I hope to see Pathways In Education – Las Vegas approved as a new charter school in North Las Vegas. Many students in Clark County face challenges that traditional schools can't always address. While this model may not be for everyone, I believe students deserve access to multiple educational options so they can thrive in environments that truly meet their needs. I fully support the approval of this school and the opportunities it would bring to our community.

Dear Members of the SPCSA,

As someone committed to supporting vulnerable youth in our community, I write in strong support of the charter application for Pathways In Education – Las Vegas. In my role in the local non-profit sector, I've worked closely with individuals and families experiencing food insecurity, housing instability, and other barriers that often prevent students from thriving in traditional educational environments.

Pathways offers more than just academic instruction—it provides a flexible, personalized, and compassionate model that meets students where they are. By integrating individualized learning plans, mental health supports, and flexible scheduling, Pathways demonstrates a deep understanding of the unique challenges many young people face today.

I have seen that when students' basic needs are met—when they are supported, understood, and given a safe space to grow—they are more likely to remain in school and work toward long-term success. Pathways embodies this holistic approach, creating a foundation that fosters both educational achievement and personal stability.

I respectfully urge the SPCSA to approve this application. Pathways would be a powerful addition to our community, giving students who have been underserved or overlooked a real opportunity to succeed.

Sincerely,
Cynthia Lewis
The Just One Project

Dear Nevada Charter Authority,

I believe Pathways In Education-Las Vegas will fill a crucial gap in our educational system by offering a unique program targeted to students who may have otherwise dropped out. For too long, many young people have lacked access to the kind of flexible, supportive, and personalized education that meets them where they are—both academically and personally.

Pathways-Las Vegas is designed to do just that, providing an inclusive learning environment that not only helps students recover credits and stay on track to graduate, but also equips them with the skills needed to navigate the challenges of the 21st century. Through individualized learning plans, real-world experiences, and strong teacher-student relationships, the school is setting students up for long-term success—whether in college, career, or community life.

This is more than just an alternative education option; it's an essential investment in the future of our city, giving underserved students the opportunity to reach their full potential and contribute meaningfully to society.

As a Las Vegas community member who cares deeply about educational opportunities for all children, I see Pathways In Education - Las Vegas as a positive step toward expanding access to quality education. I personally am passionate about helping women and their family secure their future through Real Estate and Finance empowerment. I strongly believe that the younger we empower individuals, the stronger our communities will be.

By providing flexible learning options, personalized support, and a commitment to meeting students where they are, Pathways is helping to ensure that more young people—especially those who have been underserved in traditional settings—have the chance to thrive. Pathways will provide students a chance to learn about emotional intelligence and how to build a healthy budget. This kind of innovative educational model will strengthen the social and economic fabric of our city.

Life's a journey, not a destination. Let's give all our Las Vegas young people a chance to experience this journey!

As an educator with deep roots in Las Vegas and a background in both psychology and education, I've dedicated my career to supporting the young people who need us most—first-generation students, youth experiencing housing instability, and those finding their way through the often overwhelming postsecondary journey. This work is not just my profession, it's my purpose.

I believe every student deserves access to an education that sees them, supports them, and helps them believe in what's possible. That's why I'm so inspired by Pathways In Education—Las Vegas. Their focus on personalized instruction and real-world learning is exactly the kind of approach that can change lives.

Our community needs more schools like this—places that understand students as individuals and meet them where they are. I truly believe Pathways will be a powerful addition to our educational landscape.

Please, grant them your approval. Our students are counting on us to create more pathways to opportunity.

As a parent, I strongly support the approval of Pathways In Education – Las Vegas. My child has faced challenges in most of our local schools, and I know firsthand how important it is to have options for school that are flexible and student centered. Pathways provides exactly that.

This school seems to understand that every student learns differently. They don't just focus on academics—they invest in the whole student, helping them build confidence, set goals, and make progress at a pace that works for them. For families like mine, this approach makes all the difference.

Las Vegas needs schools that meet students where they are and help them reach where they want to go. Please approve this charter and give more students in our community the chance to succeed.

As someone who works closely with families in the Las Vegas community, I see every day the need for more high school options that are different from what we have. That's why I fully support the approval of Pathways In Education – Las Vegas.

Many young people in our community face barriers that make it difficult to thrive in regular school settings—whether it's due to lack of housing, the need to work, or personal challenges.

Approving this school would expand opportunities for some of our most underserved youth and provide a critical resource to families who need options. It's a step in the right direction for our city, and I urge you to give Pathways the chance to serve our students.

Pathways

Please provide your input for Pathways In Education - Las Vegas below *

I have worked under the Pathways

Organization in past years and now as a resident in Las Vegas and working in CCSD, I can surely say that our children can benefit from another avenue on how they can accomplish their path toward graduation and finish their education. As a Coach and Admin Assistant, we have students who struggle, Pathways is another vital avenue in California that gives students a way to finish the first step to their further. Pathways can ensure that any student who chooses to enroll, will be able to complete their goals to graduate and add to our State's graduation rate. Alternative education programs are needed. We have students who are falling in the crack for whatever their circumstances and are missing other ways to complete their high school diploma. We need to care about our students, we have students who need another way to finish their education. Pathways helps those students find success and feel the ability to accomplish their goal and graduate with an accredited high school diploma. Pathways brings that ability and synergy to the Valley.

