Introduction

The SPCSA seeks to continuously improve its processes and the quality of its services. Over the past few years we have, for example, been able to significantly reduce the amount of paperwork involved in the processing of Request For Amendment (RFA) Applications (RFAAs), primarily be separating primarily instructional and guidance information to a separate Technical Guidance document.

The SPCSA have now add a new, brief, simple guidance section to this application. This next section is designed to provide guidance and processing steps to schools for applying for most frequently requested RFA applications.

If you're submitting RFAs in one of these areas, the following guidance may help you prepare and process your application faster

The first three and the fifth may be handled in the Consent Agenda section of the board meeting, also.

Most Frequent Request For Amendment Applications

Here are the four most frequently Request For Amendment (RFA) application types submitted to the Authority for approval by the SPCSA board. If you are requesting one of these RFA types, then you may follow the below described abbreviated process.

- 1. Dual credit RFA applications
- 2. Distant education RFA applications
- 3. Enrollment additions or contractions and grade expansions or contractions
- 4. Facilities acquisitions or leases
- 5. Lotteries and lottery changes

Below are the processing requirements of the RFA types above. Complete the following check marked items (\boxtimes) from the overall application requirements list below. You do not need to respond to the unchecked areas.

Sections Required

The below focused requirements are only for schools seeking approval for the above RFA types. RFAs for Facility acquisitions or expansions have additional requirements described below:

- ⊠ Executive Summary
- \Box Meeting The Need
 - ⊠ <u>Expansions</u> to new grade levels or new campuses must complete the Meeting the Need section.
 - ☑ <u>Lottery RFAs</u> must include Meeting the Need section for relevant sections.
 - □ Academic Plan (required if expanding to new grades that are currently not being offered)
- ⊠ Financial Plan
 - 1. Not required for Dual Credit or Distance Education RFAs assuming fiscal cost impacts less than 5%.
 - 2. Enrollment RFAs: complete the tab labeled "General" in the "RFA Pro Forma" MS Excel file to show the planned fiscal impacts of the RFA.
 - 3. Facility RFAs: complete the appropriate tab under the "**Facilities**" section below including the "RFA Pro Forma" MS Excel file to show the planned fiscal impacts of the facility RFA.
- □ Operations Plan

 \boxtimes RFA Specific Sections (as applicable for your RFA, as opposed to General Sections). This includes completing the "**Facilities**" related RFA section below.

All other amendment types require applicants to complete each applicable section below. Should you have questions, please reach out to Mike Dang for further guidance.

Section I: Standard RFA Requirements

A) EXECUTIVE SUMMARY

<u>Required for all submissions. 4 Pages or less per RFA, If your RFA submission includes more than one requested</u> <u>change, this must be listed in the Executive Summary. Should you have questions, please contact Mike Dang.</u>

Provide a brief overview of your school, including:

1. Identification of the school, its location(s), enrollment(s)(most recent ADE quarter), brief history, brief description of its board members and key leadership team members

Strong Start Academy Elementary School's (SSAES) charter application was approved in January 2022. The Board of Directors have secured a lease at one permanent location, the Tony Hsieh Education Center at 310 S. 9th Street in Downtown Las Vegas. The City of Las Vegas has leased the building to Strong Start Academy and has committed to providing maintenance, security, and improvements to the building as needed. SSAES opened in August 2022 with three classes of students in kindergarten and two classes in 1st and 2nd grades, and third, fourth, and fifth grade classes will be added one grade at a time in each of the subsequent three years. A total of 81 students are currently enrolled at Strong Start Academy. Based on current enrollment numbers, the school is seeking a contract amendment to adjust maximum enrollment for the 2022-2023 school year at 85 students. Class sizes are capped at 20 students per class and all students are engaged in a dual language educational model. The school leadership team is committed to hiring bilingual, TESL/bilingual endorsed teachers. The Board is comprised of a highly qualified set of individuals including experienced, bilingual educators, college professors, human resources experts, and a parent. The Leadership Team includes a highly qualified and experienced Executive Director, several highly experienced educational consultants, and a team of teacher leaders.

