Presentation Outline

Academic Performance Ratings Overview

a. 2025-26 Nevada School Performance Framework (NSPF) results

- The Nevada School Performance Framework (NSPF) rating system aligns with federal law requiring states to use a school rating system. Each September, the Nevada Department of Education (NDE) publishes NSPF star ratings for all public schools.

b. 2025-26 SPCSA Academic Performance Framework results

- An Academic Performance Framework is required by Nevada state law in all charter school contracts. Each fall, SPCSA staff calculate SPCSA Academic Performance Framework ratings based on NSPF and charter school-specific measures, which provide additional information relevant to authorizing decisions.
- **Recommended action: Adopt the 2025-26 SPCSA Academic Performance Framework results.**

Nevada School Performance Framework (NSPF) Refresher

- The federal Every Student Succeeds Act (ESSA) requires each state to use an accountability system to annually rate all public schools within that state. ESSA also requires states to use their accountability system to identify low performing schools and schools with low performing student groups.
- The NSPF meets those requirements by issuing an annual index score and corresponding star rating to schools based on performance in various measures. The Nevada Department of Education (NDE) also uses the NSPF to identify schools with low performance and/or low performing student groups.

2025-26 NSPF: Identification of Low-Performing Schools

The federal Every Student Succeeds Act (ESSA) requires states to use their rating system to identify low performing schools and schools with low performing student groups.

Comprehensive Support and Improvement (CSI)
Lowest performing schools in the state (statewide lowest 5th percentile NSPF score, <67% graduation rate). Schools spend three years as a CSI school and must meet certain criteria to exit.

2025-26 NSPF: Identification of Low-Performing Schools (continued)

The federal Every Student Succeeds Act (ESSA) requires states to use their rating system to identify low performing schools and schools with low performing student groups.

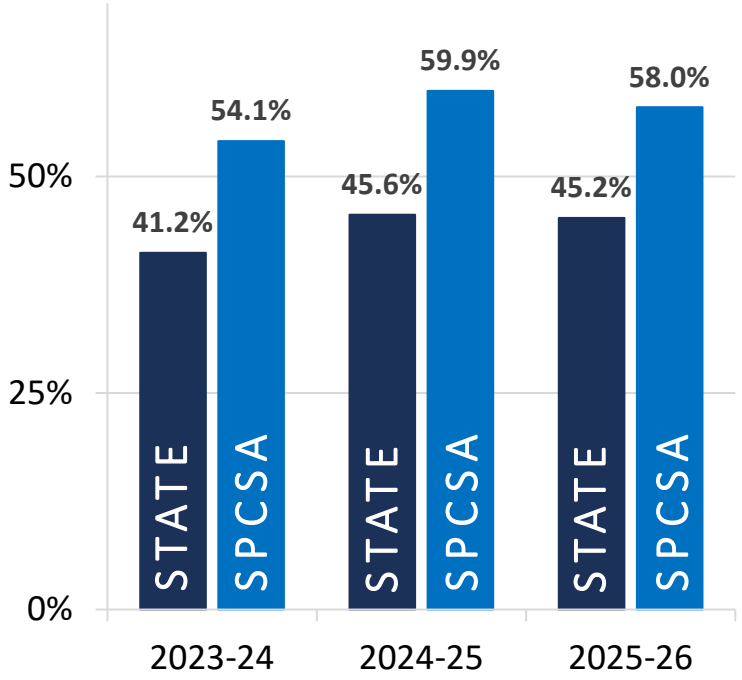

Additional Targeted Support and Improvement (ATSI)
Schools with very low performing student groups (lowest 5th percentile NSPF score). Schools spend three years as an ATSI school and must meet certain criteria to exit.

