Dear SPCSA Staff and Board Members,

Doral is a wonderful school and its staff and teachers are wonderful too. The students are well behaved and super kind. Because Doral is a K-8 the school benefits from the young kids seeing the older ones as role models. Doral also expands on this idea with family Fridays. This allows each kid to go to a new classroom with kids of all grades and the young kids are paired with older ones in order to help complete a colorful drawing to encourage people that help a good cause or are being helped by a good cause. The electives are unique, such as 3d printing and digital art and marketing, both of these electives expand on undiscovered ideas for middle schooler and digital art and marketing is something that would help with most future careers. Public speech and debate are another example of good electives that will help with most future careers. The teachers are great too. The teachers will always help you when you're not able to do something and explain the topic the best that they can. As you can see, Doral's is an amazing school, and it is a happy community of students and teachers working together to learn.