2. Statement and overview of the mission and vision

Vision: Strong Start Academy Elementary School is a culturally diverse learning community that prepares children to excel academically in two languages and have a positive impact on an increasingly evolving and global society.

Mission: The mission of Strong Start Academy Elementary School is to provide equitable, high- quality academics as we prepare our bilingual, civic-minded thinkers to maximize their potential in their community and the world.

Students deserve equal access to opportunity and high-quality education, regardless of the zip code in which they live, the color of their skin, their gender, the language they speak, or their country of origin. Strong Start Academy Elementary School (SSAES) believes that every child has the ability to excel given the right supports, and that all students have talents that can grow through formal learning. SSAES will equip students with the knowledge, skills, and mindsets they need to put their learning to use as active citizens. SSAES want students to love coming to school each day because they feel valued, safe, supported, and respected by peers and faculty. The goal of SSAES is to holistically cultivate the academic ground for these students with a rigorous and innovative academic experience. SSAES will promote student achievement in a safe and enriching learning environment where students will develop a sense of purpose and become responsible, independent life-long learners.

3. Specific statement of the request

The Board of the above-named charter school, operating under a current contract with a start date of March 1, 2022 and a six-year expiration date of June 30, 2029 requests that the SPCSA approve this request to amend its charter school contract with the SPCSA regarding the following:

- ____1.Dual-Credit Programs
- ____2. EMOs: Amend charter contract with an EMO or CMO
- ____3. Enrollment: Expand enrollment in existing grades and facilities
- _____4. Enrollment: Expand enrollment in new grade levels
- ____5. Enrollment: Eliminate a grade level or other educational services
- ____6. Facilities: Acquire or construct a new or additional facility that will not affect approved enrollment
- ____7.Facilities: Occupy additional sites
- ____8. Facilities: Relocate or consolidate campuses
- ____9. Facilities: Occupy a temporary facility

<u>X</u>10. Other (specify): <u>Enrollment contraction capped at 85 students</u>

(See full list above of RFA amendment types)

Attach a copy of the document(s), including minutes, confirming approval of the RFA.

4. A summary explanation of the reasons that the charter school is seeking to make this specific requested change.

SSAES is seeking this change based on current enrollment data. There are currently 81 students enrolled in grades kindergarten through second grade, therefore we are seeking to cap enrollment for the 2022-23 school year to 85 students. The reduced enrollment was directly linked to the fact that it took until June 14 for the Board to secure a contract at our current school site. The late date caused a number of parents to rethink enrolling their children at Strong Start Academy for the 2022-23 school year. To combat lower enrollment, we have contracted Graphicka to assist the school in marketing the school within our targeted communities and open social media links to assist parents with enrolling their children in the school. We are also working to create an Outreach Specialist position for a staff member to reach out directly to targeted families in support of enrolling their children at the school. The Executive Director will also provide presentations at Strong Start Academy Pre-Schools to strengthen the transition from pre-schools to kindergarten. With these measures in place, we believe we will maintain enrollment of 80-85 students in the 2022-23 school year and reach enrollment of 180 students for the 2023-24 school year once third grade is added.

- 5. Description of proposed target model and target communities No change
- 6. Statement of outcomes you expect to achieve across the network of campuses No change

- 7. Key components of your educational model for the expanded school No change
- 8. Describe the charter school's plan to ensure that proper restorative justice principles are practiced. Describe plans, including record keeping, to monitor for potential disproportionate discipline practices. No change
- 9. Describe the charter school's plan to ensure enrollment diversity and equity, commensurate with the neighborhood and zip codes it serves. Include plans to close any proficiency gaps among diverse student groups (ex. race/ethnicity, FRL, EL, IEP) as well as family and community engagement strategies. **No change**
- 10. The values, approach, and leadership accomplishments of your school or network leader and leadership team **No** change

B) MEETING THE NEED

TARGETED PLAN

- (1) **Identify the community you wish to serve** as a result of the expansion or RFA and describe your interest in serving this specific community.
- (2) Explain how your expansion model or RFA, and the commitment to serve this population, including the grade levels you have chosen, would meet the district and community needs and align with the mission of the SPCSA.