2025-26 SPCSA vs. State: Smarter Balanced Proficiency Trends

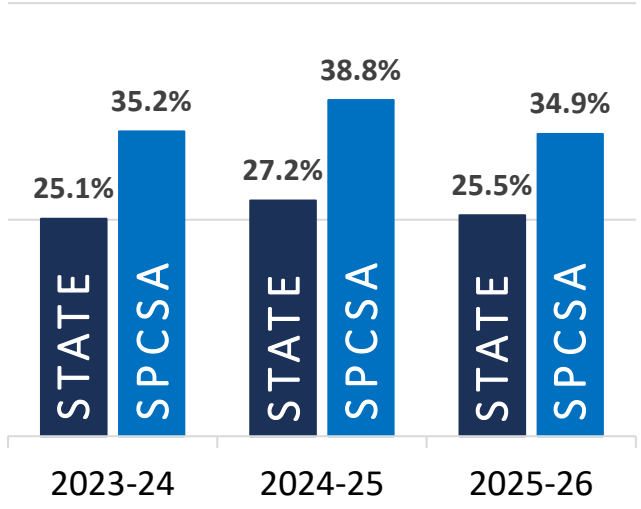

ELA (grades 3-8)

MATH (grades 3-8)

SCIENCE (grades 5 and 8)

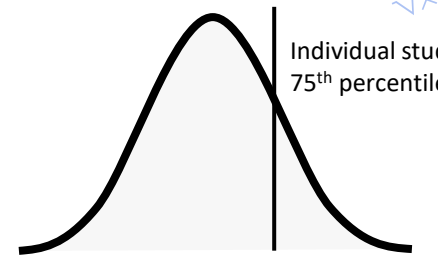

SBAC proficiency rates (overall and for most student groups) decreased over the last year but still outperform the state.

