HIGHLIGHT your selection.**
 - b. Use the “Interview Notes” area to present key information discovered or confirmed during the capacity interview. You are not required to type directly into the form during the interview but may do so if you prefer.
 - c. Use the “Revised Analysis” area to provide your final evaluation of that subsection based on the complete application record (proposal, due diligence if applicable, followup questions and clarifications, capacity interview). This analysis should support the final rating you select.
 - d. Revise your summary page as needed.
6. Save the revised document (as a PDF) using this naming convention: SPCSA Eval

FINAL_School Name_YOUR LAST NAME.pdf (For example, for the evaluation of Sagebrush Charter Schools by Danny, the file name would be: SPCSA Eval FINAL_Sagebrush_PELTIER.doc.) Upload your document to Dropbox using the “Individual Evaluation Form: Final” task that is provided.

7. **Please ensure that all feedback and commentary are in complete sentences. Page numbers and location on the page must be cited in the text, e.g., “In the third paragraph on page 35...”**

Meeting the Need

Mission and Vision

A strong response will have the following characteristics:

- Clear and compelling mission statement that is reflected throughout the application.
- The mission statement identifies the role of the school in addressing the problem or demand that the school seeks to address in the community in which it seeks to serve.
- The vision describes what success for students beyond school looks like if the committee to form fulfills the role described in its mission.
- The committee to form proposes a school model that solves a problem related to student outcomes that is either shown to exist with data or is in response to demonstrated demand for a particular school model.
- The committee to form aims to achieve outcomes that they demonstrate will improve students' long term quality of life.
- The committee to form identifies key supporters, partners or resources that are directly tied to the stated outcomes of the school.
- The school's stated purpose satisfies at least one and ideally all statutory purposes, demonstrates how they are clearly aligned to the mission and vision, and explains how the school fulfills each selected purpose:
 - Improving the academic achievement of pupils;
 - Encouraging the use of effective and innovative methods of teaching;
 - Providing an accurate measurement of the educational achievement of pupils;
 - Establishing accountability and transparency of public schools;
 - Providing a method for public schools to measure achievement based upon the performance of the schools; AND/OR

Targeted Plan

A strong response will have the following characteristics:

- Clear and compelling rationale for the selected community based on academic or demographic need
- Clear and comprehensive explanation of how the proposed model meets identified community needs
- A demonstrated commitment to meet at least one of the identified demographic and academic needs as defined by the most recent SPCSA Academic and Demographic Needs Assessment:
 - Demographic Needs—student populations that underperform according to graduation rate, the ACT Assessment, and the Smarter Balanced Assessment (both Math and ELA) for the last three years present a demographic need; these populations of students may benefit from the creation of high-quality school options focused on meeting their needs. These populations are: students qualifying for free or reduced-price lunch, English Learners and students with IEPs.
 - Academic Needs
 - Geographies with 1 and 2 star schools: in zip codes with a 1 or 2 star school, students are enrolling in schools that are, by definition, inadequate and the addition of a 3, 4 or 5-star school would provide an alternative for these students;
 - Students at-risk of dropping out: despite a rapidly improving graduation rate, nearly one in five students does not graduate high school in four years, with certain subpopulations persistently graduating at lower rates than their peers.
- Demonstrated capacity, credible plans, and thorough research and analysis in order to intentionally serve the identified student populations, prevent at-risk students from dropping out, and/or provide more high-quality schools in underserved areas, as defined in the Academic and Demographic Needs Assessment.

- Adheres to state and federal law regarding expectations for parent volunteering (R 131-16, Section 8). Specifically schools may not “design, use or intend to use requirements for enrollment in the charter school, including, without limitation, the payment of fees, expectations for the performance of volunteer work or attendance at informational meetings and interviews, for the purpose of discrimination.”¹

 - Partnerships are evidenced by specific letters of commitment outlining the accountabilities of both parties and clear, measurable, time-specific deliverables from the partner which are clearly relevant to the needs of the target population.

School Management Contracts (If Applicable)

A strong response will have the following characteristics:

- Clear rationale for selection of Educational Management Organization (EMO/CMO)/Charter Management Organization (CMO)
- Demonstrates capacity and commitment of the governing board to oversee the EMO/CMO effectively:
 - Plan for board to monitor/evaluate the EMO/CMO's performance
 - Appropriate internal controls guide the relationship
 - Describes how the governing board will ensure fulfillment of performance expectations
 - Discloses and addresses any potential conflicts of interest (real or perceived)
- Clearly defined contract terms including: contract duration; roles and responsibilities of the school governing board, school staff, and EMO/CMO-specific services and resources to be provided by the EMO/CMO; performance evaluation measures and mechanisms; compensation to be paid to the provider; financial controls and oversight; methods of contract oversight and enforcement; investment disclosure; and conditions for renewal and termination of the contract, and alignment of the key performance indicators for the EMO/CMO and the hierarchy of sanctions for poor performance with the SPCSA academic, financial, and organizational frameworks and intervention ladder. SB509 requires that a management relationship and a management contract may not jeopardize a school's eligibility to qualify for 501c3 status. The IRS has several criteria which are used by the Authority:
 - A charter school must show that contracts, especially comprehensive management contracts, have been negotiated at arm's length and are for the benefit of the school rather than the service provider. The IRS has determined that boilerplate contracts may be an indicator that the terms of the contract were not the subject of negotiations between independent parties; the applicant must provide clear and compelling evidence that the contract submitted is not a boilerplate contract.
 - Representation of both the school and the management by the same attorney or payment of the school's attorney by the EMO/CMO is also an indication of the absence of arm's length negotiations.
 - When reviewing a charter school contract for management services, determine whether the terms are consistent with fulfillment of the school's exempt purposes. Some contract terms may result in a finding that the school is operated for the benefit of the management and preclude exemption. Areas of concern include:
 - A management contract is subordinate to the charter contract. In the event of any conflict between the management contract and the charter contract or current law or regulation, the charter contract, law, or regulation governs.
 - Length of Contract -A contract's length can greatly influence the board's ability to monitor and evaluate the management's performance. There is a need to balance management company's interest in a long-term contract with the school's need for flexibility in changing companies and meeting its fiduciary responsibility and its responsibilities under the charter contract, law, and regulation. Nevada requires that all management contracts must initially be for two years and no management contract can have a term that extends beyond the charter term. A management contract must cease in the event that a school is reconstituted or restarted. Cancellation of a management contract may be a requirement for renewal.
 - Board Policies -The general policies concerning the operation and management of a charter school may not be contracted away. These broad policies help define the school's identity.