GROWTH RATE AND RATIONALE

(1) **Specifically identify the key risks associated with this growth plan** and describe the steps the school is taking to mitigate these risks. Respondents should demonstrate a sophisticated and nuanced understanding of the challenges of replication in general and as they relate specifically to their school growth plans based on current and historic experience of charter school management organizations and similar types of multi-site social

enterprises and non-profit and for-profit organizations. The response should detail specific risks and explain how the school will minimize the impact of each of these risks, and ideally provide contingency plans for them.

Examples may include:

- a. Inability to secure facilities/facilities financing;
- b. Difficulty raising philanthropic funding;
- c. Insufficient talent pipeline/difficulty recruiting faculty;
- d. Insufficient leadership pipeline/difficulty recruiting school leaders;
- e. Misalignment between the founding school and leader and new campuses and leaders, and;

f. Ambiguous student performance outcomes and the need to curtail expansion if performance drops.

(2) Discuss lessons learned during the school's past replication efforts and those of any replicated school or organization from another jurisdiction. For example: specifically identify each challenge encountered and how the school addressed them, as well as how the school would minimize such challenges for the proposed campuses.

PARENT AND COMMUNITY INVOLVEMENT

- (1) Describe the role to date of any parents, neighborhood, and/or community members involved in the proposed expansion of the school.
- (2) **Describe how you will engage parents, neighborhood, and community members from the time that the application is approved** through the opening of the new campus(es) or grade levels. What specific strategies will be implemented to establish buy-in and to learn parent priorities and concerns during the transition process and post opening?
- (3) **Describe how you will engage parents in the life of the expanded school (in addition to any proposed governance roles).** Explain the plan for building family-school partnerships that strengthen support for learning and encourage parental involvement. Describe any commitments or volunteer activities the school will seek from, offer to, or require of parents.
- (4) Discuss the community resources that will be available to students and parents at the expanded school. Describe any new strategic partnerships the expanded school will have with community organizations, businesses, or other educational institutions that are part of the school's core mission, vision, and program other than dual-credit partners discussed in subsequent sections. Specify the nature, purposes, terms, and scope of services of any such partnerships, including any fee-based or in-kind commitments from community organizations or individuals that will enrich student-learning opportunities. Include, as an Attachment ___, existing evidence of support from new community partners such as letters of intent/commitment, memoranda of understanding, and/or contracts.
- (5) **Describe the school's ties to and/or knowledge of the target community**. How has the school learned from and engaged with this community to date? What initiatives and/or strategies will you implement to learn from and engage the neighborhood, community, and broader city/county?
- (6) Identify any organizations, agencies, or consultants that are partners in planning and expanding the school, along with a brief description of their current and planned role and any resources they have contributed or plan to contribute to the school's development. If the school is new to this county, describe how your previous work has prepared you to establish relationships and supports in this new community.

C) ACADEMIC PLAN

MISSION & VISION

The mission of your school should describe the purpose of your school, including the students and community to be served and the values to which you will adhere while achieving that purpose. The vision of your school should describe what success looks like for students, for the school as a whole, and for any other entities that are critical to your mission. The mission and vision statement should align with the purposes of the Nevada charter school law and the mission of the State Public Charter School Authority and serves as the foundation for the entire proposal.

Explain whether the proposed mission and vision for the school/network is different from the existing school's mission and vision and how they differ. Describe the reasoning behind any modifications.

Explain whether the mission and vision outlined will replace the current mission and vision of the charter holder, or if the school proposes to complement a broader organizational mission and vision with campus or grade-level specific variants. How will the entity as a whole ensure consistency and coherence of its mission and vision?

CURRICULUM & INSTRUCTIONAL DESIGN

The framework proposed for instructional design must both reflect the needs of the anticipated population and ensure all students will meet or exceed the expectations of the Nevada Academic Content Standards.