Nevada State Public Charter School Authority

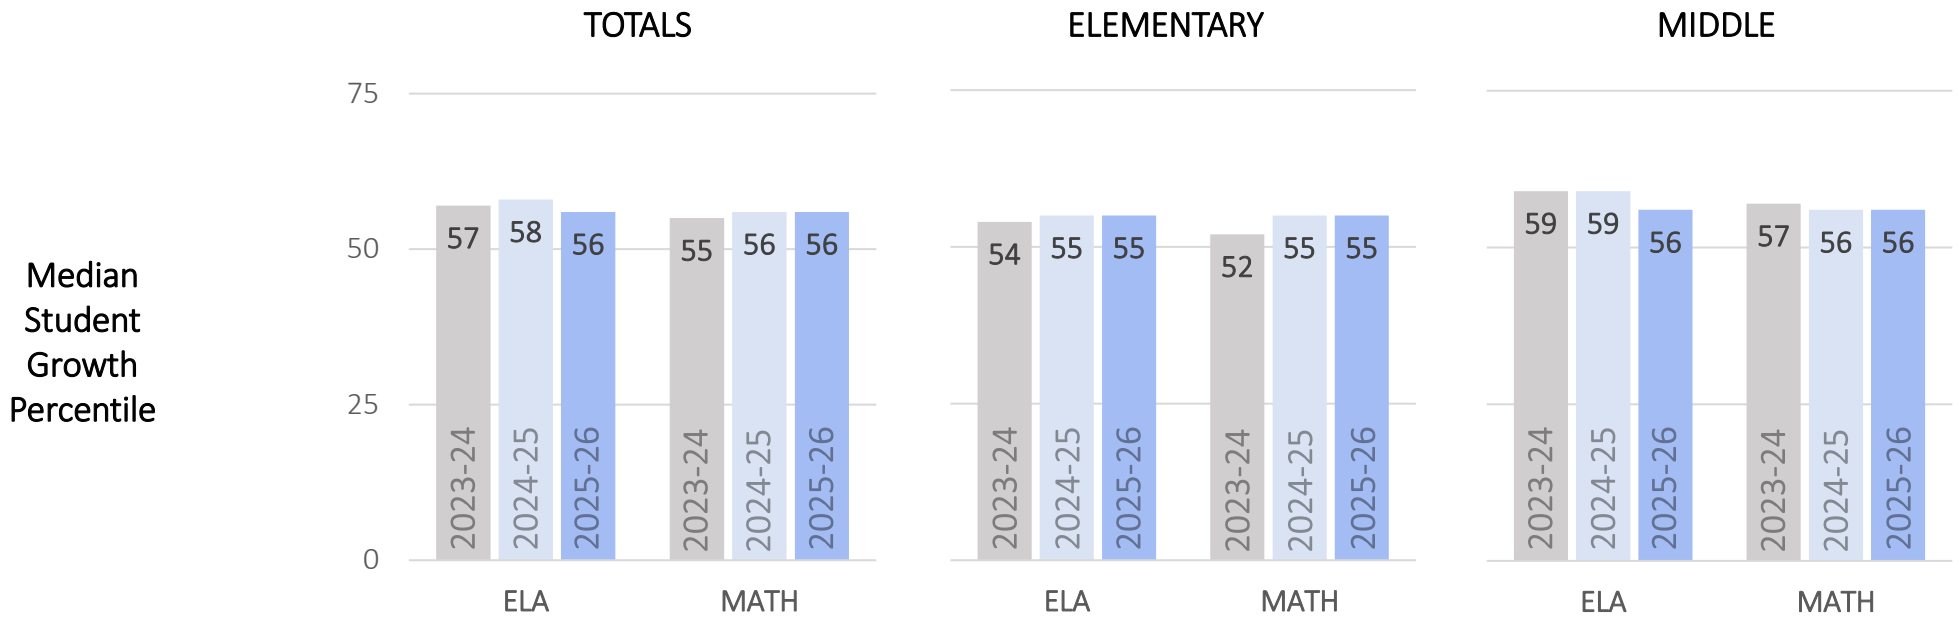

Data retrieved from the Nevada Accountability Portal, which uses slightly different rules from the NSPF. Data displayed include the three most recent years available. See attachment for tabulated data including student group and high school proficiency.

SPCSA NSPF Median Growth Percentiles Trend

- The NDE uses at least two years of a student's Smarter Balanced assessment data to calculate growth.
- The NDE calculates how much growth a student has made—compared to their peers—via a Student Growth Percentile (SGP) from 1 to 99. An SGP of 75 means a student has shown more growth than 75% of their peers.
- A school Median Growth Percentile (MGP) is the median of all student SGPs.

