RE: Request for Amendment to Charter Application

Quest Academy requests an exemption from the current amendment schedule to amend their charter contract with the SPCSA in order to:

Reduce the enrollment cap for the 2022-2023 school year.

The Quest Academy Governing Board has voted on the proposed amendment prior to submission. In Quest Academy's approved charter that began on July 1, 2020, the charter had the enrollment for 2022-2023 increasing to 565. After the enrollment lottery was held on March 7th, 2022, it was determined that an enrollment number more consistent with the previous years would be most beneficial for cohorts moving vertically as well as the capacity of the current school facility. The change will also allow for greater focus to be placed on the current student population and their academic growth as we emerge from the pandemic.

We appreciate the support of the SPCSA staff regarding the required amendment and are asking that good faith exemption be granted and that the request for amendment be approved.

Sincerely,

Will Batista
Governing Board Chair, Quest Academy
