Evaluation Overview and Timeline

The Evaluation Form is the essential tool for Revolving Loan Application evaluators and will be completed individually by each evaluator. It contains criteria for each section of the application. The evaluators present both ratings on a scale and narrative analysis of each subsection of the application. Within each section and subsection (exhibits), specific criteria define the expectations for a response that “Meets the Standard.” An applicant must “Meet the Standard” in all three main sections to be recommended for approval. In general, the following definitions guide evaluator ratings:

Rating	Characteristics
Meets the Standard	The response meets the requirements of NAC 388A.665 and reflects a thorough understanding of key issues. It addresses the topic with specific and accurate information that shows thorough preparation; presents a clear, realistic picture of the financial situation of the school; and inspires confidence in the applicant’s ability to repay the loan in accordance with NAC 388A.675 .
Does Not Meet the Standard	The response does not meet the requirements of NAC 388A.665 ; is undeveloped or incomplete; demonstrates lack of preparation; or otherwise raises substantial concerns about the financial position of the school or the applicant’s ability to repay.

In addition to meeting the criteria that are specific to that section, each part of the application should align with the overall business plan submitted with the application.