Graph of all student performance in state

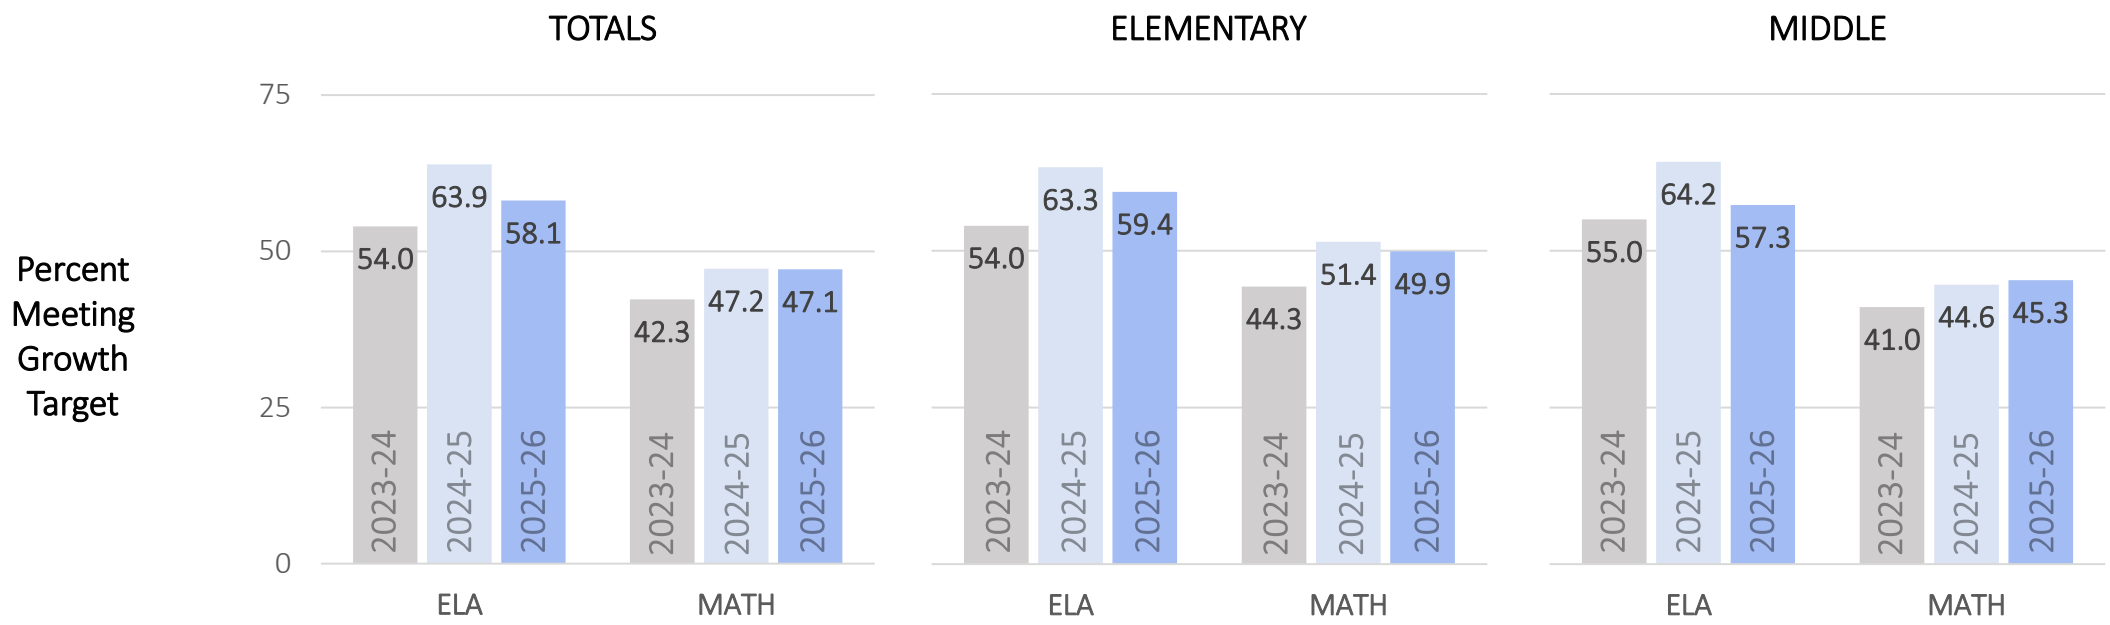

Generally, median growth trends are mixed over time.

Nevada State Public Charter School Authority

Medians calculated by SPCSA using NSPF rules. Data displayed include the three most recent available years.