- (1) Historical Performance
 - (a) **Performance Data:** schools are only eligible to complete the amendment request and business plan if the existing schools meet the Authority's eligibility criteria; these criteria reflect a proven academic track record of success with Nevada students and our operating expectations or similar performance in another state.
 - (i) A school is welcome to provide any additional historical academic performance metrics that fall outside of the operator's contractual performance plan (e.g. average student growth on an adaptive test such as ACT Aspire, NWEA MAP, SCANTRON, Renaissance Learning's STAR, etc.). If provided, describe student performance on these metrics.
 - (ii) Please only provide data in vendor-produced score reports and note that the Authority may require additional time and resources to review and vet such data.
 - (b) **Interventions**: Please explain any past performance that has not met the organization's expectations. How was the underperformance diagnosed, how were appropriate intervention(s) determined, and how are they being implemented? What are the key areas in which existing schools/campuses need to improve, and what are the priorities to drive further success?
- (2) Academic Vision and Theory of Change
 - (a) Model Non-Negotiables: What are the key non-negotiables (i.e. the key school design components, policies, practices, etc. that underlie school culture and academic outcomes) of your school model? Please include details about the critical elements that are constant across the organization's schools and those that may vary. Discuss any campus-level autonomies in implementing the educational plan.
- (3) Performance Management
 - a) **Measuring Progress:** Describe the school's approach to performance management across the network and with individual campuses, including the systems used to measure and evaluate both academic and non-academic performance of each site and of the network as a whole.
 - a. What performance management systems, processes, and benchmarks will the school use to formally assess this progress?
 - b. Explain how the school addresses underperformance and describe the corrective action plan procedures.
 - b) **Closure:** Describe the conditions that would cause the school to petition the Authority close a consistently low performing campus. Be specific about threshold metrics the school would use to inform its decision.

- c) **College Readiness (HS Only):** Describe the mechanisms that the school employs to accurately, reliably, and consistently track college acceptance, enrollment, and persistence rates. If historical data is available on college acceptance, enrollment, and/or persistence rates, please include it. Cite the percent of total alumni for which the school has data on each metric. If data is not available, please include plans to create mechanisms to accurately, reliably, and consistently track student acceptance, enrollment, and persistence rates.
- d) **Readiness to Replicate:** What academic, financial, and operational metrics does the school and its Board use to determine readiness for replication?
- e) **Compliance:** Describe the proposed academic program and how it complies with the requirements of NRS 388A.366(1)(f) and NRS 389.018. Please complete the scope and sequence/standards alignment template (Excel document at

http://CharterSchools.nv.gov/uploadedFiles/CharterSchoolsnvgov/content/Grocers/Alignment Template.xlsx) for each class scheduled to be provided by the school for each grade level to be served following this proposed expansion. For example, a school that currently serves students in K, 1, and 2 which seeks to add grades 3 and 4 would provide the scope and sequence/standards alignment for each class/subject area in the grades currently served along with the scope and sequence/alignment for each of the proposed new grades.

- f) Instructional Strategies: Describe the instructional strategies that you will implement to support the education plan and why they are well suited for the anticipated student population—including a detailed discussion of these strategies for both the expanded grades and for all existing grades. For each grade level to be served by the charter school following the expansion, identify and describe in detail the data, methods, and systems teachers will use to provide differentiated instruction to students. Please note that SPCSA schools typically start with students performing across a broad spectrum from years below grade level to advanced learners. Include the professional development teachers will receive to ensure high levels of implementation.
- g) **Remediating Academic Underperformance:** Describe the school's approach to help remediate students' academic underperformance both for both the expanded grades and for all existing grades. Detail the identification strategy, interventions, and remediation to be implemented. Cite the research/rationale for the chosen methods. How will you measure the success of your academic remediation efforts (in year 1 of the expansion, year 3, year 5, and beyond? How will you communicate the need for remediation to parents? How will staffing be structured to ensure that gifted students are adequately supported?
- h) **Identifying Needs:** Describe how you will identify the needs of all students in both the expanded grades and for all existing grades. Identify the research-based programs, strategies and supports you will utilize to provide a broad continuum of services, ensure students' access to the general education curriculum in the least restrictive environment, and fulfill NV's required Response to Intervention model.
- i) **Intellectually Gifted Students:** Explain how the school will identify and differentiate to meet the needs of intellectually gifted students in both the expanded grades and for all existing grades in a way that extends their learning and offers them unique, tailored opportunities. Please note that Nevada law classifies intellectually gifted students as eligible for specific support services. How will staffing be structured to ensure that gifted students are adequately supported?
- j) **Enrichment Opportunities:** Describe the enrichment opportunities that will be available to students performing at or above grade level in both the expanded grades and for all existing grades as part of the school's comprehensive strategy to ensure that all pupils are making accelerated academic progress.
- k) Matriculation: Explain how students will matriculate through the school (i.e., promotion/retention policies) and how stakeholders will be informed of these standards.

