Executive Director Feiden compared the statistics from when the SPCSA was created and today before talking through the creation, purpose, and overview of schools and students served. Moving on, she discussed the strategic plan. Finally, she closed with a brief review of recent statutory and regulatory changes. In closing, since the passage of their strategic plan, there has been a lot of progress despite the substantial challenges that they've faced over the last two years. Agenda Item 4

- I am a scheduled speaker
- I am a visitor

Imer Cespedes

Nevada State Public Charter School Authority.

Good morning Madam chair and board members, thank you for allowing me to share my experience as a latino student coming from a low-income family at Coral Academy, In 2019 I was worried about what I would find at my new school in the United States, I was living in Costa Rica for 15 years and I moved back to United States for just one reason, my American dream, for a better education, to give back to my community, to give back to latinos with similar backgrounds as me.

I was afraid of my first day of school because it was my first time in an American school and I knew very little English. However, Coral quickly became a second home and family.

I feel safe at Coral, I feel great with all of the staff members and students. Even after school, my school friends and I always make plans to study together or play basketball, because THIS IS OUR HOME.

At Coral I was offered tutoring after school and even a class with E.L. Teacher, Ms. Devine. These things helped me to improve my English skills. School could be difficult, but it is more difficult in a second language, however, the support from my teachers helped me succeed.

Inclusively, Coral Academy has strengthened my values and taught me more about the importance of humanity and giving back to those with limited resources. My involvement in the programs offered at Coral, like CMLP has helped my American dream become reality, TO GIVE BACK TO MY COMMUNITY. I think more students like me should have the opportunities that I have, although I am very busy with school and working over 20 or more hours weekly, I still volunteer to support Ms. Corona's mission to educate the Latino families in Clark county on the great educational opportunities that coral has to offer for their children. At various events, I have shared my LATINO STUDENT EXPERIENCE with numerous Spanish-speaking families.

I am so thankful to Coral Academy for everything that I have learned because in the Fall I will be a student at UNLV and be able to pursue MY DREAMS in Political Science and in the future help Coral the way they helped me.

Thank you for your time, I am hopeful that what I shared will help other students to have the opportunities that I did.
