COVID-19 In-Person Learning Guidance

Updated November 6, 2020

Overview

On Friday, November 6, 2020, the State Public Charter School Authority approved the following COVID-19 In-Person Learning Guidance for all SPCSA-sponsored public charter schools. The COVID-19 In-Person Learning Guidance is a revision of the original guidance that was approved on August 14, 2020.

Mitigation Level (Established by Governor's Emergency Directive 030 and Road to Recovery: Moving to a New Normal)	SPCSA COVID-19 In-Person Learning Guidance (Established by SPCSA Board on Friday, November 6, 2020)	
Baseline Level	A charter school sponsored by the SPCSA <i>may, but are not required to,</i> operate under an in-person or hybrid model in accordance with all prevailing directives, including but not limited to Emergency Directives 022 and 028.	
Mitigation Level 1	Except with written approval of an exemption from the Executive Director, all charter schools sponsored by the SPCSA <i>shall</i> operate under a distance education or hybrid model , with the option to provide in-person instruction at a limited scale (less than 40% of the school's enrollment at any given time) and subject to all prevailing discretives, including but not limited to Emergancy Pirotives 033 and 038	
Mitigation Level 2	directives, including but not limited to Emergency Directives 022 and 028.

In addition,

- The Executive Director *must*, open a fast response process to consider appeals by schools for exemptions and *may* approve and enact individual plans informed by consultation with schools.
- The Executive Director *may*, in unique circumstances require additional restrictions for specific schools and/or counties based on public health data and/or non-compliance with prevailing Emergency Directives.

Impacts to SPCSA-Sponsored Schools

The SPCSA provides regular updates to schools as to each county's Mitigation Level and the underlying public health data. If a county currently in Mitigation Level 1 or 2 appears to be making progress toward returning to Baseline Mitigation, the SPCSA will specifically highlight this information in weekly emails and bi-monthly calls so that schools can prepare for a potential increase in in-person instruction. Similarly, if a county currently in Baseline Mitigation has an increase in the public health indicators that points to a potential for moving into a heightened Mitigation Level, the SPCSA will specifically highlight this information so that schools can begin to prepare for a possible decrease in in-person instruction.

Data an information regarding the COVID-19 Mitigation and Management Task Force can be found at the following website: https://nvhealthresponse.nv.gov/covid-task-force-assessments/

Appendix: Additional Information on County-Level Mitigation Approach

There are three mitigation levels defined in *Road to Recovery: Moving to a New Normal*: Baseline Mitigation, Mitigation Level 1, and Mitigation Level 2. A county's mitigation level can increase or decrease based on three criteria that serve as indicators of risk of elevated COVID-19 transmission.

1. Criteria

The following criteria are established in the *Road to Recovery: Moving to a New Normal* as indicators of risk of elevated COVID-19 transmission. These criteria reflect the changes adopted by the COVID-19 Mitigation and Management Task Force on October 8, 2020.

- 1. Average number of tests per day (per 100,000) < 100
- 2. Case rate (per 100,000) > 200
- 3. Case rate (per 100,000) > 50 AND testing positivity > 8.0%

2. Mitigation Levels

As defined in the *Road to Recovery: Moving to a New Normal*, each county's mitigation level is based on the number of criteria met and, if a county meets two or more criteria, how many weeks in a row the county has met two or more criteria.

	Mitigation Level	County Restrictions	What causes a County to be at this level?
	Baseline Level	Current Directives	 Default Level "Warning week" – one week of meeting 2 or more criteria
	Mitigation Level 1	Targeted approach or reduced capacity and gatherings	 2 or more weeks of 2 or more criteria met Level determined by degree of severity and the duration at the level The speed at which mitigation levels may increase is implemented at a short duration than relaxing mitigation levels. Therefore, increases in mitigation
•	Mitigation Level 2	Potential return to Phase 1 Compliance Requirements	measure may occur within a week or two if the trend is showing increased spread but lessening or relaxing of those mitigation levels will be reviewed at longer intervals

3. COVID-19 In-Person Learning Guidance

The table below summarizes the COVID-19 In-Person Learning Guidance:

Established by Governor's Emergency Directive 030 and Road to Recovery: Moving to a New Normal			Established by SPCSA on November 6, 2020
Mitigation Level	County Restrictions	What causes a County to be at this level?	SPCSA COVID-19 In-Person Learning Guidance
Baseline Level	Current Directives	 Default Level "Warning week" – one week of meeting 2 or more criteria 	A charter school sponsored by the SPCSA <i>may, but are not required to,</i> operate under an in-person or hybrid model in accordance with all prevailing directives, including but not limited to Emergency Directives 022 and 028.
Mitigation Level 1	Targeted approach or reduced capacity and gatherings	 2 or more weeks of 2 or more criteria met Level determined by degree of severity and the duration at the level The speed at which mitigation levels may increase is implemented at a shorter duration than relaxing mitigation levels. Therefore, increases in mitigation 	Except with written approval of an exemption from the Executive Director, all charter schools sponsored by the SPCSA <i>shall</i> operate under a distance education or hybrid model , with the option to provide in-person instruction at a limited scale (less than 40% of the school's enrollment at any given time) and subject to all
Mitigation Level 2	Potential return to Phase 1 Compliance Requirements	measure may occur within a week or two if the trend is showing increased spread but lessening or relaxing of those mitigation levels will be reviewed at longer intervals	prevailing directives, including but not limited to Emergency Directives 022 and 028.
			 The Executive Director <i>must</i>, open a fast response process to consider appeals by schools for exemptions and <i>may</i> approve and enact individual plans informed by consultation with schools. The Executive Director <i>may</i>, in unique circumstances require additional restrictions for specific schools and/or counties based on public health data and/or non-compliance with prevailing Emergency Directives.