- Services - Comprehensive school contract packages place much of the control of the day-to-day operations in the hands of the management. Responsibilities of both the company and the school must be clearly stated in the contract.
- Personnel – Up to 30 percent of principals, teachers and staff may be employed directly by the school or may be employees of the management. However, the existence of an anti-compete clause that prevents a school from hiring the personnel that it has utilized in operating its school (principals, teachers, etc.) for a specific length of time after termination of the management contract is impermissible, as this practice serves the private interests of the management and limits the school's ability to terminate the contract.
- Compensation - management fees must be reasonable and commensurate with the services provided. A management fee structure should not be based on total income (i.e., all fees, grants, contributions, and unusual receipts). Compensation should not be above the market rate generally charged for the service provided. This can be established through evidence of comparative shopping for services. An applicant must provide clear and compelling evidence of due diligence related to the market rates for such services.
- Termination - A service contract should specify the provisions for termination and the procedure for evaluating when the terms of the contract are in default. Termination provisions that unreasonably restrict and limit the options of the school are evidence of private benefit to the service provider. No contract can have an automatic renewal provision. All contract evaluations must be aligned to the elements of the charter contract and performance framework (as amended) and current law and regulation for which the management organization provides supporting services.
- Consider name identification - In many cases, contractual provisions require a charter school to attach the management company's name to the school (i.e., Company X Charter School or Charter School, a Company X affiliate or Y Brand Charter School, where the brand is the property of Company X.) The IRS has determined that "Name branding" has no clear exempt purpose. It links management companies to exempt schools and allows the company to draw goodwill from the relationship. It allows the management companies to build name recognition without additional expense. It also places a contractual burden on the charter schools, making it more difficult for the school to terminate the relationship with the management company. A "name branding" requirement may be an indicator of private benefit depending upon the facts and circumstances. While "name branding" is not specifically forbidden by state law, it will be scrutinized heavily pursuant to SB509 due to the IRS concerns—both to ensure that 501c3 status is not delayed or jeopardized and to ensure that the school that is permitted to use a "name brand" can provide the IRS with evidence that this was scrutinized and determined to be appropriate by a public agency. "Name branding" is more likely to be allowed by the Authority in cases where the established brand name is associated with a proven school model with a lengthy track record of consistent achievement at the highest levels on the statewide accountability systems in each state where it is implemented. It is unlikely to be permitted in cases where the brand and associated model has a limited or mixed track record. A management contract must contain provisions regarding the change of school names which aligns with the charter contract, state law and regulation, and Authority expectations that the school name include the words "Public Charter School" or that the phrase "a public charter school" accompany the school's name on the school's website, signage, letterhead, and marketing materials in a prominent and consistent manner.

- Analyze ancillary services provided - Comprehensive school management companies may provide other services directly or through affiliates. These services may include cash advances for startup funds, capital loans, facility leasing, technology contracting, furnishings, fixtures, textbooks, and just about anything else a charter school may need. The IRS recognizes that such services can be essential for startup schools, but schools should maximize their use of other available funding mechanisms (including the Nevada revolving loan fund) with more competitive interest rates. However, the reviewer should scrutinize agreements and the narrative carefully for clear and compelling evidence to determine whether the terms were the result of arm's length negotiation with an independent charter school board or are, in effect, adhesion contracts with a captive school board.
- Clearly outlines the roles/responsibilities of the EMO/CMO in the year prior to the school's opening. The committee to form provides a Memorandum of Understanding (MOU) that lists specific service agreements for this period of time.
- There is no provision permitting the EMO/CMO to appoint members to the governing body or approve members.
- If school leadership is employed by the EMO/CMO, there are provisions in the contract, bylaws, and organizational structure that ensure board approval, provides evidence of EMO/CMO's demonstrated track record of success in serving a similar population using the same academic model and its track record in managing financial and organizational outcomes to levels consistent authorizer financial and organizational frameworks expectations.
- There is no provision permitting the EMO/CMO to appoint members to the governing body or approve members.
- The contract does not allow for any form of leverage – including but not limited to severance fees and facilities ownership – by which the EMO/CMO can ensure renewal of their contract.
- There are no prohibited familial relationships between charter holder board members and EMO/CMO employees within the third degree of consanguinity or affinity nor any supervisory or business relationships between charter holder board members or relatives of such and relatives of EMO/CMO employees within the third degree of consanguinity or affinity.
- The three most recent audits of the EMO/CMO show no material findings.