SCHOOL STRUCTURE: CALENDAR AND SCHEDULE

- a) Discuss the annual academic schedule for the school, including the calendar for the proposed new grades. Explain how the calendar reflects the needs of the student population and the educational model.
- b) Describe the structure of the school day and week for both the proposed new grades and for existing grades. Include the number of instructional minutes/hours in a day for core subjects such as language arts, mathematics, science, and social studies. Note the length of the school day, including start and dismissal times. Explain why the school's daily and weekly schedule will be optimal for the school model and for

student learning. Provide the minimum number of hours/minutes per day and week that the school will devote to academic instruction in each grade.

c) Describe your goal for student attendance and explain how you will ensure high rates of student attendance. Who will be responsible for collecting and monitoring attendance data? What supports will be in place to reduce truancy and chronic absenteeism?

DISTANCE EDUCATION

(Distance Education Expansion Amendments)

A charter school that wishes to provide distance education (online, virtual, cyber, etc.) courses and/or programs (NRS 388.820-388.874 and NAC 388.800-388.860) must submit a distance education application to the Nevada Department of Education prior to or in conjunction with its amendment request to the SPCSA.

For applicants who do not propose to offer a program of distance education or who already have approval to operate such a program, please provide a brief statement explaining that the questions in this section are not applicable.

- (1) Describe the system of course credits that the school will use.
- (2) Describe how the school will monitor and verify the participation in and completion of courses by pupils.
- (3) Describe how the school will ensure students participate in assessments and submit coursework.
- (4) Describe how the school will conduct parent-teacher conferences.
- (5) Describe how the school will administer all tests, examinations or assessments required by state or federal law or integral to the performance goals of the charter school in a proctored setting.

PRE-KINDERGARTEN PROGRAMS

(All Operators Currently Operating or Proposing to Operate Pre-K)

A charter school that wishes to provide pre-kindergarten services to students who will later enroll in its K-12 programs must apply separately to the Nevada Department of Education to offer education below the kindergarten level following charter approval. Approval to offer pre-kindergarten cannot be guaranteed. Consequently, revenues and expenditures related to pre-kindergarten should not be included in the initial charter application budget. Please note that state-funded pre-kindergarten programs are not directed through the state Distributive Schools Account for K-12 education. In addition to a limited amount of state pre-kindergarten funding available through the Department of Education, the SPCSA is also a sub-recipient of a federal grant to expand early childhood services in certain high-need communities through programs approved by NDE. Applicants are encouraged to review resources available at http://www.doe.nv.gov/Early_Learning_Development/. For applicants who do not propose to offer pre-kindergarten, please provide a brief statement explaining that the questions in this section are not applicable.

- (1) Identify whether the school plans to offer pre-kindergarten in the first year of operation at the new campus or in any subsequent year of the charter term.
- (2) Identify whether the school will offer fee-based pre-kindergarten services. If the school does plan to offer fee-based pre-kindergarten, explain how the school will ensure that parents will be informed both initially and on an ongoing basis that both state and federal law preclude a K-12 charter school from giving admissions preference to students to whom it has previously charged tuition.
- (3) Describe the school's plans for ensuring that the pre-kindergarten program aligns with the mission, vision, and program of the school's other grades and meets all other state requirements.
- (4) Explain how the school's proposed pre-kindergarten program may meet the federal pre-kindergarten expansion grant criteria.

HIGH SCHOOL GRADUATION REQUIREMENTS AND POSTSECONDARY READINESS

(New High School Amendments Only)

High schools approved by the SPCSA will be expected to meet or exceed Nevada graduation requirements. For operators who do not propose to operate a high school program during the initial charter term or who already have approval to operate a high school, please provide a brief statement explaining that the questions in this section are not applicable.