SPCSA NSPF Meeting Growth Targets Trend

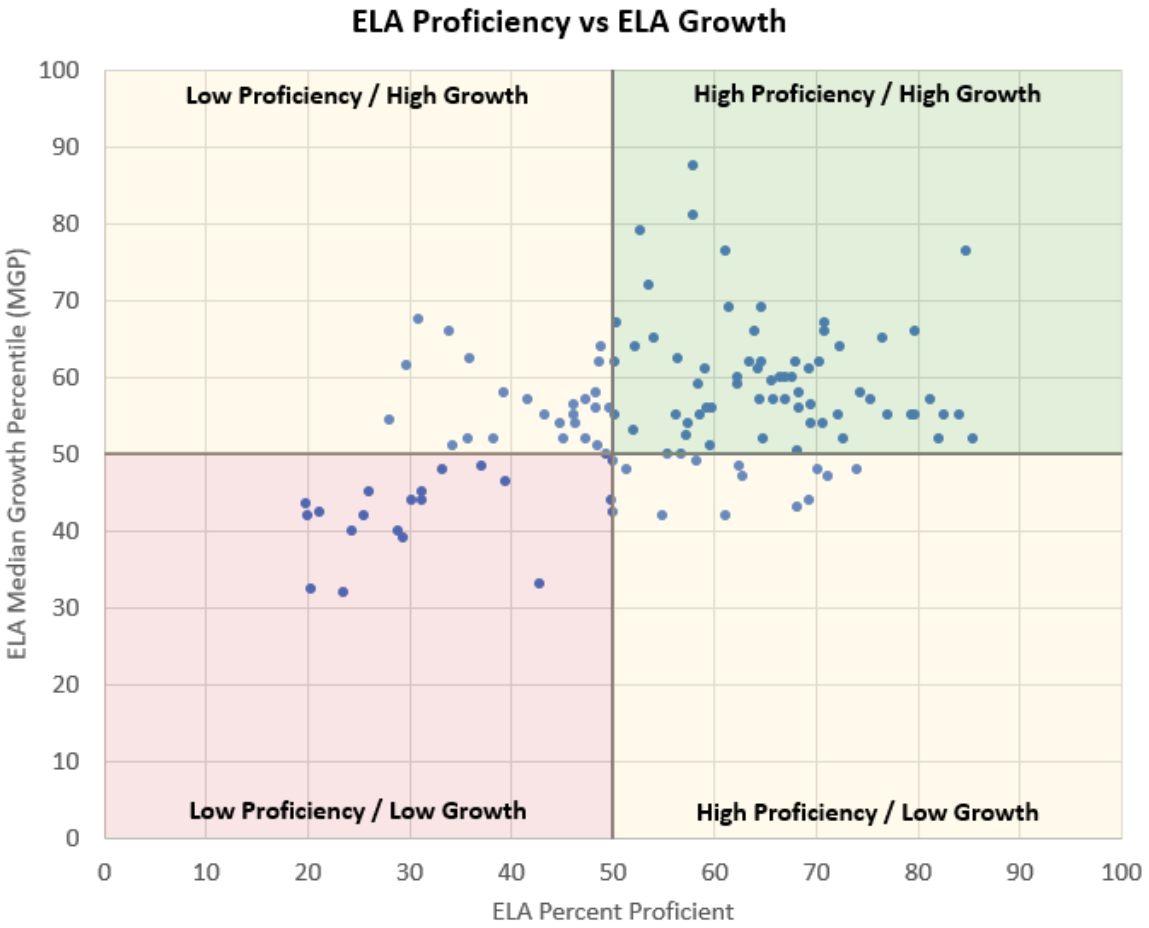

- The NDE uses Adequate Growth Percentiles (AGP) to determine if a student has made enough growth to be on track to remain or become proficient.
- A school AGP rate is the percent of students meeting their growth target. If a student meets their target, they are on track to remain or become proficient.
- Adequate Growth Percentiles is worth up to 15 points in the elementary school NSPF and up to 10 points in the middle school NSPF.

