Dear SPCSA Board Members,

My name is Breanna A, and I am the proud Dragon parent of two children at DANN. This is our 4th year at the school. One of the things I appreciate most about the school is the small class sizes and the genuine dedication the teachers have to their students and their education. I'm a substitute teacher at the school and I know firsthand how invested teachers are in continuing to grow professionally, attending conferences and learning from other organizations beyond our local community, then bringing that knowledge and experience back to our campus to benefit our children.

We are fortunate to live close to the school, but I also recognize that many families travel from different parts of the area to give their children the opportunity to attend DANN. Having additional campuses in other parts of town would make this education more accessible to families and allow more students to benefit from the wonderful community and learning environment DANN provides.

As a parent, I want to see DANN continue to grow, reach more families, and provide the same quality education and support to future students. I'm excited for the future opportunity of a DANN High school and the meaningful connections it'll foster between the university and local businesses.

I respectfully ask the SPCSA Board to approve the amendment as submitted and help make these opportunities possible for more children in our community.

Thank you for your time, consideration, and continued commitment to our students and families.

Sincerely,
Breanna A
