I believe this is the applicant that met with me in late 2023. At the time they were still in the idea phase and searching for potential facilities/campus.

Are there currently any schools providing a similar educational model in the community in which the applicant proposes to locate? If yes, please provide any relevant information on the current school(s) with similar educational models that are available to students in the community.

Is there any other additional information you wish to provide?

No. However, you are welcome to reach out to me directly if you have any follow up questions I may be of assistance with.