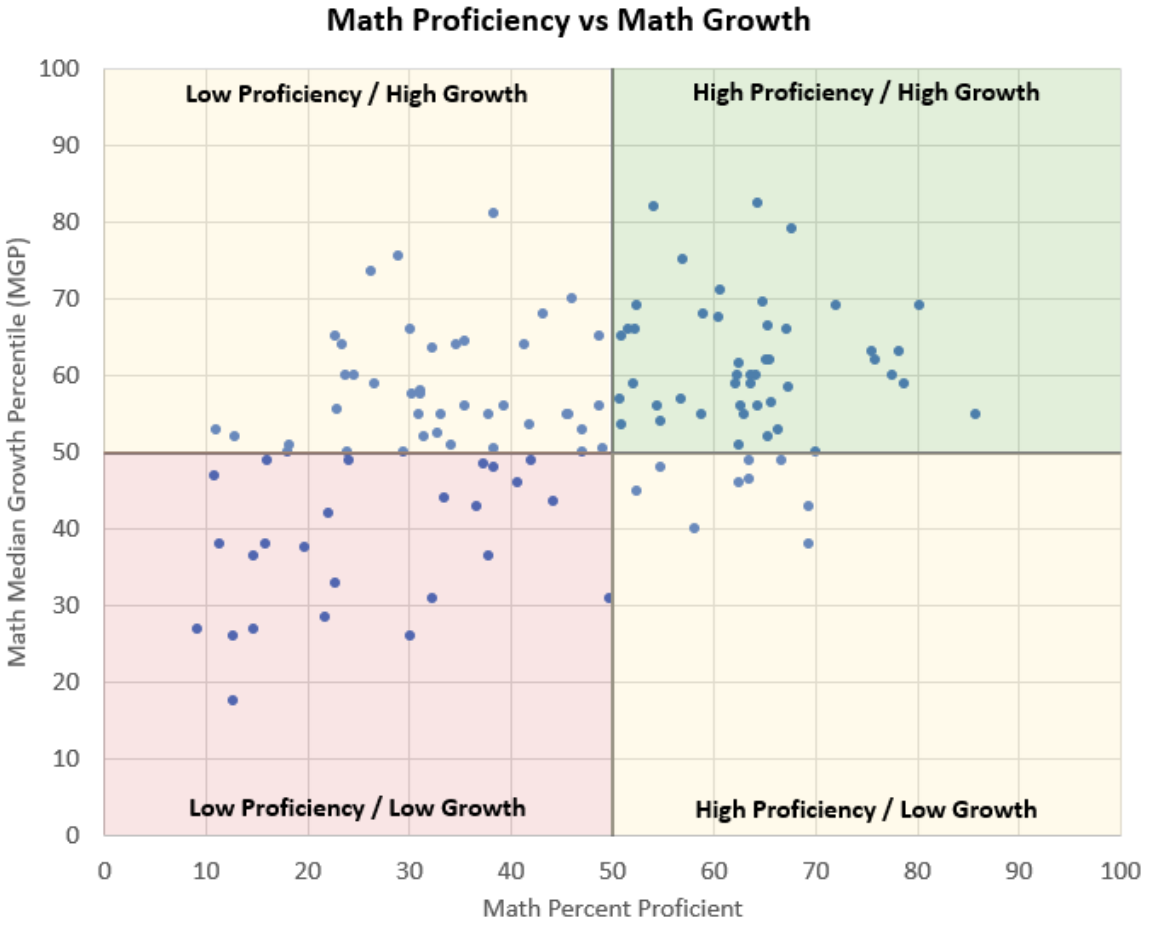

Nevada State Public Charter School Authority

Rates calculated by SPCSA using NSPF rules. Data displayed include the three most recent available years.

SPCSA School Proficiency Versus Growth

For ELA, many SPCSA schools have high proficiency and growth. For Math, the results are more mixed.

