September 15, 2025

Nevada School Performance Framework (NSPF) Refresher

- The federal Every Student Succeeds Act (ESSA) requires each state to use an accountability system to annually rate all public schools within that state. ESSA also requires states to use their accountability system to identify low performing schools and schools with low performing student groups.
- The NSPF meets those requirements by issuing an annual index score and corresponding star rating to schools based on performance in various measures. The NDE uses the NSPF to identify schools with low performance and/or low performing student groups.