- (1) Explain how the school will meet state requirements. Describe how students will earn credit hours, how grade-point averages will be calculated, what information will be on transcripts, and what elective courses will be offered. If graduation requirements for the school will exceed those required by the State of Nevada, explain the additional requirements.
- (2) Explain how the graduation requirements will ensure student readiness for college or other postsecondary opportunities (e.g., trade school, military service, or entering the workforce).
- (3) Explain what systems and structures the school will implement for students at risk for dropping out and/or not meeting the proposed graduation requirements, including plans to address students who are overage for grade, those needing to access credit recovery options, and those performing significantly below grade level.

SPECIAL POPULATIONS

Pursuant to State and federal law, SPCSA schools are required to serve the needs of all students in special populations. Beginning in the 2017-18 school year, the State of Nevada will switch to a weighted formula for special education. For the first time, this will provide for equitable special education funding across all Nevada public schools. Over time, this will necessitate current SPCSA-sponsored charter schools moving from a defined continuum of service to a broader continuum of services. All operators submitting amendment requests to the SPCSA after the conclusion of the 2015 Legislative Session should plan on offering students a broad continuum of services.

The SPCSA operates under the following principles with regards to special populations of students:

SPCSA schools serve all eligible students. SPCSA schools do not deny the enrollment of any student based on needs or disability.

- 1. SPCSA schools are to ensure streamlined access for all students requiring special programs.
- 2. SPCSA schools develop programs to support the needs of their students.
- 3. SPCSA schools do not counsel or kick any students out.
- 4. SPCSA schools utilize best practices to expose students to the most inclusive environments appropriate.
- 5. If needed, an SPCSA school is responsible for developing more restrictive placements to meet the needs of the highest needs students, including but not limited to clustered placements in consortium with other charter schools.
- 6. SPCSA schools are responsible for providing high functioning, trained special education teams, which focus on student advocacy and high expectations. IEP teams (including school's leadership) make placement decisions at IEP meetings. Decisions are made based on evidence/data to support what is best for the student.

Special Education

- (1) Track Record: Please explain the extent to which the board and leadership team (instructional leader, etc.) has experience working to achieve high academic outcomes of students with disabilities, including students with mild, moderate, and severe disabilities.
- (2) Identification: Describe in detail the school's Child Find process. How will the school identify students in need of additional supports or services?

- a) (*Elementary Schools Only*) How will the school accurately identify students prior to and following enrollment (e.g., those who require pre-school special education and related services) and in the early grades (PreK, K, 1, or 2) for appropriate services?
- b) (*Middle and High Schools*) How will the school identify and serve students who require special education services and develop transition plans?
- (3) (*All Schools*) How will the school handle over-identification of students as having a disability that qualifies them for special education services? What will be the process to transition a student out of special education who has been incorrectly identified as having a disability in the past?
 - a) Continuum of Services: How will the school provide a broad continuum of instructional options and behavioral supports and interventions for students with a range of disabilities? Specifically describe how students with severe intellectual, learning, and/or emotional disabilities will be served. Provide a chart which graphically illustrates the continuum of services which identifies, by disability and level of severity, the means by which students with disabilities will be able to receive an appropriate public education in the least restrictive environment (note—this graphic may be created using a commercial program like Microsoft Visio or a free or low-cost internet-based solution such as Lucidchart). Identify the resources, personnel (including administrative responsibilities), and direct and related services the school is likely to provide both within general education classrooms and in other settings (e.g., collaborative team teaching (CTT), Special Education Teacher Support Services (SETSS), speech therapy, physical therapy, occupational therapy, counseling, etc.) as well as the services or settings that will be provided through a consortium or other collaborative initiative with other charter schools or through a third party contract.

Staffing

How will you ensure qualified staffing to meet the needs of students with disabilities across a broad continuum? Note: Federal and Nevada law requires licensure for the special education teachers, related service personnel, and psychologists at all charter schools, including those which are permitted to waive other licensure requirements due to their academic track record.