Academic Performance Ratings Overview

2025-26 SPCSA Academic Performance Framework results

Nevada State Public Charter School Authority

SPCSA Academic Performance Framework Refresher

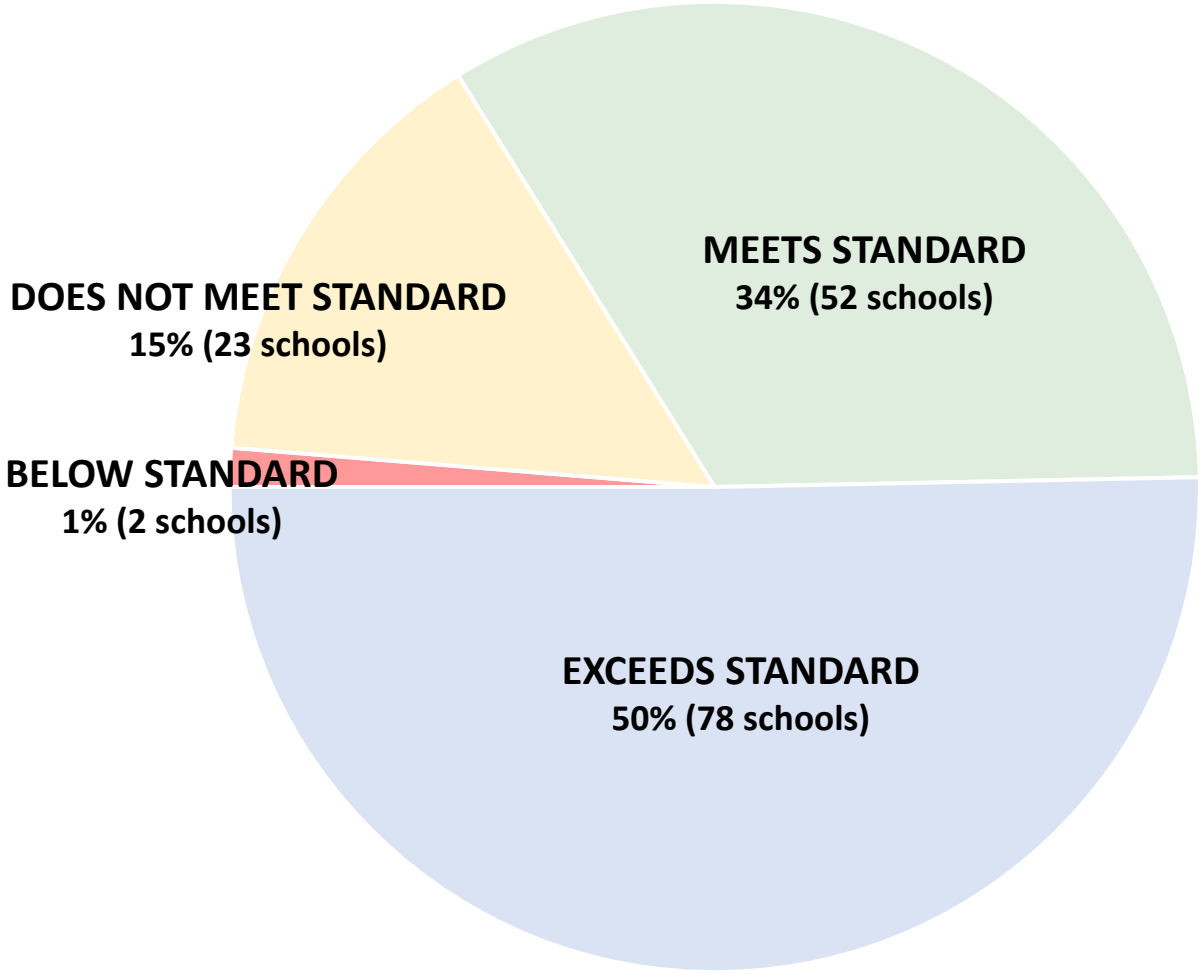

- Schools earn points based on their performance in the measures.
- Points for measures are totaled under indicators, and indicators are summed to a score from 1 to 100.
- The point total is then tied to one of four performance levels (ratings):
  - Exceeds Standard
  - Meets Standard
  - Does Not Meet Standard
  - Below Standard
- Generally, to receive a rating, an NSPF star rating is required.
- Framework results annually published around November for prior school year.

2025-26 SPCSA Academic Performance Framework Ratings

About 84% of SPCSA schools Meet or Exceed Standards.