Sleep in Heaven;ly Peace

Please provide your input for Pathways In Education - Las Vegas below *

Sleep in Heavenly Peace (SHP) is a volunteer-driven 501(c)(3) organization that builds and delivers beds to children in need within our community.

Approximately 2-3% of children living in communities across the United States, including in your district, do not sleep in their own bed. They may co-sleep with other family members, sleep on couches, or even on the floor. A good night's sleep is crucial for a child's development. When kids have comfortable beds of their own, they can rest soundly, leading to better physical and mental health. This translates to improved academic performance, stronger emotional well-being, and a better ability to connect with others socially.

The Las Vegas, NV Chapter of SHP acknowledges that access to a bed and a restful night's sleep is intrinsically linked to the necessity of a stable and supportive educational environment, such as that offered by Pathways in Education, for the at-risk youth of North Las Vegas.

We firmly believe that Pathways in Education would provide lasting benefits to the youth of North Las Vegas, extending well beyond their high school years and laying a strong foundation for success in adulthood - something that is critically needed in this underserved community. As such, our organization is honored to collaborate with the Pathways team in establishing their presence as a vital resource for North Las Vegas.

I am submitting this comment in strong support of Pathways in Education Las Vegas. Pathways in Education provides a vital alternative for students who need a flexible, approach to earning their high school diploma. Many young people fall through the cracks of in our high schools - whether because of work responsibilities, family obligations, and health challenges. When a young person completes their education instead of dropping out, our entire community benefits—through a stronger workforce, reduced strain on social services, and the lasting difference an education makes across a lifetime. Programs like Pathways in Education fill a real and pressing need in the Las Vegas community. I urge you to continue supporting this valuable resource so that every student, regardless of their circumstances, has a path to success.

Thank you!

Please approve Pathways In Education - Las Vegas. Our students and the families of Las Vegas are worth the effort, the difference of instruction, and meaningful relationships that change the lives of students. Investing in innovative, student-centered educational models like Pathways strengthens our communities by increasing graduation rates, expanding educational access, and preparing more young people for successful futures. Pathways creates opportunities for students to succeed academically while overcoming personal and life challenges. Pathways fills a critical gap in the educational landscape by providing students with individualized support and opportunities that can truly change the trajectory of their lives. Approving this new charter would be an asset to Las Vegas.

I have heard of many students who have struggled to get by in school because of trauma at home, or the loss of the bread winner of the family and they had to take on great financial responsibility and put their education on the back burner. I believe a school like Pathways will bring much needed relief to the students who feel they have to choose. This school says it will provide the flexibility many of the young people of North Las Vegas need. I would like to see the SPCSA approve Pathways In Education - Las Vegas.

My brother struggled for years to get a high school diploma and he was never successful. His life is dramatically different because of his lack of diploma. A school aimed to help students who've struggled receive their diploma is a good use of a charter approval. I believe in Pathways' mission to deliver on their promise to support these students.

Please provide your input for Pathways In Education - Las Vegas below *

As an educator, I've seen the gaps firsthand. Many students in Las Vegas struggle not because they lack ability but because traditional schools aren't equipped to meet them where they are. Pathways In Education - Las Vegas provides a model that fills that void. Approving this school isn't just about increasing options, it's about investing in a system that lifts young people out of crisis and puts them back on track to graduate and thrive. I strongly urge the SPCSA to support this application and give North Las Vegas families the lifeline they've been waiting for.

I want to see Pathways in Education be approved to serve all the students of Las Vegas. They say their track record can bring much needed support to the students especially to those who learn differently, so I ask the SPCSA do this for the students who need extra help with getting to the graduation finish line.

I want to see the homeless issue for kids especially improve. I think for those kids who have lost their way and don't feel that a regular school setting is possible, they could go to a place like Pathways and be able to accomplish something like graduating. As a community member that's important to me and I want Pathways to be approved.

I heard the SPCSA is considering approving a new school that is focused on the students who are normally forgotten or who seem like they are not worth fighting for. Since Pathways In Education - Las Vegas says they are committed to serving the students who haven't seen much success, I want them to be approved. The kids of Las Vegas deserve the opportunity.

I'm writing in strong support of Pathways in Education–Las Vegas's (PIE-LV) proposal to open a new campus in North Las Vegas in fall 2027.

I'm a parent in Las Vegas, and I've seen firsthand how many students fall behind on credits and lose momentum toward graduation.

Credit-deficient students are too often written off, but with the right structure and support, they can get back on track and earn their diploma. A school specifically designed to serve this population fills a real gap in our community. North Las Vegas needs more pathways — not fewer — for students who've stumbled to recover and succeed.

I urge the State Public Charter School Authority to approve PIE-LV's application. Expanding access to credit-recovery education will directly benefit students, families, and the broader community of Las Vegas.

Thank you for your consideration.

I have lived in Vegas for 7+ years and, while I don't have children of my own, I have seen how CCSD continues to fail its students. Pathways would offer an excellent alternative option for families whose children need extra support. With the recent investment in the NLV community, this school would be a great addition to boosting NLV's economy and overall image.

There is no shortage of kids who need what Pathways is offering. As a parent, I believe every child should have access to as many resources as possible to succeed, and approving Pathways In Education - Las Vegas is a vital resource. I personally know many families in Las Vegas who have shared feedback with me that they wish there were more charter schools available to their kids to consider. Pathways would be a great option, especially for students who need a more personalized and supportive learning environment.
