Dear SPCSA Staff and Board Members, Doral is an amazing school that does so much more than teaching. Our teachers are kind, thoughtful, and very forgiving. We want to share these qualities with as many kids as possible. That is why we should create an alternative site so more kids can come and experience the great learning and supportive environment. Doral offers many electives for middle schoolers such as band, mixed media, painting, drama, 3D printing, and many others, also Doral gives four electives along with the basics of English, Math, Science, and History. Doral also has fun special events like the color run, where students run around the school, in white shirts, while getting sprayed with colorful mist. Another fun activity we do here at Doral is Family Friday where kids from different grades and different classes come together on a Friday to do a fun community service activity with lots of games. Doral also has unique teaching techniques such as doing reader's theaters and other interactive activities to make sure we fully understand the concept. Here at Doral we have great staff, everyone has a job so we can all keep learning and participating while doing fun extracurricular activities. Doral is a great school and has lots of positive qualities. I love doral and want to share its kindness and teaching with the world.

sincerely Peter Fairchild
