MEMORANDUM

TO: SPCSA Board
FROM: Katie Broughton, Director of Authorizing
Michael Gawthrop-Hutchins, Management Analyst III
SUBJECT: Financial Performance Framework Recommendations for Fiscal Year 2024:
Nevada Prep
DATE: March 7, 2025

Background

All SPCSA charter schools are evaluated on the SPCSA Financial Performance Framework (FPF). All public charter schools are required to undergo an annual financial audit conducted by an independent third-party, as outlined in [NAC 387.775](#). The results of the annual audits are then analyzed against the SPCSA Financial Performance Framework.

The SPCSA is responsible for ensuring that sponsored schools are financially stable and meet the SPCSA board-approved financial performance standards, adopted pursuant to [NRS 388A.273](#). These standards are designed to ensure schools maintain financial stability, safeguarding their ability to operate effectively and serve students both now and in the future.

The SPCSA Financial Performance Framework includes eight indicators, four aimed at assessing the near-term health of a school and four aimed at assessing the long-term sustainability and viability of a school. For each indicator, schools receive one of three ratings: Meets Standard (MS), Does Not Meet the Standard (DNMS), or Falls Far Below the Standard (FFBS).

As stated in the SPCSA [Financial Performance Framework Technical Guide](#), poor financial performance measure ratings may result in intervention by the SPCSA. A school with financial framework profile results that include at least one indicator rated Falls Far Below Standard and/or at least three indicators rated at Does Not Meet Standard is generally considered out of compliance with the Financial Performance Framework. The indicators are as follows.

	Meets Standard	Does Not Meet Standard	Falls Far Below Standard

Current Ratio	Greater than or equal to 1.1	Between 0.90 and 1.0	Less than 0.9

Enrollment Variance	Y1 Schools: 90%+ Y2 Schools: 92.5%+ All Others: 95%+	Between 85% and 95%	Less than 85%

Debt to Asset Ratio	Less than 0.9	Between 0.90 and 1.0	Greater than 1.0
Cash Flow	Multi-year cash flow and most recent year cash flow are positive.	Multi-year cash flow OR most recent year cash flow are negative.	Both multi-year cash flow and most recent year cash flow are negative.
Debt/Lease Service Coverage Ratio	Ratio is greater than or equal to 1.10 or school does not have outstanding loan or long-term lease.	Ratio is less than 1.10.	N/A

Any school that materially fails to comply with the Financial Performance Framework may trigger revocation proceedings should financial performance not improve. Any school identified as such is typically issued a Notice to ensure the school and its governing board are aware of the material failure to comply with the Financial Performance Framework in alignment with [NRS 388A.330](#). As a reminder, the Authority has three levels of intervention when schools do not meet organizational standards. These levels are as follows:

- Notice of Concern
- Notice of Breach
- Notice of Intent to Revoke

Nevada Prep earned six “Falls Far Below Standard” ratings and one “Does Not Meet Standard” rating for Fiscal Year 2024. The school was issued a Notice of Concern for FY23, and the ratings for FY24 make the school eligible for a Notice of Breach. There is some important information to note regarding these ratings:

- The Current Ratio decreased from 0.51 to 0.3, which indicates the school’s current liabilities are greater than their current assets.
- Unrestricted Days Cash on Hand decreased from 1.3 days in FY23 to 0 days in FY24, which is alarmingly low. This indicates the school may be operating month-to-month as it receives its Pupil-Centered Funding revenue.
- Regarding the Debt Default rating, the school missed three lease payments. These missed payments were reported in the Annual Audit.
- The Enrollment Variance improved from 59% in FY23 to 95.25% in FY24.
- The Current Year Margin calculation improved from -58.4% in FY23 to -27.9% in FY24, indicating the school is still experiencing a significant loss relative to its revenue. The Aggregated 3-Year Margin declined from -28.9% to -39.4%.
- The Debt to Asset Ratio worsened from 1.146 in FY23 to 1.192 in FY24, which indicates the school’s debts are greater than their assets.
- The One Year Cash Flow improved but remains negative. The Multi Year Cash Flow worsened and remains negative.
- The Debt/Lease Coverage Ratio improved from -0.55 in FY23 to -0.11 in FY24, which indicates the revenue of the school is insufficient to cover its debt and lease obligations.

Overall, SPCSA staff remains incredibly concerned about the financial health and viability of the school. The audit reports a negative end fund balance that worsened from FY23 by 50%. SPCSA staff is concerned that this is a violation of [NAC 387.730](#). Additionally, the debt is consuming approximately 30% of the state revenue received by the school.

SPCSA staff asked the school to provide additional documentation, including an explanation of the negative ending fund balance, an explanation of all short-term and long-term debt, a copy of the current lease agreement, and a 5-year financial forecast. The school did not provide any additional financial information for SPCSA staff to review.

Finally, per SPCSA board action from FY23, Nevada Prep has submitted monthly financial statements. In the monthly financial statement submitted on behalf of the school for January 2025, the projections indicated the school would have negative days cash on hand beginning in

February 2025. The school's leadership and governing board indicated these projections were incorrect and they would provide updated and accurate projections by February 28th, 2025.

Ultimately, SPCSA staff is recommending the SPCSA board elevate the school to a financial Notice of Breach.

Proposed Motion: Issue a Notice of Breach under the Financial Performance Framework to Nevada Prep.