- (1) Staff Development: How does the school plan to train general education teachers to modify the curriculum and instruction to address the unique needs of students with disabilities across a broad continuum?
- (2) Discipline: Explain how the school will protect the rights of students with disabilities in disciplinary actions and proceedings and exhaust all options in order to promote the continuation of educational services in the home school.
- (3) Monitoring: What are your plans for monitoring and evaluating both the progress and success of students who qualify for special education and related services across a broad continuum, and the extent to which your special education program complies with relevant federal and state laws? How will curriculum and instructional decisions be tracked and monitored by IEP teams and school personnel?
- (4) Parental Involvement: What appropriate programs, activities, and procedures will be implemented for the participation of parents of students with a broad range of disabilities?
- (5) For Distance Education Schools: Describe how the school will provide appropriate services in the distance education learning environment to students with disabilities across a broad continuum. *If you are not proposing to operate a distance education or virtual school, please explain that this is not applicable.*

HUMAN CAPITAL STRATEGY

Describe your strategy, plans, and timeline for recruiting and hiring teachers for a multi-site charter school. Explain key selection criteria and any special considerations relevant to your school design. *Note: schools with strong track records of academic success, as determined by the Department of Education, are eligible to waive teacher licensure requirements for all teachers except for special education and ELL professionals as long as they meet all other federal and state requirements. Maintaining such a waiver is contingent on the school continuing to achieve at the 3 Star level or higher (or equivalent) on the statewide system of accountability. Please refer to Section 46 of SB509 (2015 session) for additional information.*

- a) **Recruitment:** Identify whether recruitment will be managed at the campus or network level. Identify key partnerships and/or sources the operator will rely upon of teachers and leaders. Discuss how the compensation structure enables the organization to attract and retain high quality staff and describe any incentive structures such as bonuses or merit pay. Compare the proposed salary ranges to those in other organizations, charter schools and local districts, as applicable.

SCALE STRATEGY

- a) Describe the steps that you will take to scale your model to new sites, including the people involved and the resources contributed both by the founding campus and the new campuses.

In the case of a charter management organization proposing to contract with an education management organization, service goals should be outlined in the term sheet and draft contract provided later in Attachment____. Note that Nevada law allows charter schools to contract for the management or operation of the school with either a for-profit or non-profit education management organization.
- f) Using the table below, summarize the division school- and organization-level decision-making responsibilities as they relate to key functions, including curriculum, professional development, culture, staffing, etc. This division of responsibilities will be evaluated both in the context of Nevada law and regulation and best organizational and authorizing practices nationally.

STUDENT RECRUITMENT AND ENROLLMENT

Like all public schools, public charter schools must be open to any such child, regardless of that child's race, gender, citizenship, or need for accommodations or special education services. Thus, recruitment and enrollment practices should demonstrate a commitment to providing all students equal opportunity to attend the school, and help schools avoid even the appearance of creating barriers to entry for eligible students.

- a. Explain the plan for student recruitment and marketing for the new campuses that will provide equal access to interested students and families, including how the school will comply with the requirements of SB208 (2015 session). Specifically, describe the plan for outreach to: families in poverty; academically low-achieving students; students with disabilities; and other youth at risk of academic failure. For schools which are giving one or more statutorily permissible admissions preferences pursuant to NRS 386.580 or SB390 (2015 session), please indicate if you plan to focus your student recruitment efforts in specific communities or selected attendance areas.
- b. Provide a detailed discussion of the school's track record in recruiting and retaining students that reflect the ethnic, socio-economic, linguistic, and special needs diversity of the current charter school and each campus to at least the level reflected by the attendance zones where the charter school will operate facilities before approving the proposal. Please provide the school's past enrollment and retention performance for all years since the inception of the school broken out by race, ethnicity, language other than English, disability and 504 status, and eligibility for free and reduced priced lunch both as a school and in comparison, to the school's current zoned schools.
- c. Detail how the school's programmatic, recruitment, and enrollment strategies are designed to recruit, enroll, and retain a student population that is representative of the zoned schools which prospective students would otherwise attend in the community. Schools which do not currently represent their communities based on the data identified above and are not serving an at-risk population are expected to add several of the following programmatic, recruitment, and enrollment strategies to merit approval: (1) participation in state-funded pre-K programs (including federal pre-K) for low-income students; (2) substituting online and social media marketing which advantages affluent and well-connected populations with a community-based, grassroots campaign which targets high need populations in the community, including aggressive door-to-door outreach and publishing marketing materials in each language which is spoken by more than 5 percent of families within each attendance zone; (3) an explicit commitment to serving a broad continuum of students with disabilities and the expansion of programs, including cluster programs or consortia, to meet the needs of a

