First I would like to thank the SPCSA staff for reading my letter and the board for listening.

I am a teacher with over 20 years experiences and I have never witnessed an administrative team work as hard as the one at Eagle Charter School. I've seen them aid the homeless children with clothing, food and a secure environment. In a time of produce or loose your job, they instruct and offer solutions. They are the first to arrive and the last to leave.

Picture a child shabbily dressed, shoes dirty, holes, and they come hungry, learning is the last thing on their minds. However today their parent/s have enrolled them into Eagle Charter School. Where on his first day of school one of the administrative team offered them a new uniform, shoes and a place to wash and brush their teeth; and as an added bonus, have ensured the teachers give them the best academic instruction they can provide. We have a great need to instruct the whole child in an environment that is rapidly changing, but continues to need the basic skills that Eagle Charter School provides. As a child of a low income environment, I know a caring administrative team produces outstanding students, higher test scores and hard working patriotic Americans.