2025-26 SPCSA Academic Performance Framework Ratings

INDICATOR Zip Code Comparison	How are SPCSA schools performing versus other public schools in their community? 118 of 155 = 76.1% of SPCSA schools had an NSPF score at or above the average NSPF score for schools in their zip code (or district, if there were zero schools in their zip code).
INDICATOR Chronic Absenteeism Reduction	Are SPCSA schools reducing chronic absenteeism? 78 of 150 = 52% of SPCSA schools with two years of data decreased their chronic absenteeism rate.
INDICATOR Student Group Comparison	How well are SPCSA schools serving at-risk student groups? Examples: 85 of 119 = 71% of SPCSA elem./middle schools had an FRL Math MGP above their district FRL Math MGP. 24 of 27 = 89% of SPCSA high schools had a FRL graduation rate above their district FRL graduation rate.

Nevada State Public Charter School Authority

Data exclude schools that did not receive a rating and schools where the indicator was not applicable. The requirements to receive an SPCSA Academic Framework rating are found in the Technical Guide. One "school" may contain multiple levels (elementary, middle, high).

Takeaways: 2025-26 SPCSA Academic Performance

- NSPF, Proficiency, and Growth
  - About 81% of SPCSA schools achieved a three-star or higher NSPF rating, which outperformed the state (51% of schools were 3-star or higher) and all Nevada districts except one small district.
  - Generally, proficiency rates (overall and for most student groups) decreased over the last year but still outperform the state. However, many students are still not meeting grade-level proficiency expectations.
  - SPCSA median growth is mixed in recent years, while the percent of SPCSA students meeting their growth targets generally decreased over last year.
- SPCSA Academic Performance Framework
  - About 84% of SPCSA schools received a Meets or Exceeds Standard rating.
  - About 76% of SPCSA schools had an NSPF score at or above the average NSPF score for schools in their zip code.

Authority Oversight of Academic Performance

NRS 388A.150 Creation; purpose.

1. The State Public Charter School Authority is hereby created. The purpose of the State Public Charter School Authority is to:

(a) Authorize charter schools of high-quality throughout this State with the goal of expanding the opportunities for pupils in this State, including, without limitation, pupils who are at risk.

(b) Provide oversight to the charter schools that it sponsors to ensure that those charter schools maintain high educational and operational standards, preserve autonomy and safeguard the interests of pupils and the community.

(c) Serve as a model of the best practices in sponsoring charter schools and foster a climate in this State in which all high-quality charter schools, regardless of sponsor, can flourish.

Authority Oversight of Academic Performance: State Law/Regulations

- Poor academic performance for an SPCSA school may result in Authority action, per Nevada state law and regulation:
  - Mandatory termination[1]
    - Three one-star NSPF ratings in three consecutive school years, with a narrow and temporary exception.
  - Permissive termination[2]
    - High schools – a graduation rate under 60 percent for the immediately preceding school year.
    - Elementary and middle schools – lowest 5 percent in NSPF score statewide for the immediately preceding school year.
    - Elementary, middle, and high schools – receives a one- or two-star NSPF rating in each of the last three ratings OR has "not complied consistently" with the SPCSA Performance Framework.

- Historically, the Authority has issued academic notices to notify schools and their governing boards of academic underperformance. With continued underperformance, the Authority may elevate a notice, or in extreme cases, terminate a charter contract per state law/regulation.
  - Historically, the Authority has issued Notices of Concern, Notices of Breach, and Notices of Intent to Revoke, in order of severity.

[1]NRS 388A.300 and SB460 (2025). Per NRS 388A.274, charter schools approved to be rated on the Nevada Alternative Performance Framework are exempt from mandatory termination provisions. SB460, as passed by the 2025 Nevada Legislature, provides a temporary and narrow exception to mandatory closure when schools are within range of a 2-star NSPF rating.
[2]NRS 388A.330 and NAC 388A.350.