broad spectrum of student needs; (4) a weighted lottery² which provides additional opportunities for specific target populations to be admitted to the school in a manner consistent with state and federal law; and (5) other enrollment policies and strategies which have had a demonstrated track record of success in dramatically increasing the diversity of student populations in a high achieving charter school to at least the poverty, disability, and ELL profile of the zoned school.

- d. What is the enrollment calendar for both the first year of operation and subsequent years of operation? Please specify the dates on which the school will begin accepting applications and how long the enrollment window will last prior to conducting a lottery.
- e. What enrollment targets will you set and who will be responsible for monitoring progress towards these targets? What is your target re-enrollment rate for each year? How did you come to this determination? What are the minimum, planned, and maximum projected enrollment at each grade level? Outline specific targets in the table below.
- f. What systems will you put in place to ensure that staff members are knowledgeable about all legal enrollment requirements pertaining to special populations and the servicing of particular populations of students and can answer parent inquiries in a manner consistent with the letter and spirit of state and federal law?
- g. Describe the student recruitment plan once your school has opened. In what ways will it be different than your pre-opening year, in terms of the strategies, activities, events, persons responsible and milestones? How will the school backfill vacancies in existing grades?
- h. Complete the following tables for the proposed school to open in 2023-24. Schools applying for multiple campuses must complete enrollment summary tables for each school campus opening in fall 2023 and fall 2024.
 - Minimum Enrollment (Must Correspond to Break Even Budget Scenario Assumptions discussed in budget narrative) Complete using Excel file "RFA Staffing and Enrollment Worksheets."

- 3. In this space and in the finances section, demonstrate how you will fund the provision of the services below which you are requesting approval to implement.
 - i. Transportation: Describe your plans for providing student transportation. If the school will not provide transportation, please identify how the school will ensure that this does serve as a barrier to enrollment or ongoing attendance.
 - ii. Food Service: Outline your plans for providing food service at the school, including whether and how you will be your own school food authority or will contract with another provider.  - iv. Safety and security (include any plans for onsite security personnel)
 - v. Other services
- 4. Technology: Outline the technology infrastructure and support mechanisms across your school, staff, and teachers. Your outline should include but not be limited to reliable and secure wide area networking, local area networking (e.g., wireless and cables), hardware (e.g., personal computing devices, servers, telephony, storage, routers, switches), technology policies and procedures, device management, and end user support, including the management of user rights and privileges.
- 5. Student Information Management: Timely communication of accurate student information is critical for payments to schools, compliance, and performance monitoring. Please describe how you will manage student

information using the statewide Infinite Campus system, and how you will build capacity around the use of the software in order to independently maintain the system. ONGOING OPERATIONS

- 1. SPCSA schools coordinate emergency management with local authorities. Explain your process to create and maintain the school's Emergency Management Plan required by the State of Nevada. Include the types of security personnel, technology, equipment, and policies that the school will employ. Who will be primarily responsible for this plan? Types of insurance should include workers' compensation, liability insurance for staff and students, indemnity, directors and officers, automobile, and any others required by Nevada law or regulation. As the minimum coverage required by Nevada law and regulation is intended as a baseline requirement for schools which operate at a significantly smaller scale, schools requesting an amendment are expected to research the levels of and types of insurance coverage typically required of and obtained by multi-site charter school networks in other states, including but not limited to Arizona, California, Colorado, the District of Columbia, Massachusetts, and New York, and crosswalk those levels of coverage with those the school intends to obtain to ensure that the governing body and network leadership is fully cognizant of the complexity of risk management in a multi-site context.
