Subject: Why a second Doral should be opened

Some people who received this message don't often get email from lorelai.gesick@gmail.com. [Learn why this is important](#)

WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear SPCSA and Board Members,

Doral Academy of Northern Nevada is a wonderful school it also only offers high school level classes and exciting electives, Musical Theatre and Dance and many more, it is extremely accepting. All of these many good qualities create a safe, fun and intellectually strong environment. Doral Academy offers high school level classes, such as Algebra, Honors Biology, which allows students to be prepared for high school and be able to learn more. Another example is their hybrid science, a class that students in biology take in order to learn the 8th grade science curriculum, which allows students a deep understanding of what they are learning. As for the many exciting classes the school offers, this makes the school amazing because it allows students free expression and teaches them the basic concepts of the topic and it allows students with busy schedules to still participate in performing arts. The school is also accepting and not meaning it has a high acceptance rate but students at the school are not all the same for there are queer and straight kids, kids of varying religions and different ethnicities and kids with mental health problems all of the above at Doral are accepted and made a part of the Doral family. That makes Doral amazing because it allows students to feel accepted freed and cared about by their fellow students and teachers. The school also does not tolerate bullying at all whether it be physical or verbal the school will put a stop to it and allow the kid or kids who were bullied to go to the councilors office and if a student is accused of bullying the school makes sure to ask everyone involved. So please take this all into consideration when thinking of making a second Doral campus here in Nevada.

Sincerely,

Lorelai Gesick
