I want to put on the record that there were many inaccuracies in the Termination Memo from "SPCSA staff" in the June 21 SPCSA board meeting.

The public comment made at the end said SPCSA staff were looking at the wrong budget. The SPCSA staff never mentioned this in the meeting. They were not transparent to the public about their mistakes and the board members did not hold them accountable.

I don't believe that the SPCSA board members reviewed what was submitted by Eagle Charter Schools for the June 21 board meeting. And they didn't care.

In my opinion the Termination Notice should have been rescinded and the man's statement that he made in public comment should have been investigated by the board.

I'm not a lawyer but... The Notice cannot be valid if it is based on false information from SPCSA staff.

Our group will make ourselves as educated as possible about matters like this to save the future of our children's education. I encourage every parent to do the same. Otherwise they will shut down our schools and continue to deny our children the right to a free public education in a school of our choice.
